About Tally Solutions

- Tally powers 95% of businesses in India. With Bharat Goenka – son of the Late Founder-at-the-helm, [Tally Solutions](#) remains firmly committed to Indian business. A pioneering company, Tally was the first to introduce codeless software, a natural language interface, concurrent multilingual capabilities, and path-breaking remote functionality. In terms of services, this technology giant was the first to launch free service, while dramatic breakaway commercial terms including free upgrades and no charge per seat transformed the ownership experience. Its strong principle right from the early years to reach customers through a dedicated partner network has resulted in a robust partner system.
- Over two decades of technological innovation and relentless perfection cannot but show. Tally products are transforming businesses across industry in over 94 countries. More than 2 million business users are testament to its product philosophy ...defined by the 'Power of Simplicity'.
- After Tally, businesses in India were never the same. With Tally, their future looks strong. At Tally, the revolution is very much on.
