Dear Senator Toomey,

On behalf of the Upper St. Clair Republican Committee, I write to you today to express our collective disappointment in your vote FOR the second impeachment trial of Donald J. Trump.

We very much admit and appreciate the censure by numerous other Republican committees for this very poor decision. Your vote in support of the impeachment trial is qualified as follows:

“by voting in favor of a process that followed no known hearing process, provided no evidence to consider, called no witnesses to be sworn, and allowed none of the accusers to be questioned by the accused...”

As a fellow Republican, I ask you to make your decisions going forward on a more informed basis. Facts as generated by objective research, not facts as generated by mainstream pro-left media and DNC. The House Hearing demonstrated that much of the information utilized to support such a trial was mis-represented by both the DNC and the mass media. In fact, the Republican Impeachment Hearing Managers demonstrated that most of the information presented was, in fact, false or taken out of context.

Further, evidence has shown that many of the rioters and protestors were not Trump supporters nor were these individuals incited by President Trump's concern about fraudulent election outcomes. Instead, the riotous and militant persons were part of other organizations which merely used the President's remarks as an excuse to incite such behavior and violence.

Trump did not incite any violence nor encourage any rebellion more than raising the appropriate skepticism that the outcomes of many elections were manipulated and/or fraudulent. In this regard, I ask you to investigate and seek evidence rather than accept the mainstream media's disposition that the entire election process was above manipulation, objective, and accurately reflected the disposition of the populous vote. Please add Dominion Voting Systems to your list requiring investigation.

Thank you for your attention to these matters and your consideration going forward.

Sincerely,

Jeffrey A. Krantz
Member, Executive Committee
