

Advertiser Review: Vital Dentistry

Bright Shiny Choppers ... Okay, so these are teeth, not motorcycles. We know most folks would prefer to be reading about a new shop with all the chrome and fancy stuff they have to look at. BUT, when time comes and you need a dentist, you'll be glad you were already introduced to Dr. Steve. Otherwise, you'll be looking at the phone book or a list from your insurance provider. At that point, one name looks pretty much like another. Better to be familiar with someone before you need 'em.

Dr. Steve Vital has been a dentist for more than 34 years, receiving his credentials from Washington University at St Louis. Dr Steve and all of his staff go through continuous education to keep up with the latest information in their fields. His office is located at 3505 E. Brown Rd., Suite 102 in Mesa, AZ. They accept pretty much all of the various insurance and dental plans. Just check with them when you call in if you have any insurance-related questions.

Services provided include all the basics: cleanings, root canals, fillings, crowns, reliev-

ing tooth aches, etc. Cosmetic dentistry, including all ceramic crowns and natural fillings, is available.

I can say from experience that Dr Steve and his staff are good at putting nervous patients at ease and making them comfortable. Procedures he uses make things about as painless as can be, too. We have both had work done by Dr. Steve and are pleased with the results.

They address patients' specific concerns plus their overall dental health.

Dr Steve has been recognized by both the State of Arizona and the AZ Dental Association for volunteering his services to ACTION DDS - Donated Dental Services. This program is a humanitarian service to disabled, elderly, and medically-compromised people.

Dr Steve's personal interests include riding motorcycles and flying his airplane. He estimates he's been riding for about 20 years, off and on; and flying for

about 15 years. He is a HOG chapter member. He enjoys finding new places to ride to. You know those 'small-talk' moments that you have to go through with a doctor? Well, it's pretty cool to be able to talk bikes and such with someone who is also part of the riding community.

Dr. Steve and his staff practice 'The Art of Dentistry'.

These people are knowledgeable and friendly, and genuinely care about their patients. So when you're looking for a dentist, give Dr. Steve a call at 480-924-6169. Vital Dentistry is online at www.facebook.com/VitalDentistry/

Tell 'em Bruce & Betsy sent ya.
