ANYTHING BUT UNIFORM

# Consistency Not

# Stand Out Together.

**UNIFORMS SHOULDN'T HIDE WHO YOU ARE.** They should amplify it. Uniforms should make space for individuals — not erase it. Dickies® gives you the canvas, you bring the color, the texture, the story.

From personal skills to personal style, Dickies® has spent over 100 years helping teams show up, stand out, and make their mark. All without checking their personality at the door.

For whatever the day brings, the right uniform program should feel right for your team. Choose from our catalog of options built for movement, made to last, and sharp enough to match your crew's energy. We design for real work and real people, so your team can wear it with confidence and wear it their way.

Outfit your team in iconic workwear that reflects who they are, because expression doesn't shut off on the clock — it shows up and stands tall. When what you wear says who you are, it's **ANYTHING BUT UNIFORM.**

ANYTHING BUT UNIFORM

*Conformity.*

# Where Innovations Meet Icons

Dickies innovations are made for the job and the way workers show up. Temp-iQ® adapts to individual body heat to keep you cool under pressure, FLEX delivers stretch that moves with you, and WorkTech adds airflow where it matters most. They work together to amp up style without sacrificing performance.

**Consistent cool, day after day**

A polymer that reacts to body heat, instantly cooling you down.

Flex

## Where freedom of motion meets freedom of expression

This high-performance fabric stretches and moves with you.

WorkTech

## Made to work and built to breathe

These shirts use performance mesh fabric insets on the back of the garment to improve breathability.

Dickies®
Temp-iQ®

# Let Your Style Talk Not Your Sweat

Body temps vary. Comfort shouldn't. Temp-iQ® is an advanced fabric that adapts to an individual's body heat and acts to cool it down.

| 47 | Premium 11" Industrial Multi-Use Pocket Short |

### HOW IT WORKS

The Temp-iQ® polymer reacts to rising body heat delivering a cooling effect. Then it stabilizes as temperatures lower to help maintain consistent comfort.

### HOW IT HELPS

Temp-iQ® reacts differently to each member of your team, providing the perfect level of comfort and coolness when they need it most.

# Dickie Flex

**HOW IT WORKS**

The fabric stretches when the worker stretches. It also wicks away moisture and is wrinkle and abrasion resistant.

**HOW IT HELPS**

With FLEX, nothing's holding your team back from being themselves and getting the job done.

# Designed to Stretch, Made to Express All Day Comfort, All Your Style

Everyone moves differently. This high-performance fabric gives each member on your team the freedom to move in their own way.

# Make It Yours

TAKE PERSONAL EXPRESSION UP A NOTCH with unique customization that reflects your company and individual team members' style. From logos to patches to embroidered name tags, there are multiple ways you can make each look feel true to your team.

### TEXT EMBROIDERY

Have names and titles embroidered directly on the garment. Just choose the location, font, size and color.

### LOGO EMBROIDERY

Have your company's logo embroidered directly on your uniform.

### NAME BADGES

Select your patch style and stylize your text to make names stand out.

### AMERICAN FLAG PATCH

Show your pride and add an American flag patch.

### HEMMING

Hem the length of your team's pants so they fit and flatter every team member.

### REFLECTIVE STRIPING

Keep your team safe by adding reflective trim on t-shirts, vests, outerwear and more. Choose your width and color combo.

# Icon Collection

# Over 100 Years of Iconic Style

Your team is one-of-a-kind, and their style should be too. The pieces in our Icon Collection put Dickies on the map over 100 years ago, and continue to celebrate personal expression at work for whoever wears them.

GET THE LOOK 1

## Where Traditional Meets Timeless

A perfect pair with our 774® Work pants, our traditional work shirt is just as stylish tucked or untucked, tossed over a shirt or not, and flatters any and all body types who wear it.

+ **Top: FS57KH, See Page 85 | Bottom: FP74KH, See Page 94**

GET THE LOOK 2

## An Icon Since 1922

Dickies started in 1922 with these coveralls, and they're a best-seller to this day. Whether worn over a tee, slung on one side or cuffed over boots, they're equal parts cool and comfortable.

+ **Top: WS50HG, See Page 25 | Coveralls: 8329, See Page 68**

GET THE LOOK 3

## Made for Then and Now

A cult-favorite for a reason, styling our short-sleeve coverall is easy and breezy, whether you layer it up, cuff it, or both.

# Measuring for Proper Fit

**The following guidelines are important in measuring proper fit.**

- Give all measurements in inches.
- If the person's measurements are between sizes, order the larger size. For example: a man's neck measures 15¾" you should order size large in a short sleeve shirt or a 16-16½" in a long sleeve shirt.
- For greatest accuracy, have someone take measurements rather than allowing customers to measure themselves.
- The tape measure should be pulled snug, not tight.
- Check the size scale of all garments being ordered to ensure that all measurements were taken at the proper points

**MEN'S SHIRTS**

- NECK: Measurement is the circumference of the neck as illustrated.
- SLEEVE LENGTH: Measured by placing one end of the tape at bottom of the collar at the center of the back and marking the distance around the elbow to the bottom of the wrist. It is often helpful to have the arm slightly bent
- CHEST: Taken at the fullest part of the chest, keeping the tape under arms and around shoulder blades. Hold tape level and firmly but not tight.

**MEN'S TROUSERS, JEANS AND BIB OVERALLS**

- WAIST: Measurement is taken at the top of the hipbone over shirt (not over pants). Tape should be held snug not tight.
- INSEAM: Measurement taken from base of the crotch to top of the shoe or boot. For jeans, add 1".
- It is advisable to ask the person being measured how he or she wears their trousers. Not everyone wears their trousers or jeans the same length or height on their hips.

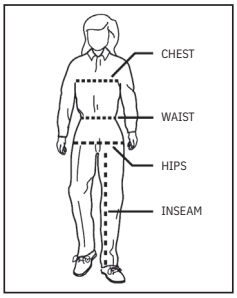

**JACKETS**

- CHEST SIZE: Taken at the fullest point of the chest, keeping tape under arms and around shoulder blades. Measurement should be taken over clothing, preferably over same garment or types of garments to be work with the jacket.
- SLEEVE LENGTH: Measure by placing one end of the tape at the bottom of the collar at the center of the back and marking the distance around the elbow to the outer edge of the wrist.

## Men's Size Charts

| PANTS JEANS, BIB OVERALLS | | |
|---|---|---|
| **Size** | **Waist** | **Chest** |
| S/M | 34-36 | 34-40 |
| L/XL | 38-40 | 42-48 |
| 2XL/3XL | 40-46 | 50-56 |
| 4XL/5XL | 48-52 | 58-64 |
| 6XL/7XL | 54-60 | 66-72 |

| SHIRT AND COVERALLS | | |
|---|---|---|
| **Size** | **Chest** | **Neck** |
| S | 34-36 | 14-14½ |
| M | 38-40 | 15-15½ |
| L | 42-44 | 16-16½ |
| XL | 46-48 | 17-17½ |
| 2XL | 50-52 | 18-18½ |
| 3XL | 54-56 | 19-19½ |
| 4XL | 58-60 | 20-20½ |
| 5XL | 62-64 | 21-21½ |
| 6XL | 66-68 | 22-22½ |
| 7XL | 70-72 | 23-23½ |

**WOMEN'S WEAR**

- CHEST: Measurement is taken at the fullest point of the bust. Measure across shoulder blades with arms relaxed down at sides, keeping tape parallel to the floor. Hold tape level and firmly but not tight.
- WAIST: Measurement is taken around the natural waistline. Keep the measuring tape comfortably loose.
- HIP: Measurement is taken by standing with heels together. Keep tape straight and parallel to the floor, measure around the fullest part.

| Flex | High-performance fabrics made with specialized polyester wrapped yarns for superior flexibility and exceptional abrasion resistance. |
| SAFECINCH® | Patented concealed drawcord technology. US Patent #8,875,313 |
| WEATHERWEAVE | Wind resistance, water resistance |

| | |
|---|---|
| HOME WASH FRIENDLY | Home Wash |
| INDUSTRIAL WASH FRIENDLY | (HEAVY SOIL) This method of industrial laundering is commonly used to remove heavy soil with a combination of higher water temperature (160° F max.) and harsher chemistry; pH should be held to 11.5 max. More aggressive wash formulas may be necessary to remove heavy soils but may result in accelerated color loss, deterioration in performance of retroreflective trim and overall reduced garment service life. |
| EXECUTIVE WASH FRIENDLY | (LIGHT SOIL) This less aggressive industrial laundering process is commonly used on garments which are lightly soiled or made of fabrics that are not designed to withstand higher washing temperatures or harsher chemistry. In a typical light soil formula, water temperatures are usually held to a maximum of 140° F and pH 10.5 max. |

# Create your Dickies® Uniform Program

CONFORMITY HAS NEVER BEEN OUR THING, AND OUR UNIFORM PROGRAMS SHOW THAT. We're all about cohesion and style over convention, because uniforms should bring people together without taking away individuality. And after more than a century in business, we've learned that the right uniform program does more than outfit your team, it builds connection and pride in how they show up for the job.

## HOW TO GET STARTED

We've broken down exactly what you need to do to outfit your team.

1. Coordinate a One-on-One Assessment: We'll learn about your team's needs, environment and goals.
2. Design the Perfect Program: Choose styles, fabrics and fits that align with your team's needs.
3. Trial Your Fits and Give Us Feedback: Test the garments, let us know what works (and what doesn't), and select your team's favorites.
4. Delivery & Program Management: We'll connect you with one of our world-class distributors to ensure you always get what you need, when you need it.
5. Refinement & Support: We continually monitor your program and adapt as your business and team evolve.

ANYTHING
BUT UNIFORM
