PATENTED THERAPEUTIC USE  
**WEIGHT WISE**  
CLINICALLY PROVEN CAPSULES

Zero-calorie WeightWise becomes a non-digestible gel that is excreted via the gastrointestinal route. Patented WeightWise Supplements provide a drug-free pathway to feeling full and support weight management and hunger control.

In a clinical study, use of WeightWise resulted in significant body weight change in the first two weeks of use. Weight loss was also significantly greater in the first two weeks versus placebo.

There was also a trend toward greater weight loss at week 4 and week 8 for people using WeightWise.

WeightWise can be an effective tool in the weight loss journeys of consumers who want a safe method to lose weight without the serious side effects of popular weight loss drugs.

The proprietary technology behind WeightWise is backed by science and supported by clinical results to help lose weight and control hunger.

**Supplement Facts**

Serving Size: 3 Capsules  
Servings per Container: 112

Amount Per Capsule	% Daily Value
Polyacrylic Acid 1,000 mg	***
Calcium Carbonate 522 mg	***

\*\*\* Daily Value Not Established

**Other ingredients:** Vegetable Magnesium Stearate, hydroxypropylmethylcellulose (HPMC) capsule

**Suggested Use:**

Take three capsules twice daily, preferably one hour before lunch and dinner, or as directed by your healthcare professional.

**Manufactured Exclusively For:**

HB Biotechnologies Corporation, NY, NY 10014 USA

**Warning**

There are upper limits for the daily use of Calcium Carbonate. Depending on the use, this could range from 2 to 8 grams. As with any supplement, speak to your healthcare provider. If you experience undesirable gastrointestinal discomfort, discontinue use. Take other supplements or medications at a separate time, at least one hour from taking WeightWise Supplements. Not intended for pregnant or nursing women. Do not use if you are allergic to any of the ingredients.

PATENTED THERAPEUTIC USE

# FLUID MANAGER

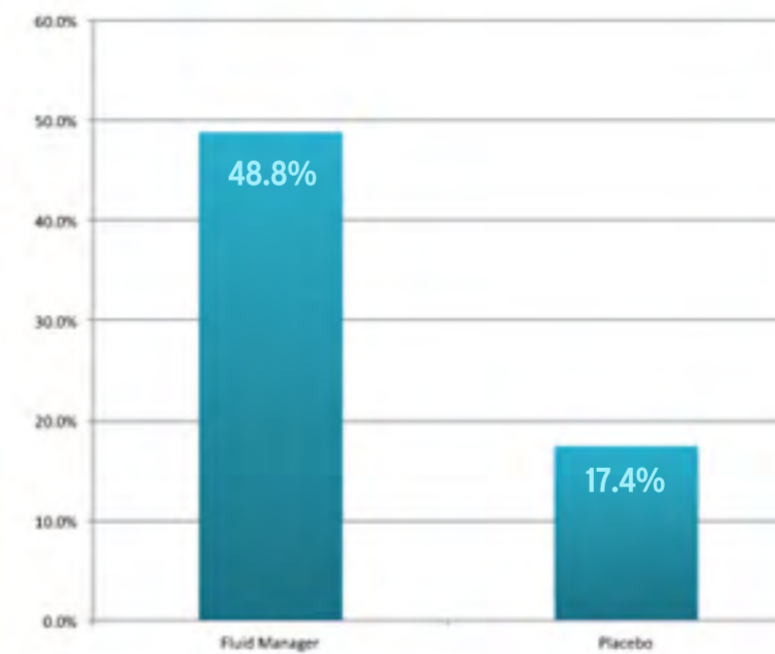

CLINICALLY PROVEN CAPSULES

Available without a prescription, Fluid Manager absorbs large amounts of fluid that is excreted via the gastrointestinal route, without relying on kidney function.

Edema, fluid overload, and excess fluid retention can be caused by numerous reasons.

In a clinical study, nearly half of people with heart failure and chronic kidney disease who took 15 grams of Fluid Manager experienced at least one heart failure class improvement after eight weeks.

### Improvements in NYHA Functional Classification (Heart Failure Class)

The difference in proportions of people with at least one class improvement from Baseline to Week 8 was significant in favor of Fluid Manager.

Studies support that clinical benefits to health can result from managing fluid, including improvements in blood pressure, body weight, ability to breathe, endurance, heart failure classification, and other quality of life measures.

PATENTED THERAPEUTIC USE

# SODIUM MANAGER

CLINICALLY PROVEN CAPSULES

Sodium Manager absorbs and traps significant amounts of sodium in a non digestible gel until excreted via the gastrointestinal route.

Sodium Manager Supplements provide a pathway for everyone to manage and better control their sodium levels. Sodium intake is a key determinant in variations in blood pressure.

Under normal circumstances, virtually all sodium that is ingested and that is secreted by the gut itself is reabsorbed into the body.\*

It is the job of the kidneys to excrete sodium. There is a negligible amount of sodium in poop.

That all changes with Sodium Manager.

Sodium Manager Supplements are clinically proven to reduce sodium in the body. Studies show that managing sodium can result in beneficial health effects, including improved blood pressure.

\*Ann. Transl Med 2015;3(4):49

PATENTED THERAPEUTIC USE

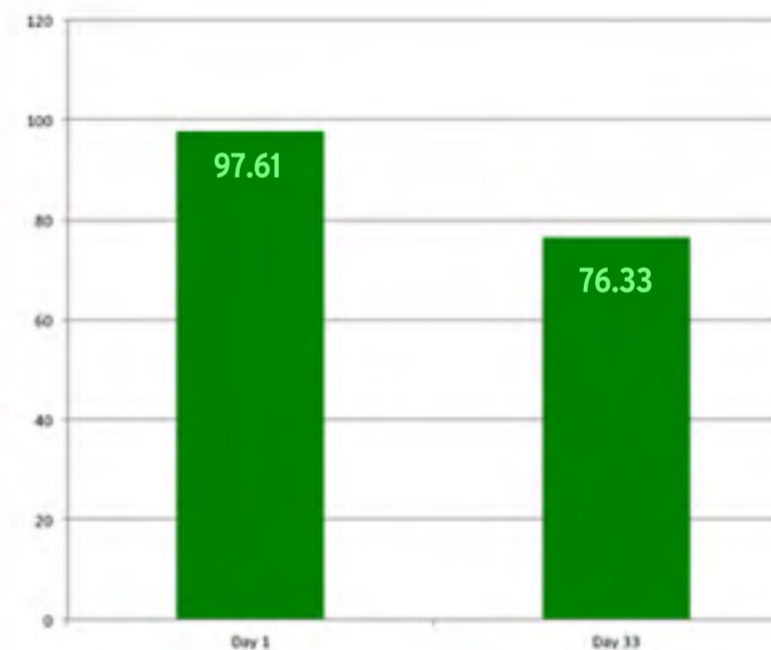

# CHOLESTEROL HELPER

CLINICALLY PROVEN CAPSULES

High cholesterol is a hallmark of cardiovascular disease. Cholesterol Helper Supplements provide a non-drug solution to help manage cholesterol.

In a clinical study of 18 adults with heart failure, use of 15 grams per day for 33 days generally resulted in improvements and lowered LDL Cholesterol. The trend was also lower overall cholesterol and lower triglyceride levels.

Average LDL Cholesterol (mg/dL)

The superabsorbent material in Cholesterol Helper has characteristics of soluble fiber. The thick gel of soluble fiber slows digestion, which keeps blood sugar from spiking and traps fats so they can't be absorbed – which lowers cholesterol levels. There are numerous benefits to health associated with lower cholesterol including improved heart health and decreased risk of type 2 diabetes.

## PATENTED THERAPEUTIC USE GLUCOSE MANAGER

CLINICALLY PROVEN CAPSULES

Glucose Manager Supplements form a non-digestible gel with characteristics of soluble fiber. The thick gel of soluble fiber slows the emptying of the stomach, the passage of digestion, and the absorption of glucose which helps improve blood sugar levels.

In a clinical study of 18 adults with heart failure, use of 15 grams of Glucose Manager after 33 days generally resulted in lowered and improved blood glucose levels.

Average Blood Glucose Level (mg/dL)

Blood sugar plays an important role in how you feel. When it comes to high glucose levels, your health can suffer. There are numerous benefits to health associated with managing blood sugar including decreased risk of type 2 diabetes, heart disease, and kidney disease. Glucose Manager Supplements provide a non-drug solution to support healthy blood glucose levels.

PATENTED THERAPEUTIC USE

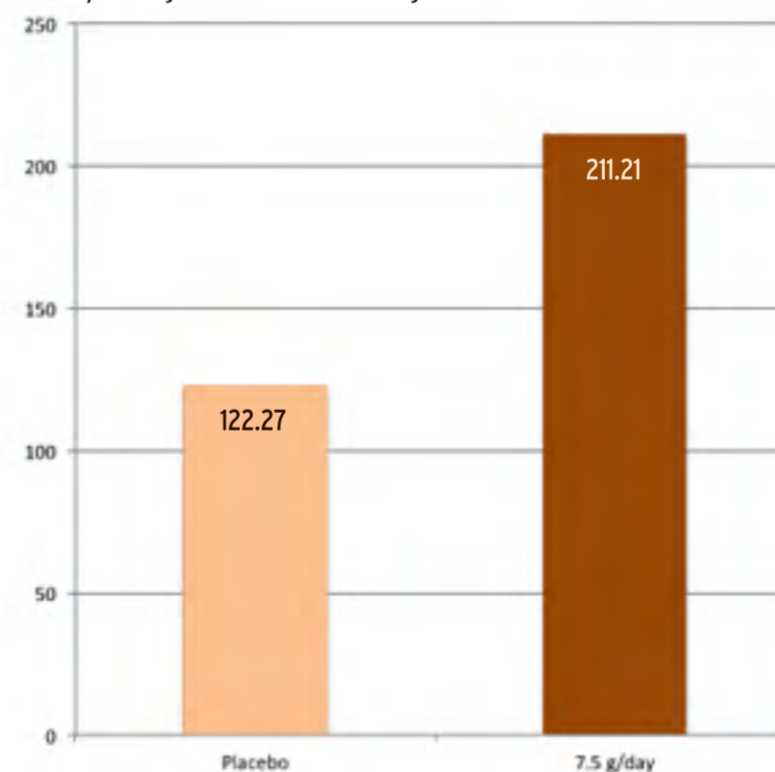

# COLON HEALTH

CLINICALLY PROVEN CAPSULES

The superabsorbent material in Colon Health Supplements becomes a non-digestible gel that has the characteristics of both insoluble and soluble fiber.

Soluble fiber absorbs water and softens stools. Soft stools are easier to pass and can prevent constipation. Insoluble fibers “bulk up” your poop, which prevents loose poops and keeps things moving. Together, they keep things smooth and regular.

9-Day Average Increase in Fecal Weight

A clinical study showed total fecal weight increased – adding bulk to stool compared to the control with use of Colon Health Supplements for nine days.

Adding bulk to your stool can provide numerous benefits including improved gut health.
