HOW IT WORKS

This is our four-step process to onboard a new client, ensuring a smooth transition and setting the stage for a successful partnership

01

Initial Consultation and Assessment

We begin with an introductory meeting to get to know each other, understand your business model, and discuss your specific bookkeeping and financial management needs. This step involves a detailed assessment of your current financial systems, bookkeeping practices, and any challenges you're facing.

02

Proposal and Agreement

We provide a detailed proposal outlining the scope of services, deliverables, timelines, and pricing tailored to your business requirements. We discuss the proposal with you to ensure it meets your expectations and make any necessary adjustments.

03

Onboarding

Once the proposal is finalized, we sign a service agreement that outlines the terms of our engagement, and confidentiality. We provide an overview of our bookkeeping processes, including how and when financial reports will be delivered, communication protocols, and how to submit documents and information to us.

04

Ongoing Support and Communication

Following the onboarding, we establish regular check-ins to discuss your financials, any concerns, and adjustments to services as your business evolves. Our team remains available for any questions or additional support needed, ensuring a seamless and supportive partnership.
