ABOUT US

ARK Life Safety is a leading supplier of modern fire science advances, providing high-quality electro-mechanical solutions for buildings, commercial structures, and infrastructure development projects.

Mission

Deliver reliable, high-quality solutions with a commitment to safety, innovation, and customer satisfaction. Build trust through excellence and professional integrity.

Vision

Be the trusted leader in fire safety and security solutions, recognized for excellence in service, cutting-edge technology, and unwavering commitment to protecting lives and assets.

Fire Alarm System

We provide our clients with an advanced automatic fire alarm system that is specifically designed to detect the presence of fire by monitoring environmental changes associated with combustion. Typically, a fire alarm system can be categorized as automatic, manually activated, or a combination of both. Protect your property with our fire alarm and detection systems

Fire Extinguisher System

A potential fire can often be controlled before it really takes hold, if the right fire equipment is close at hand. WE are supplying fire extinguishers (Cylinders) all over India. We offer highly effective ABC Fire Extinguisher. The ABC store pressure type fire extinguishers which we offer are suitable for A Class, general paper, wood and cloth fires. The extinguisher is ideal for preventing inflammable liquids like kerosene, paints, petrol and many more fuels.- Supply and refilling of fire extinguishers

Fire Fighting System

We are engaged in wide range of Automatic Fire Hydrant Systems which is designed with high quality components. The landing valves & fire hose cabinets are provided for the use of occupants to fight small fires. Water flowing through the sprinkler orifice strikes the sprinkler deflector, forming a uniform spray pattern to extinguish or control the fire

- Fire sprinkler system design and installation
- Fire pumps, hose reels, and hydrants
- Maintenance and inspection services

Public Address System

A Public Address (PA) System is an audio system that broadcasts announcements, messages, or music to a large audience in public spaces like schools, offices, malls, or stadiums.- PA system supply and installation

- Amplifies audio signals to cover large areas
- Broadcasts clear and intelligible sound to the audience
- Used for announcements, paging, background music, or emergency alerts

- Effective communication to large audiences, Enhanced public safety and emergency response
- Effective communication to large audiences, Enhanced public safety and emergency response
- Improved ambiance and atmosphere in public spaces

Security System (CCTV and Surveillance)

CCTV cameras have become one of the essential requirements of a well-equipped security system. With CCTV cameras, you can monitor and record activities of your employees, business premises, customers simultaneously. CCTV equipment is a much more cost-effective plan, with the added benefit of free hardware maintenance and regular upgrades when necessary. Your premises with our expert solutions

- Analog and IP CCTV systems
- Access control systems
- Enhanced security and crime deterrence
- Real-time monitoring and alerts
- Evidence collection for investigations
- Remote access and mobile monitoring

Fire Suppression System

A Fire Suppression System is a critical safety solution designed to detect and extinguish fires quickly, minimizing damage and protecting lives.

- Detects fires through sensors and triggers the suppression system
- Releases extinguishing agents (e.g., water, foam, clean agents, or gases) to suppress the fire
- Prevents fire spread and reduces damage

Access Control System

An Access Control System is a security solution that regulates who can enter or exit specific areas within a building or premises.

- Secure authentication methods (biometric, RFID, etc.)
- Customizable access levels and permissions
- Real-time monitoring and alerts
- Integration with other security systems (CCTV, alarms)
- Monitors and logs entry and exit activities

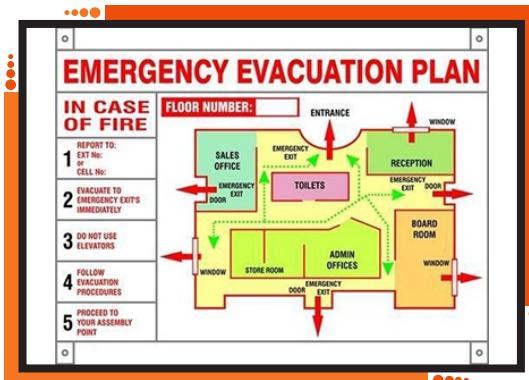

Fire Drill and Training

A Fire Drill and Training program is crucial for preparing individuals to respond to fire emergencies effectively. It is a simulated emergency exercise where individuals practice evacuating a building or premises in response to a fire alarm. It helps identify potential issues, tests emergency procedures, and ensures everyone knows what to do in case of a real fire.

Execution/Evacuation Plan

we have constructed or maker of fire escape plans / Emergency Evacuation plan / Emergency Exit Layout Plan / Floor Plan Maker / assembly point / Emergency Fire Layout plan / Fire Emergency Evacuation plan We execute this plan while keeping all the safety factors in mind.

Safety Sign Boardsz

To keep human life protected from dangers and accidental effects of fire, we manufacture, export and supply a series of Fire Safety Signages including Glow & Non-Glow signage. These Fire Safety Signages are made of superior quality raw materials and are placed in various thermal plants, public places as well as commercial places
