

# Everyday AI Made Easy

Practical AI Skills for Life, Work, and Play

## Who This Class Is For

Adults interested in learning how to use artificial intelligence tools — like ChatGPT — to simplify daily tasks, spark creativity, and stay connected. No prior tech experience needed; just curiosity and an open mind.

## What You'll Learn

- How AI can answer questions and explain topics clearly
- Using AI to plan travel, events, and personal projects
- Generating ideas for writing, recipes, and creative hobbies
- Tips for safe, responsible, and effective AI use

## Why It Matters

AI is rapidly becoming a part of everyday life — from smartphones to customer service to personal assistants. Learning how to use it effectively helps you save time, solve problems, and open up new possibilities, all while feeling confident in a fast-changing world.
