

# PADSC White Paper

## 1. Executive Summary

PADSC is a community-driven memecoin created by Phoenix Auto Detailing, LLC in South Carolina. Positioned at the intersection of crypto culture and automotive services, PADSC aims to evolve into a fun, trustworthy medium of exchange-initially usable within Phoenix Detailing, and potentially across the detailing ecosystem.

## 2. Project Overview

## 3. Problem & Opportunity

1. Many memecoins lack real-world utility beyond speculation.
2. Businesses struggle to integrate crypto payments.
3. Crypto-native communities crave purpose-driven tokens.

PADSC solves this by:

- Combining fun, community culture, and real-world usability.
- Offering early access to crypto payments for auto detailing, then expanding to peers.

## 4. Tokenomics

Chain: Solana (Pump.fun platform)

Market Cap (live): ~\$19,266

Liquidity: ~\$15K

Holders: ~224

Allocation Model (Estimated):

- Liquidity Pool: 40%
- Community / Airdrop: 20%
- Team / Development: 20%
- Marketing / Partnerships: 10%
- Treasury / Utility Expansion: 10%
