

From Puzzled to Pro Computer Basics

Essential Skills for Navigating Your Computer with Confidence

Who This Class Is For

Adults who want to feel more comfortable and capable using a desktop or laptop computer. Perfect for beginners or anyone looking to refresh their skills — no prior experience required.

What You'll Learn

- Navigating the desktop and managing files
- Browsing the internet safely and effectively
- Sending and receiving emails
- Using video chat to connect with friends and family

Why It Matters

Computers are a gateway to communication, information, and creativity. This course gives learners the confidence to use their computer for everyday tasks, stay connected, and explore new opportunities online and beyond.
