## CAPABILITY STATEMENT

### Core Competencies

#### Expertise in:

- Logistics management and optimization, transportation solutions
- Nationwide 2PL & 3PL services customized to meet the specific needs of clients
- Digital tools incorporated into day-to-day operations that provide real-time shipment visibility and dynamic updates
- Negotiation and securing competitive rates for shipping freight from an extensive, reputable carrier base

### Differentiators

#### A Mark of Reliability...

- Our asset services and network of carriers pre-qualified for safety and performance result in cost and time savings for our customers
- In business for over five years with an on-time delivery rate of 99% (but less than 100%), no lost shipments and no accidents
- Experienced in full truckload (FTL), less-than-truckload (LTL), over dimensional and heavy haul (Specialty Freight)
- A.I.G. Logistics is a U.S. Environmental Protection Agency (EPA) SmartWay® Transport Partner, which helps us reduce our carbon footprint through sustainable business practices

### Past Performance

#### Established Logistics Provider.

- FEMA
- US Military (SDDC)
- Texas Facilities Commission Federal Surplus (Military Property)
- Oil and Gas Industry, Quail Tools
- Oil and Gas Industry, Weatherford
