MISSION 2: SMART MONEY HABITS

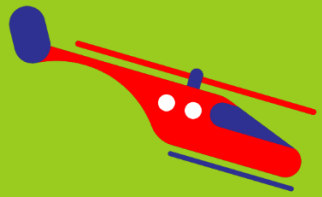

MISSION SAVING

Why Save Money ?

Adem saw a toy helicopter at the store.

“I want it!” he said.

His mom replied, “Let’s save for it.”

Adem imagined it flying in his room.

“Okay... I’ll wait.”

And he began to save his money.

The Piggy Bank Rule

Adem got \$5 and his dad showed him three jars. “One for saving, one for spending, one for giving.”

Adem carefully split the money.

“It’s like a mission,” he said.

Setting a Goal

Adem drew a picture of the helicopter and taped it to his wall.

“This is my goal,” he said proudly.

Every coin he saved brought him closer.

Smart Spending

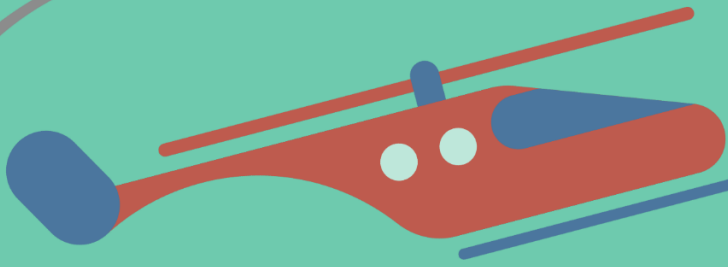

At the store, Adem picked up a candy but paused.

“Will I still want this tomorrow?” he asked himself.

He slowly put it back.

“I’m saving for my helicopter.”

Waiting is Powerful

Weeks later, Lucas finally had enough money.

When he bought the helicopter, it felt even better than he imagined.

“Waiting and saving made it special,” he said.

Avoiding Money Mistakes

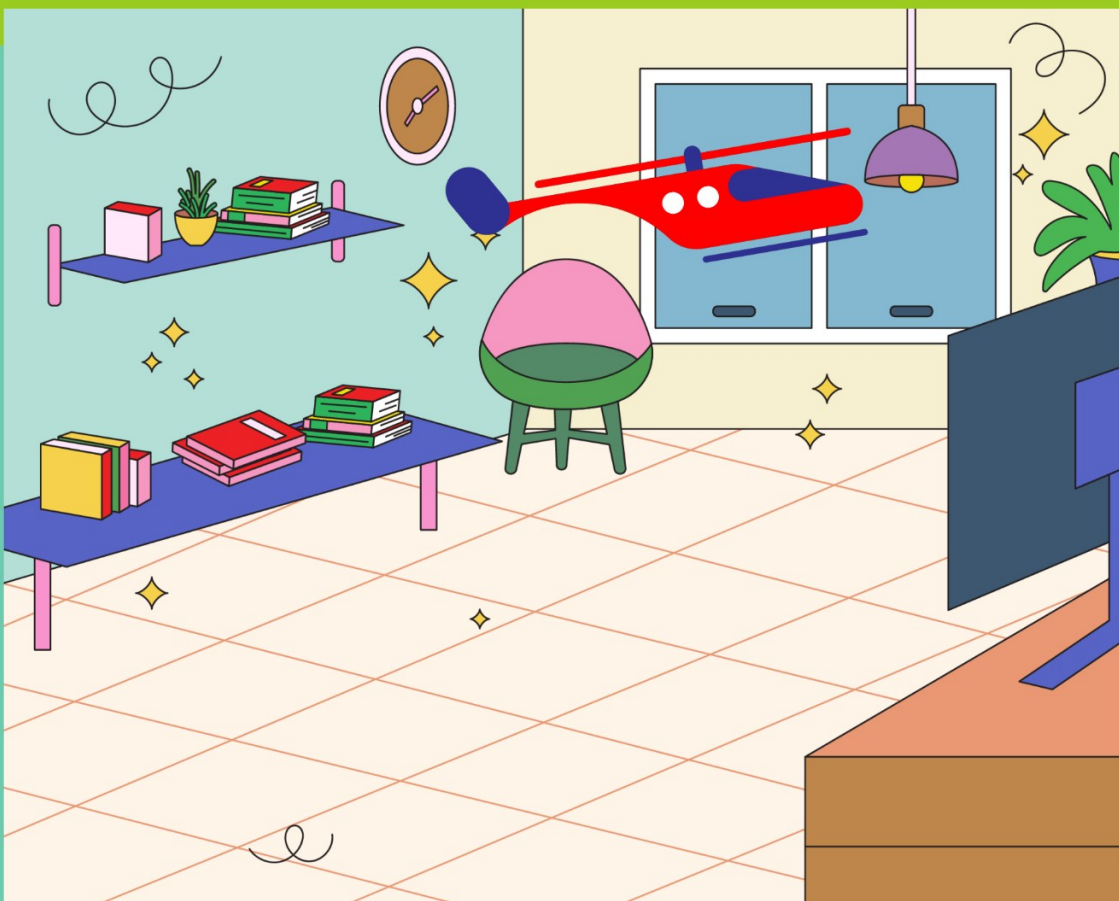

His friend spent all his money on candies and had none left.

Adem thought,

“I’m glad I saved mine.”

Adem flew his helicopter across the living room.

“Saving and waiting worked!” he cheered.
