# DOWN-N-DURDY SUNDAY DINNER

This year's [Down-n-Durdy](#) Sunday Dinner fundraiser was held on August 18th at American Legion Post 41, located at 715 South 2nd Avenue in Phoenix. The menu included Mexican food... Burritos, Quesadillas, & Tacos. Some of the Down-n-Durdy Survivors attended. Their stories are very inspiring, as well as sharing how much a grass-roots group such as D-n-D can TRULY help.

There were numerous items donated toward the raffles & auction. Among the items available to win were an H-D basket donated by Desert Wind H-D; a 2x3 flag and a metal sign donated by Air-A-Zona Flag Company; a Black Squier Stratocaster Electric Guitar autographed by Crobot, The Virginmarys, and Aeges ~ donated by a D-n-D survivor; a motorcycle cover from D&D Discount Motorcycles; an Olive Garden gift card; a Dual Track motorcycle Motohorn; a collectible

baseball signed by Randy Johnson and Curt Shilling with a certificate of authenticity; oil & filter service from Greulich's Automotive Services; and more. There was also a huge 50/50, according to Skippy.

These messages were posted by President & Co-founder Chris 'Skippy' Noll, "One of our best turnouts ever! What a success!!!" and "All the sponsorship checks, raffles, t-shirt, patches, and all the individual donations brought us to a total \$14,479 dollars, with a couple more thousand promised. The money raised is definitely going to help with our mission to provide LOVE, SUPPORT, and FINANCIAL ASSISTANCE to riders and their families when they are injured in a motorcycle accident! We are all in this together!" It was noted later that, in less than 3 weeks since the Sunday Dinner, D-n-D had paid \$4500 worth of bills on

behalf of the families they are helping. Prior to that, in 2024 D-n-D had already paid \$20,000 of families bills after being impacted by a motorcycle accident. Outstanding!

What Down-n-Durdy does is wonderful. This organization is a blessing to our community. The next Down-n-Durdy event will be Drew's Ride 2025 Saturday, February 22, leaving out of Desert Wind Harley-Davidson. But there is no need to wait to help D-n-D support our fallen brothers & sisters. Their website is set up to receive donations at any time. Just follow this link <https://down-n-durdy.org/donate/> Learn more about Down-n-Durdy via their website, <https://down-n-durdy.org/>

Your continued support is greatly appreciated.

NHTSA Campaign #: 24V713000  
Insufficient Side and Rear  
Reflectors/FMVSS 108

Summary: Royal Enfield North America Limited (Royal Enfield) is recalling certain 2023 Himalayan, Classic 350, Meteor 350, Hunter 350, Super Meteor 650, Int 650, and Continental GT 650 motorcycles. The side and rear reflectors are not sufficient. As such, these lights fail to comply with the requirements of Federal Motor Vehicle Safety Standard number 108, "Lamps, Reflective Devices, and Associated Equipment." Without the proper reflective equipment, it may be difficult for other road users to see the motorcycle from the rear or side, increasing the risk of a crash.

Potential # Units Affected 4,017  
Remedy: Dealers will replace the side and rear reflectors, free of charge. Owner notification letters are expected to be mailed October 30, 2024. Owners may contact Royal Enfield's customer service at 1-866-600-1122.

AMA Enduro Champion,  
Pioneer among women riders,  
Motor Maids Co-Founder.  
Inducted into the Hall of Fame 1998

Dot Robinson is considered a pioneer for promoting motorcycling for women in the middle of the 20th century. In 1941, Robinson helped form the Motor Maids, an organization for women who enjoyed motorcycling. Robinson also opened doors for women riders in the competition arena. A regular competitor in endurance runs in the 1930s, '40s and '50s, Robinson's desire to race came under attack. Attempts were made to prevent her from participating in the sport she loved. But she persevered and was allowed to compete, making it possible for other women to race in later years.

Robinson was born on April 22, 1912, in Australia, and was a motorcyclist even before her birth. When her mother went into labor with Dot, her father, James Goulding, loaded Dot's mother into a sidecar rig and dashed off to the hospital.

Goulding was a sidecar designer and

# AMA Hall of Fame Inductee: Dot Robinson

amateur racer and his designs were renowned for their reliability. Goulding moved to the United States to expand his sidecar business. The Goulding family made America home in 1918 and eventually settled in Saginaw, Michigan, running a motorcycle dealership. Dot grew up around motorcycles and started riding at a young age. She met her future husband, Earl, while she was in high school.

"Everyday after school, Earl would come to the shop to buy one part or another," Robinson recalled. "By the time we were married, Earl probably had enough parts to start his own store."

The Robinsons were married in 1931 and both participated in endurance runs and races. Dot earned her first trophy in 1930 at the Flint 100 Endurance race. After the couple made a record transcontinental run together in 1935, Harley-Davidson asked the Robinsons if they would like to run a dealership. Soon afterward the couple moved to Detroit and opened a successful Harley-Davidson dealership, which they ran until 1971.

In 1934, Dot entered her first Jack Pine National Endurance Championship in her home state of Michigan. By 1940, Dot won the famous Jack Pine in the sidecar class, becoming the first woman to win in AMA national compe-

tition. She repeated the feat in 1946.

While attending the Laconia national in 1940, Dot was approached by a New England rider named Linda Dugeau about starting a women's riding organization. Within a year, the Motor Maids was established. The organization was instrumental in convincing many women to try motorcycling for themselves. Motor Maid activities were covered extensively with a monthly column for years in *American Motorcyclist* magazine. In the 1950s, Dot began wearing her trademark pink riding outfits. She turned away from the traditional black leather outfits after movies of the day portrayed black-leather-clad motorcyclists as outlaws.

After the Robinsons sold their dealership in 1971, the couple traveled extensively by motorcycle. Dot's favorite trip was a 6,000-mile excursion through the country of her birth, Australia. Earl died in 1996, but Dot kept right on riding until January of 1998 at the age of 85, when knee replacement surgery made it too difficult to get on and off her sidecar rig. She figured she had totaled a million and a half miles in her years of riding.

Dorothy Robinson passed away on October 8, 1999. She was 87 years old.

The AMA Motorcycle Hall of Fame Museum is located at 13515 Yarmouth Drive in Pickerington, Ohio 43147. You can also learn about more of the AMA's Motorcycle Hall of Fame Inductees by [clicking here.](#)

Motorcycle Riders Foundation -  
October 02, 2024

## To Err Is Human - To Really Muck Up Requires A Computer

Two self-driving taxi companies embarrassingly made news this week. First, while Vice-President Kamala Harris was in San Francisco, her travel was interrupted when a Waymo robotaxi got stuck in the path of the Vice-Presidential motorcade while trying to make a turn. The driverless vehicle had to be manually moved by police to unblock the route. That story comes on the heels of reports from San Francisco that parking lots with off-duty Waymo vehicles become confused and start honking at one another. Nearby residents have complained about the driverless cars honking randomly at all hours of the day and night.

In more serious news, General Motors robotaxi company, Cruise, will undergo more stringent oversight and pay a fine to settle claims by the National Highway Traffic Safety Administration (NHTSA) that it failed to disclose information about a crash involving one of its cars that struck and dragged a pedestrian last fall.

In October 2023, a Cruise robotaxi dragged a pedestrian nearly 20 feet before coming to a stop. The incident injured the pedestrian and resulted in a suspension of Cruise's license to operate in California. The case prompted Cruise to recall its

*Motorcycle Riders Foundation*  
*Automated Taxi Mayhem*

automated driving system. According to NHTSA, two reports Cruise provided about the event failed to disclose post-crash details and were incomplete.

Remember that all three of these stories involved vehicles with no driver behind the wheel! The Motorcycle Riders Foundation remains committed to spreading the word about the protection that all roadway users deserve from being test subjects for this new technology. If the Vice-President of the United States can have her path blocked by a driverless car, what chance does the average biker have out there?

# Glacier National Park or Bust!

A road trip shared by Jennifer Parker Sievers, the [Motorcycle Princess](#)

Come share my 11-day, 3700 plus miles, 7 states ride thru two of the West’s greatest National Parks. Our goal was to ride Glacier National Park, MT; Beartooth Pass, MT/WY; Yellow Stone National Park WY; the Flaming Gorge, UT; Grand Mesa Scenic Byway, CO; Chief Joseph Hwy, WY; and to stop at 8 Harley-Davidson dealerships along the way.

The Plan. There were 2 of us on this ride. Our plan was a little different. We decided to blast up to Glacier National Park in Northern Montana just 30 miles south of the Canadian border. We rode 1400 miles in 3 days from Chandler, AZ to Columbia Falls, MT; averaging about 475 miles a day. Arizona was 115 degrees on August 29; the day we left. We landed in Columbia Falls Montana {just outside Glacier National Park} on day 3 at 65 degrees. We brought the range of all weather gear: cooling vests, leathers,

chaps, thermals, heated jackets, and heated gloves.

We were worried because a foot of snow had fallen on the Pass of Glacier National Park Thursday late afternoon; but we were lucky because the snow melted the next day. By the time we rode GNP on Sunday, the high of the day was 84 degrees.

Glacier National Park was amazing. We started our day west of the park; leaving out of Columbia Falls. It’s a great town to stay in. Then we rode just south of the park along Highway 2; which was an amazing road in itself. We decided to enter on the St. Mary side (East side of the Park) and head west. We entered the park and the Mountain views are beautiful. We pulled over and decided to hike to Bearing Falls, which was only a half a mile. We were in our motorcycle gear but it was so worth it. Beautiful is an understatement.

Then we got back on our bikes and rode to Logan Pass, the highest paved road in Glacier; where there had been

a foot of snow 3 days earlier. Then we rode the rest of the “Going-to-the-Sun” Road to McDonald Lake. We stopped for some yummy lunch sitting outside, which we can’t do in September in Arizona, and enjoyed the views of the lake. Then we rode back to Columbia and walked to a fun outside bar and listen to Country music.

The next day was our coldest, riding along the mountain before the sun was upon us in 41 degree weather. I used all my heated gear and all my clothes to stay warm.

Our next big stop was Red Lodge MT. This was my favorite stop. The hotel was amazing and super biker friendly. I highly recommend The Alpine Lodge. You get to park in front of your room and they have a bike wash area with rags. They also offer cooked to order breakfast. This town is the cutest. I want to go back and spend a long weekend there.

The next morning we rode Beartooth Pass and Chief Joseph Highway. Wow!

*continues on pg 11*

AZ Rider  
**Glacier National Park or Bust!**<sup>1</sup>  
continues from page 10

This ride is so worth it! The views are amazing and the road has great twisties. We came upon multiple little lakes/ponds that were picturesque like we were in a Hallmark movie. Then we turned off to Chief Joseph Highway to Cody WY. We decided to go to Buffalo Bill Museum. Everyone recommended it, so we had to go. It really is a great stop & I highly recommend it. We ended the day just outside of Yellowstone.

The next day we went to Yellowstone and rode the park. This park is amazing and you really need 3 days minimum to see it. I have been before but these areas were new to me: We stopped at Artist Point which was a beautiful view of an amazing falls and then rode the loop to Excelsior Geyser Crater which has beautifully colored pools.

Our next stop was The Flaming Gorge. We rode the west side of the Gorge. The first half was nothing to write home about ... but when we got to the Gorge it was soooooo pretty! There were beautiful red

rock canyons.

We unintentionally ended in Grand Junction CO for the night. When we got to Grand Junction HD we found out that the Rocky Mountain HOG Rally was going on AND our Scottsdale HOG Chapter was there! So we changed our plans and decided to stay the night and hang with our peeps and our favorite HOG Chapter buddy. Pacific Coast HOG out of Huntington Beach was there as well. We had fun with friends.

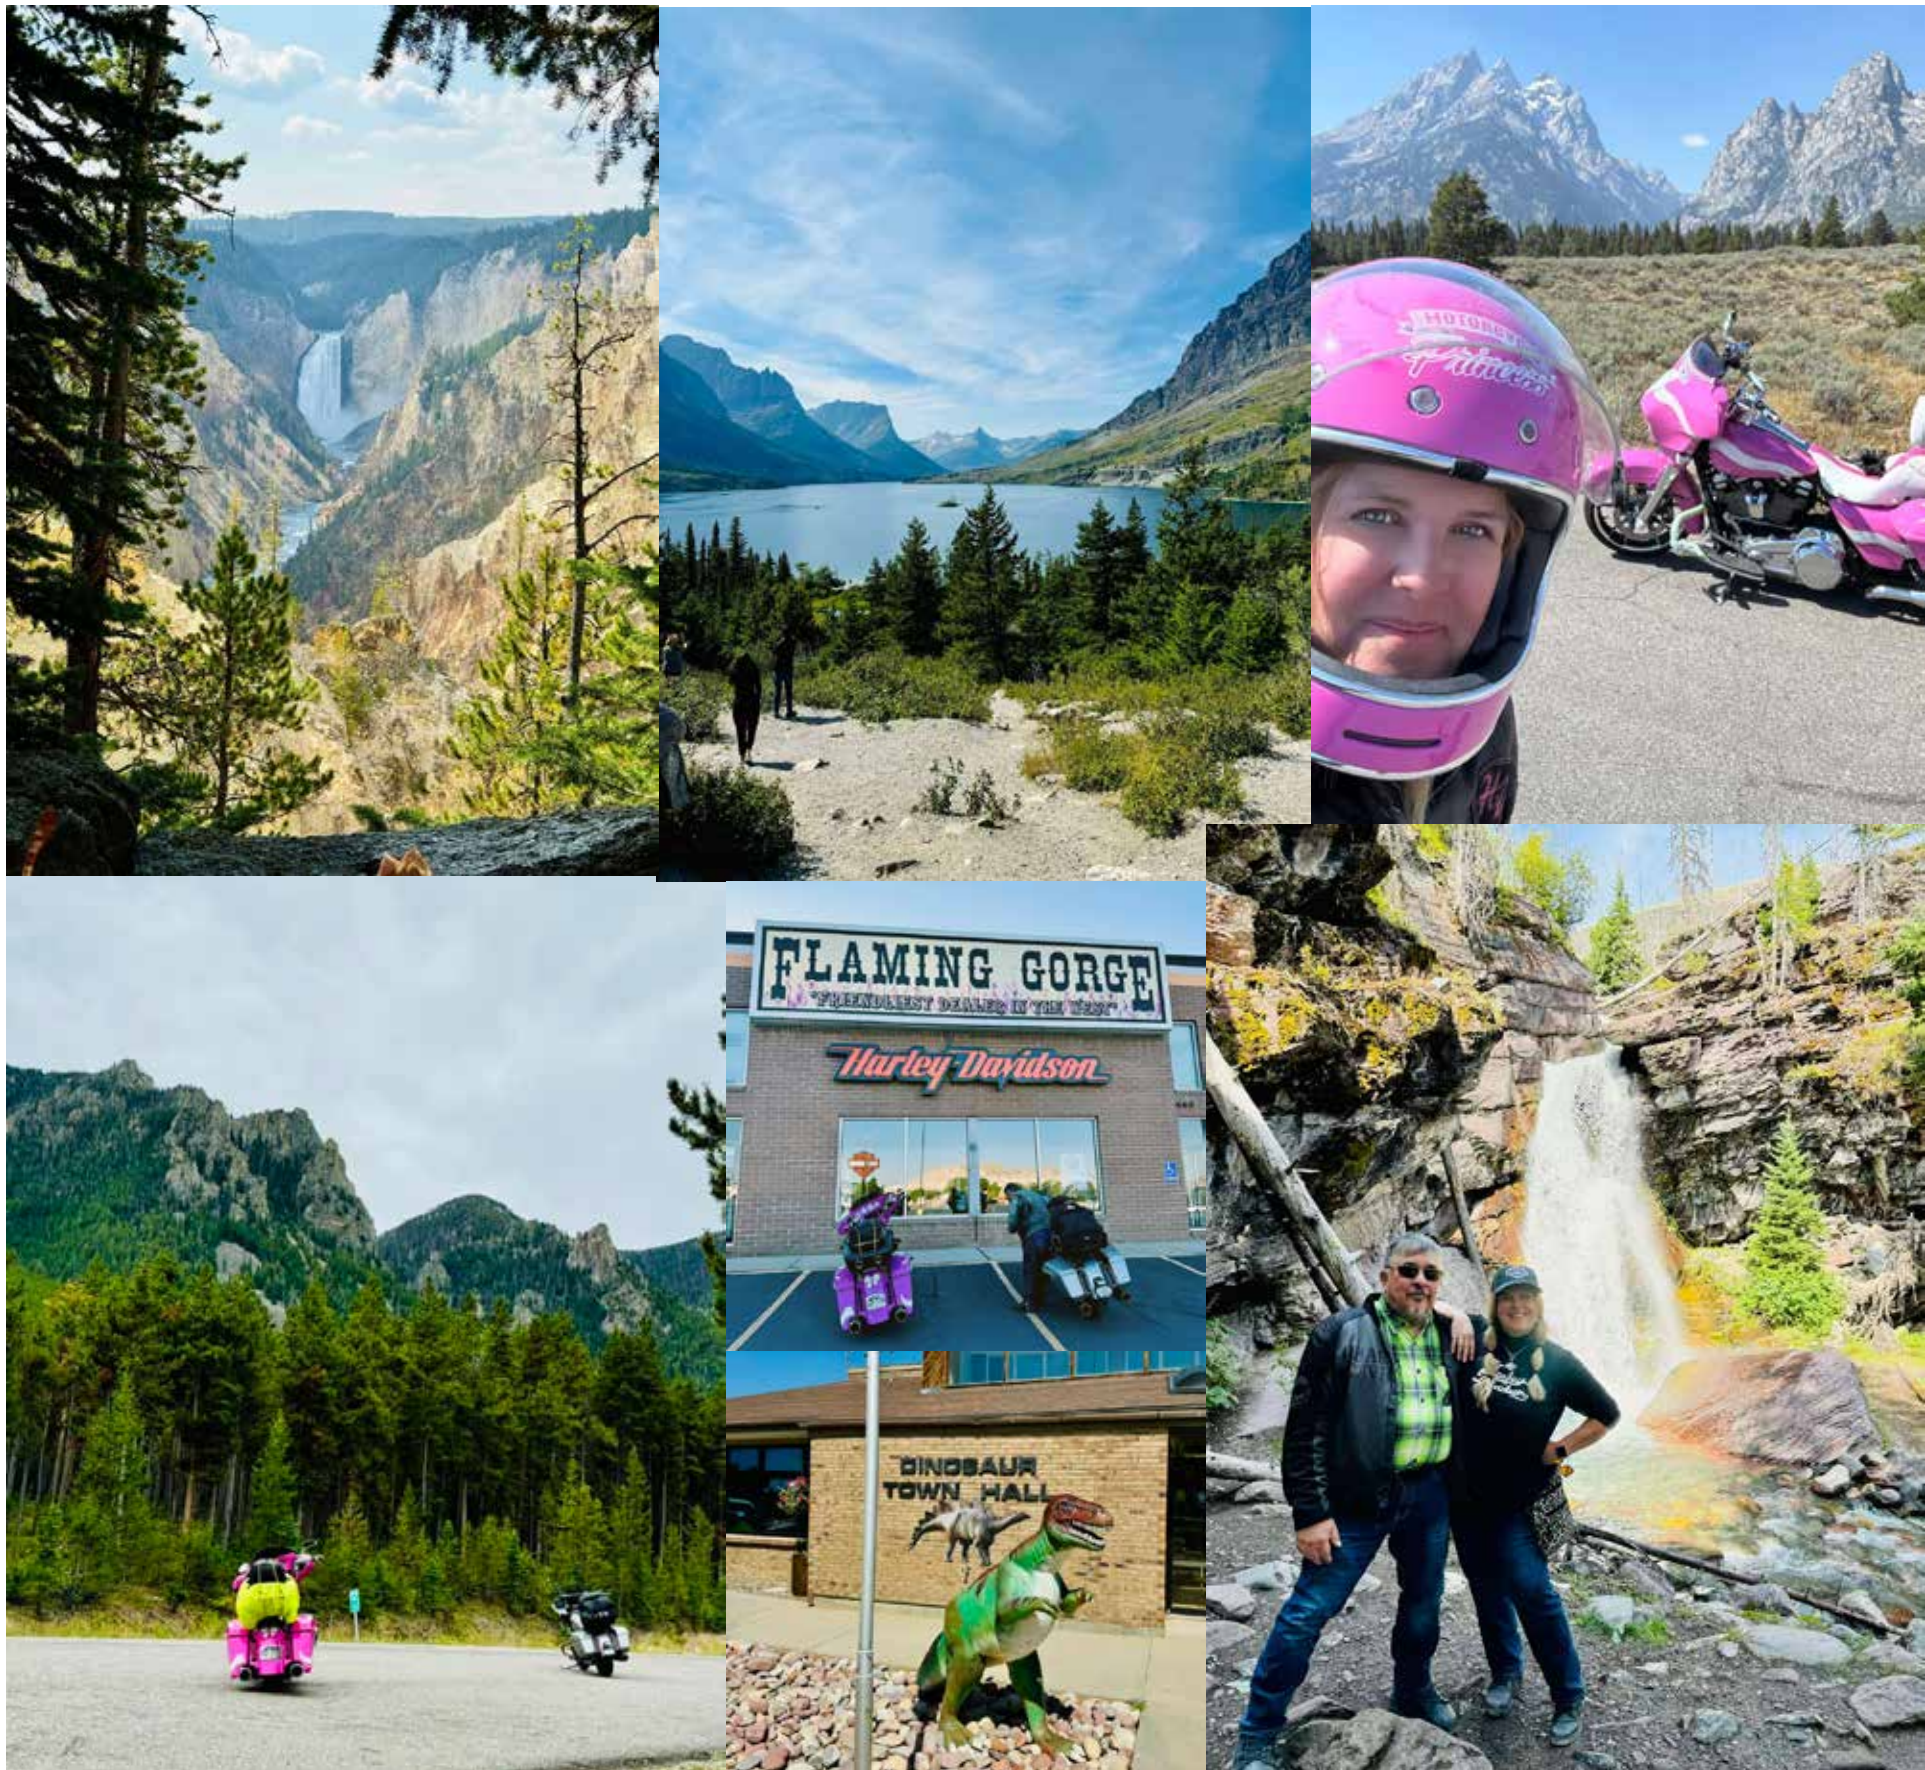

The next day we rode an absolutely beautiful road ... Hwy 65, the Mesa Grand Scenic Byway. This road starts off riding in a beautiful canyon. Then you ride up into the mountains with twisties. I highly recommend this road. The 2nd to last day we had a nice gentle ride to Telluride. Then we rode along the river on the 145 with nice gentle sweeping turns to Dolores, CO; then on to Durango. Durango is a great town to shop and eat. Then on day 11 we rode home to AZ, September 8. I finally used my cooling vest riding into

the Valley.

Wow, what a fun trip! We averaged 340 miles per day. With the wind in our hair, the rubber on the road, and meeting all the amazing people along the way... I am ready to go again!

Side story:

Day 3 ... We stopped at Copper Canyon HD on a Saturday in Butte, Montana. When I took off my helmet, my earring fell off; falling between the saddle bag and the rear fender. I rolled my bike forward to see if we could find it. When I did, my riding buddy noticed that there was a screw in my tire. We were so lucky to discover this! This was a holiday weekend and we were not going to be by another Harley dealer for 3 days. While we were there, we had the dealer change my tire. \$450 dollars later, but I was safe. We never found my earring but I do believe an angel was looking out for me. I like to think my Dad was watching out for me from Heaven.

An advertisement for ABATE of Arizona. It features three small photos of motorcycle riders on the left: two riders on a black bike, a rider on a red bike, and a rider on a blue bike. The main background is a dark image of a motorcycle's instrument cluster. Overlaid on this is the ABATE of Arizona logo, which is an eagle with a shield on its chest. Below the logo, the text reads: "ABATE OF ARIZONA", "All Bikes ALL Riders...", "ABATE works for YOU!", "Your Legislative watchdog at the State Capital!!!", "www.ABATEofAZ.ORG", and "JOIN TODAY!".
