

At Mimiquins, we see each mannequin not simply as a product, but as part of your creative journey. Every piece is an investment in precision, craftsmanship, and the unique service that supports it; from the scanning session and consultation to the bespoke model design and final mannequin itself.

We believe in complete transparency. Below, you'll find a clear breakdown of what's included, so you know exactly what to expect. There are no hidden costs, and every order comes with a height-adjustable stand. For international clients, we also outline shipping and customs considerations to make the process as smooth as possible.

Mimiquins	Prices in GBP <i>(incl. VAT)</i>	Description
Classic	£1599	Captures torso and hips; ideal for dresses, blouses, skirts...
Classic +Plus	£1799	Classic with extra length up to above knee height (no leg separation)

Half scale Mimiquin	£799 - £999	Ideal for experimenting and designing.
Head + Shoulders (With face shape included)	£899	Perfect for fitting and refining hat and fascinator designs or other head pieces (not intended for garment construction)
Style lines - Princess	£250	Basic princess lines

Shipping Rates – For EU shipping is estimated at approximately £140–£180, depending on location and final dimensions and weight. For Australia, please provide postcode for calculation before placing order. Shipping is billed separately.

Customs Support (Optional) – For a flat fee of £150, we can manage customs communications on your behalf and pre-pay the duties to ensure smooth delivery. We will then invoice you accordingly.

Customs Duties – Customs are charged only on the *product* portion of your order, not on services. Half of every order relates to services, including the scanning session, consultation, digital processing, and model design, which accounts for 50% of the total cost. The remaining 50% represents the mannequin itself, and this is the value on which customs are calculated (plus shipping).

For example: if you purchase a Mimiquin at £1,599, half of this amount (£800 approx.) represents services, and the other half (£800 approx.) is the mannequin. Customs will be charged only on the mannequin portion, not on the services. As a guide, EU customs are generally around 20% of the product value (depending on the country), while Australia applies around 5%.

Transparency – This breakdown is provided purely to give clarity and help you plan with confidence.

Payment Options We want to make paying as simple and flexible as possible:

- **Bank Transfer (Domestic):** Free of charge.
- **Bank Transfer (International):** If your bank applies a transfer fee, this will be your responsibility. Please make sure the full invoice amount reaches us.
- **Credit Card:** Available, with a small additional fee to cover bank charges.
- **Payment Plans:** We offer interest-free instalment plans to help spread the cost. A 50% deposit is required upfront, and the remaining 50% can be paid in equal monthly instalments over 12–18 months, interest free.
