Education

2017: Graduated with a double major in Architecture and Interior Architecture from Mersin Toros University.

Professional Experience

2016 | Site Architect | Mersin City Hospital Construction Project

Responsible for fixed and movable furniture, wooden applications (wall and ceiling cladding), construction and reinforcement works. Duties included preparing detailed drawings, providing them to teams, offering consultancy, and conducting field inspections throughout the construction process.

2016-2018 | Site Architect | Ankara Bilkent City Hospital Construction Project

Continued in a similar role as in Mersin City Hospital, managing the same scope of responsibilities, including wooden applications and interior fit-outs.

2018-2019 | Site Architect | Istanbul New Airport Construction Project

Oversaw the interior works of Turkish Airlines (THY) sales offices within the Terminal Building. Provided site reports to THY, participated in site inspections as the responsible architect, coordinated with subcontractors, prepared shop drawings for approval, managed the transfer of designs to the site, and supervised implementation processes.

2021 – Present

Independent Architectural and Interior Design Services

Providing architectural and interior design services independently through my own company in various fields.
