Villa Mia

3440 Palmer Drive, Suite 8J, Cameron Park
 530-677-9420

Did you know that Cameron Park hosts a little piece of old World Europe tucked away in a corner? It is known as Villa Mia – located just off Highway 50 in the Bel Air Shopping Center.

Although owners Diane Edwards and Sylvia Yetter do present the Mediterranean influence of Italian and French décor, they still carry a varying style of products from all over the world. Their primary focus is SERVICE for their customers who like to come in to relax, dream, or just to find that special treasure. You can even belly up to the counter with a glass of wine to work out any decorating details during Villa Mia's infamous "Wine-Thirty."

Villa Mia offers specialized services that go over and above that of your typical home décor store. The "Personal Surroundings" service sends experts from the store to your home to stage it with accessories that complement your home's décor. Their "Professional Design" service utilizes the skills of professional designers who give advice and assistance on every aspect of your home, from drapes to the garden. They also offer "Home for Sale" assistance where your home can be prepared to go on the market.

Nope, their awesome service doesn't stop here. They also make a couple of pledges to their customers that most businesses wouldn't dare promise. Pledge #1: "If we don't have it, we'll find it for you." They work with an extensive list of resources, for everything from faux finishes or murals to special order big furniture items. Villa Mia can literally provide you with anything you want, or need for your home. Pledge #2: "We'll meet, or beat any pricing out there."

Editor's note: Having shopped there often, I can tell you it really is a delightful experience!
