GOOD ≠ KNOWN.

WHY THIS GUIDE EXISTS

Somewhere in your market this week, the best option lost to the most visible one. Not to a better competitor — to a more visible one. Same skill. Same price. More presence. That gap has a name: it's a system problem. And systems are buildable.

ONE SYSTEM is our answer. Brand Strategy, Content Creation, and Social Growth — not three vendors who never talk, but one connected engine where each part strengthens the next. **Your brand makes you recognized. Your content makes you seen. Your growth system makes you chosen.**

We work with five kinds of clients: small businesses, professionals building a personal brand, artists and creators, nonprofits and community organizations, and corporations. The system is the same; the proof rotates.

■ A PROMISE BEFORE THE PRICES

Almost nobody in this market publishes their numbers. We publish everything — every tier, every inclusion, every add-on, every item in a seventy-piece collateral catalogue. Not because pricing is simple, but because you deserve to compare honestly before you ever speak to us. **The published price is the charged price.** If you need less than you came in for, we'll tell you. Compare away.

THE THREE PILLARS

BRAND STRATEGY — BE RECOGNIZED

A strong brand is built through positioning, identity, and communication working together to create recognition, trust, and distinction. Without strategy, content is noise. Without clear identity, growth attracts the wrong audience. This pillar shapes perception before a single post exists.

CONTENT CREATION — BE SEEN

Cinematic, strategic, platform-driven content designed to capture attention, communicate value, and build a presence that compounds instead of evaporating. Production runs on a system — locked templates, batch capture, disciplined hooks — which is why our volume is possible at our prices.

SOCIAL GROWTH — BE CHOSEN

Structured growth systems focused on consistency, visibility, and audience connection. Distribution, engagement, and the DM pipeline that turns attention into booked conversations — measured by the numbers that pay invoices: saves, sends, keyword DMs, booked calls.

One connected engine — not three disconnected vendors.

Everything in this guide is a piece of that engine, priced on its own and stronger together.

MONTHLY SYSTEMS

SYSTEM	MONTHLY
Content Creation — Starter / Growth / Premium	\$900 / \$1,200 / \$1,500
Social Growth — Starter / Management / Premium	\$700 / \$900 / \$1,100
Bundles — Foundation / Momentum / Expansion (content + growth)	\$1,100 / \$1,400 / \$1,700

COMMITMENT TERMS & THE ANNUAL ADVANTAGE

TERM	WHAT IT EARNS
Committed Monthly 3 months / 6 months / 12 months	5% / 10% / 15% Off monthly systems
Annual Foundation	+ Brand Audit included (\$450 value) — over \$2,400 total advantage
Annual Momentum	+ Brand Discovery Report included (\$950 value) — over \$3,400 total advantage
Annual Expansion	+ Starter Brand Book included (\$2,450 value) + Collateral Catalogue credit (\$850 value) — over \$6,300 total advantage

HOW BILLING WORKS

PAYMENT STRUCTURE	WHAT IT EARNS
Monthly billed in advance (the default)	Full term discount (5% / 10% / 15%) under the fairness rules on the Payment & Commitment page
Quarterly billed in advance	Same discount + priority scheduling status
Annual prepaid	Same discount + \$500 Collateral Catalogue credit + your rate locked through any price change

All monthly systems are billed monthly in advance — work follows payment, never the reverse. Project tiers invoice 50% on signing and 50% before final file release or website launch. Where a price reads “from,” your exact figure is quoted in writing before you sign — a range is an invitation, never an invoice. Term pricing runs on one fairness rule in both directions: the published price is the charged price, and the earned discount is the kept discount. Full details on the Payment & Commitment page.

Every number above is expanded in full — inclusions, boundaries, and add-ons — in the sections that follow. No hidden fees exist anywhere in this guide.

THE JOURNEY

FREE TO FLAGSHIP, ONE LADDER

You never have to guess the next step, and no payment is ever wasted: each rung credits toward the one above it. Start where your situation actually is.

1

Strategy Call — Free, 30 minutes

A scoping conversation, not a pitch. You talk for most of it. We diagnose which problem you actually have — recognized, seen, chosen, or foundations — and recommend the honest entry point, including "you need less than you think." You leave with a written recap either way.

2

Advisory Session — \$200 / 30 min · \$350 / 60 min

For when you want answers now, not an engagement: positioning critique, live profile audit, content plan review, launch sequencing. You leave with a written action list within 24 hours. Every dollar credits toward any engagement signed within 30 days.

3

Brand Audit or Foundations Assessment — \$450

A research-backed diagnostic. You complete a structured intake; we independently audit your presence the way a stranger experiences it, study your market and competitors, and deliver a written report: what's working, what's leaking, and your priority order. Credited within 60 days.

4

Brand Discovery Report — \$950

The research foundation behind every strategic decision: full intake, complete market and audience research, positioning territory, opportunity map — Volume One of the seven-volume system, presented in a 90-minute session. Credited toward any Brand Strategy tier within 90 days.

5

The engagement

Brand Strategy tiers, monthly systems, or both — with the Discovery Report already inside every tier's price. The ladder means arriving here having paid for steps along the way costs you nothing extra.

EVERY DOLLAR FOLLOWS YOU UP THE LADDER.

PILLAR ONE — BE RECOGNIZED

BUILT TO CREATE RECOGNITION.

Brand Strategy · one-time projects · the Discovery Report is inside every tier

BRAND STRATEGY — THE FOUR TIERS

■ Brand Core — The Content-Ready Bridge \$1,950

about 2 weeks · for brands with a logo but no system

DESIGNED FOR

Businesses with a usable logo, colours, and fonts — and no strategy, no guidelines, no templates governing them.

INCLUDES

- Strategy core: positioning statement · audience definition · messaging pillars · voice & tone — the minimum a content system can be scripted from
- Systemization of your existing identity: logo usage rules, colour codes, type hierarchy, clear space, do's & don'ts — a slim usage guide, built from what you already own
- Production template masters: carousel set (3 layouts) · reel cover set · story frames — roughly \$1,000 of Catalogue value, production-ready
- The Brand Core Guide: one slim volume your team and ours produce from

A common situation deserves its own honest product: you already have a logo, colours, and fonts you're happy with — but no strategy behind them and no guidelines governing them. Rebuilding what works would waste your money; producing content without a system would waste ours. The Brand Core is the bridge: your existing identity, systemized — not redesigned — and the strategy core content needs to be built on.

- How it flows: the \$450 Brand Audit gates the Brand Core — it verifies your identity is genuinely usable before we systemize it — and its fee credits straight in, so your all-in total stays \$1,950. If you later choose a full Brand Strategy tier within 6 months, \$950 of the Brand Core (its strategy core) credits toward it: the ladder logic, unchanged.
- Its other job: the Brand Core is the standard prerequisite for monthly content when no brand system exists and no Brand Strategy tier is selected — because content is never produced apart from the strategy that governs it.

■ STARTER — THE BRAND BOOK \$2,450

3–4 weeks · the complete foundation in one volume

DESIGNED FOR

New or growing brands that need strategy, identity, and launch collateral — without the full library.

INCLUDES

- Brand Discovery Report (Volume 1) — the \$950 research foundation, included
- THE BRAND BOOK, one unified volume: positioning · mission, vision, values · brand archetype & personality · audience definition · messaging pillars · tagline direction
- Visual identity core: primary logo + secondary variant + submark · colour system with codes · typography system · usage rules & clear space
- Any 5 items from the Collateral Catalogue (typical picks: business card, social profile kit, email signature, letterhead, story template)
- Complete file library (AI, EPS, SVG, PNG, PDF) + font licensing guidance
- One revision round · handoff session · launch checklist

BRAND STRATEGY — THE FOUR TIERS

 IDENTITY SYSTEM 5–7 weeks · the full professional system \$4,950	
DESIGNED FOR Established brands ready for separate, complete strategy and identity volumes with expanded applications.	INCLUDES • Brand Discovery Report (Volume 1), included • Volume 2 — Brand Strategy Manual, full edition: brand architecture, competitive positioning map, audience segmentation, message house • Volume 4 — Brand Identity Guidelines, full edition: complete logo suite, extended palette, type hierarchy, grid & layout principles, photography direction, iconography starter, do's & don'ts • Any 10 items from the Collateral Catalogue • Social profile kit across all active platforms — included beyond the 10 • Two revision rounds · 30-day post-delivery support · 60-minute handoff workshop

 PREMIUM DEVELOPMENT — THE COMPLETE SYSTEM 8–12 weeks · scoped to your organization from \$8,950	
THE CEILING: EVERYTHING A BRAND CAN BE, IN ONE ENGINEERED SYSTEM.	
DESIGNED FOR Organizations that need the entire architecture — governed, documented, and built to outlast staff changes.	INCLUDES • ALL SEVEN VOLUMES: Discovery Report · Brand Strategy Manual · Communication Strategy Guide · Brand Identity Guidelines · Digital Experience Playbook · Brand Applications Collection · Brand Governance Guide • Any 15 items from the Collateral Catalogue • Template suite: presentation theme + document suite + social template system • 90-day governance support: monthly consistency reviews, team questions answered, first-quarter course corrections • Two-hour team handoff workshop + governance training • Three revision rounds across the engagement

How your identity gets designed: from your strategy and a dedicated visual-direction intake, we develop three distinct design concepts — études — presented in context, not floating on white. You choose one and sign the selection; it receives one focused refinement round; then the full system builds on it, and collateral begins only after your guidelines lock. Disagreements happen in a conversation, never in a rejected design.

THE SEVEN-VOLUME BRAND SYSTEM

MODULAR BY DESIGN

Every engagement is built on the same architecture — seven volumes, each with its own job and audience. You don't have to buy the library to own a book: any volume can be added after the Brand Book, at published prices. The Brand Book comes first because Volumes 3–7 are built on its strategy and identity core — we don't decorate houses that haven't been framed.

VOLUME	ADD-ON PRICE	WHAT IT DOES · WHO IT SERVES
1 • Brand Discovery Report	\$950	Research foundation; the why behind every decision. Internal + institutional partners. Included in every tier.
2 • Brand Strategy Manual	\$1,450	The organizational identity system, full edition. Leadership, board, partners.
3 • Communication Strategy Guide	\$1,450	Language, tone, messaging standards by audience and channel. Communications team, volunteers.
4 • Brand Identity Guidelines	\$1,950	The complete visual system — the flagship volume. Designers, content creators, printers.
5 • Digital Experience Playbook	\$1,450	Website, social, and digital standards. Web developers, social media team.
6 • Brand Applications Collection	\$1,250	The brand fully activated in real contexts. Future clients, partners, media.
7 • Brand Governance Guide	\$950	Operational rules for consistency. All staff, volunteers, partners.

The honest math: the Brand Book plus all six add-on volumes totals \$10,950 piecemeal. The Complete System at \$8,950 saves roughly \$2,000 and adds the 15-item collateral pack, template suite, and 90-day governance. And if you ladder up over time, your total is capped: you'll never pay more than the Complete System plus 10% — loyalty shouldn't cost more than starting big.

THE CATALOGUE

PILLAR TWO — BE SEEN

DESIGNED TO CAPTURE ATTENTION.

Content Creation · monthly systems · cinematic, silent-first, engineered to compound

CONTENT CREATION — MONTHLY SYSTEMS

A note on our prices, because you'll notice they sit below production companies: professionally produced short-form video averages \$1,000–\$3,000 per piece in 2026. Ours doesn't cost that because it isn't made that way — production runs on a system: locked template masters, batch capture, disciplined hook-first scripting, AI-accelerated post. **You're not buying less; you're buying a different cost structure.** Strategy and judgment stay senior and human on every piece.

■ CONTENT STARTER

\$900 / mo

market-equivalent value \$2,700+ at batched professional rates

DESIGNED FOR

Businesses starting a consistent presence — one platform, done properly.

INCLUDES

- 4 cinematic reels (to 45s): hook-first, silent-legible, brand end card — produced to your locked template spec (revision rounds begin at the Growth tier)
- 4 carousels (to 9 slides) on locked template masters
- 6 story frames with interaction mechanics
- Captions written to system standards: keyword-first, 5 hashtags
- Scheduling-ready delivery · monthly theme aligned to your brand strategy
- Source footage: monthly batch-session guidelines or client-supplied to spec

■ CONTENT GROWTH

\$1,200 / mo

market-equivalent value \$3,900+

DESIGNED FOR

Brands ready for rhythm and a plan — the calendar starts working two weeks ahead.

INCLUDES

- 6 reels · 6 carousels · 8 stories — everything in Starter, at volume
- Monthly content plan: subjects, hooks, and CTAs mapped ahead
- 1 revision round per piece
- Quarterly template refresh — masters evolve with performance data
- Monthly format flexibility: swap a reel for two carousels, or the reverse

■ CONTENT PREMIUM \$1,500 / mo market-equivalent value \$5,200+	
DESIGNED FOR Brands running campaigns, launches, and multi-format presence.	INCLUDES • 8 reels · 8 carousels · 10 stories • 2 revision rounds per piece • Campaign support: launch sequencing, promotional arcs, event coverage planning • Monthly creative direction call • Ad-ready versions of 2 reels per month • Priority turnaround: 3 business days standard • Quarterly performance edit: keep / kill / double review of formats

How production works: one monthly Production Session — two to two-and-a-half hours on site, batch method, up to eight reels plus supporting content captured in one visit. Scripts are prepared by us from your brand, communication, and content strategy, delivered 72 hours before the Session for your approval — content is never scripted apart from the strategy that governs it. Three takes per scene keeps the day disciplined; volumes above eight reels a month simply add Sessions at the published shoot rates below.

CONTENT À LA CARTE & INDIVIDUAL PROJECTS

Every extra deliverable has a published price. In-plan rates apply to active monthly clients; standalone rates apply without a retainer. Rush turnaround (72 hours): +25%.

ITEM	IN-PLAN	STANDALONE
Additional cinematic reel	\$225	\$350
Additional carousel (to 9 slides)	\$125	\$175
Story set (3 frames)	\$60	\$90

THE BUNDLES

FULLY INTEGRATED GROWTH PARTNERSHIPS.

Content Creation + Social Growth · one strategist, one calendar, one invoice

BUNDLED SYSTEMS — ONE SYSTEM, ONE INVOICE

The bundles are the thesis, productized: content and growth engineered together instead of bought from two vendors who never talk. The savings are honest economics — one strategy, one context, one brand system feeding both functions — and they're checkable against the pillar pages you just read.

BUNDLE OFFER

FOUNDATION SYSTEM

\$1,100/ mo

vs. \$1,600 separately — saves \$500/mo, \$6,000/yr

DESIGNED FOR

New brands that need presence and publishing handled from day one.

- Account setup / cleanup included in month one
- One shared monthly theme, aligned to your brand strategy

BUNDLE OFFER

MOMENTUM SYSTEM

\$1,400/ mo

vs. \$2,100 separately — saves \$700/mo, \$8,400/yr

DESIGNED FOR

Brands building rhythm: planned content, managed conversations.

INCLUDES

- Content Growth — 6 · 6 · 8 with the monthly content plan and 1 revision round per piece
- Growth Management — community management, optimization, THE MONTHLY MIRROR
- One merged calendar: content and engagement planned together

EXPANSION SYSTEM

BEST
OFFER

\$1,700/ mo

vs. \$2,600 separately — saves \$900/mo, \$10,800/yr

THE FLAGSHIP. ONE RELATIONSHIP, ONE STRATEGY, ONE SYSTEM.

DESIGNED FOR

Brands running the full engine: campaigns, conversion, and a managed channel.

INCLUDES

- Content Premium — 8 · 8 · 10, campaign support, ad-ready versions, creative direction call
- Growth Premium — full account management, the DM pipeline, strategy call, quarterly deep review
- Strategy, engagement, and optimization unified under one strategist
- Priority status across the studio: turnaround, scheduling, support

THE ANNUAL ADVANTAGE — COMMITMENT, REWARDED IN BRAND ASSETS

Twelve-month partnerships earn more than the 15% term discount: each includes a brand asset scaled to the tier — because a year of content and growth deserves a brand foundation underneath it. Every claim below is checkable against this guide's own prices.

12-MONTH PARTNERSHIP	INCLUDED BRAND ASSET	TOTAL VERIFIABLE ADVANTAGE
Annual Foundation (\$1,100/mo)	BRAND AUDIT — \$450 value	over \$2,400
Annual Momentum (\$1,400/mo)	BRAND DISCOVERY REPORT — \$950 value	over \$3,400
Annual Expansion (\$1,700/mo)	STARTER BRAND BOOK — \$2,450 value, plus a Collateral Catalogue credit — \$850 value	over \$6,300

Terms: 3- and 6-month agreements earn 5% and 10% respectively (no asset). Included assets begin delivery after month two and vest across the term — one-twelfth per completed month. Already own the asset? Its value applies as credit toward the next volume up.

PAYMENT & COMMITMENT — HOW BILLING WORKS

Commitment pricing is real pricing, so it comes with real structure — stated here in plain language, because terms you discover later aren't terms, they're traps. Two fairness rules protect both sides, and everything below follows from them: **the published price is the charged price, and the earned discount is the kept discount.**

■ THE PAYMENT MENU

STRUCTURE	HOW IT WORKS · WHAT IT EARNS
Monthly, billed in advance — the default	Invoiced on the 1st; work follows payment. Pre-authorized payment is set up at signing. Full term discount applies.
Quarterly, in advance	Three months per invoice. Same discount, plus priority scheduling status across the studio.
Annual, prepaid	One invoice for the year. Same discount, plus a \$500 Collateral Catalogue credit and your rate locked through any future price change.

■ THE COMMITMENT RULES

Billed in advance, always: monthly systems invoice on the 1st, and work follows payment. If a payment fails and isn't resolved within 10 days, work pauses automatically — no awkward conversations, just a clear rule that restarts the moment payment does.

Project tiers — including websites: 50% on signing, 50% before final file release or launch — never full prepayment, never surprise milestones. Entry-ladder products (Advisory, Audit, Assessment, Discovery) are paid at booking.

Website Care Plans run month to month: billed in advance like everything else, ended by either side on 30 days' notice, and never discounted — they're already priced as maintenance, not margin.

Minimum period: the first 3 months of any term agreement are non-cancellable. That window covers the setup investment on both sides.

The earned-discount rule: your discount belongs to the term you actually complete. Exit a 12-month agreement early, and your rate is recalculated to the tier you genuinely reached — leave after five months and you pay 3-month pricing (5%), not annual pricing (15%), with the difference on your final invoice. It isn't a penalty; it's the published price for the commitment you kept.

Asset vesting: annual-partnership assets (the Audit, the Discovery Report, the Brand Book) vest one-twelfth per completed month. Exit early and only the unvested portion is invoiced, at its published value. You never pay for what you've already earned — and never keep what you haven't.

• **Pause and exit:** monthly systems pause once per twelve months (up to 30 days, term extends accordingly). After the minimum period, termination needs 30 days' written notice.

None of this is fine print. It's the same transparency as the rest of this guide, running in both directions — and it's why we can publish a 15% discount and mean it.

CORPORATE & ENTERPRISE

The tiers in this guide serve owner-led organizations — roughly under twenty staff, a single brand, one decision-maker. Corporate scope differs in kind: stakeholder rounds, approval workflows, sub-brands, multi-location applications, compliance review. **Corporate work is therefore always scoped by written proposal from the floors below** — never quoted final on a call, because no two corporate scopes match.

CORPORATE LINE	FLOOR	WHAT MOVES THE NUMBER
Corporate Brand Strategy	from \$8,950	The Complete System is the corporate baseline; stakeholder rounds, sub-brand architecture, locations, compliance and procurement requirements scale from there.
Corporate Content Systems	from \$5,000/mo	12+ multi-format deliverables, dedicated planning cycle, approval workflows, paid-media usage rights, monthly reporting deck.
Corporate Digital Growth & Audience Systems	from \$4,000/mo	Multi-platform management, escalation SLAs, paid-media coordination, executive reporting, quarterly business review.

HOW WE WORK

THE PROMISES BEHIND THE PRICES

- **You own everything you paid for.** Every final deliverable and final file is yours on full payment — logos and their source libraries, guidelines, finished videos, photographs, designs, templates, your website as launched. If we ever part ways, you leave with the system, not a hostage situation. (Raw footage, unused takes, and working project files stay in our production vault — available for purchase if you ever want them.)
- **The published price is the charged price.** No hidden fees, no surprise line items, no quiet discounts for whoever negotiates hardest — a price list is either real or it's fiction, and ours is real. Where a price reads "from," your exact figure is quoted in writing before you sign.
- **Turnaround:** 5 business days standard on monthly deliverables, 3 on Premium tiers; website updates under Care within 24–48 business hours. Rush available at +25%. Approval windows run 3 business days, then work auto-approves to protect your calendar.
- **Revisions:** every tier includes its stated rounds — Brand Strategy 1, 2, or 3 by tier; Content 0, 1, or 2 per piece; Websites 1 round on copy, 2 on design. Beyond the included rounds: \$75 per piece. A changed brief after approval is a new piece — we'll always tell you which is which before it costs anything.
- **Content tiers deliver; Growth tiers publish.** If you take content only, posting is yours — stated here and on every proposal so it's never a surprise.
- **We showcase completed work.** Finished projects may appear in our portfolio and materials — never your confidential information, and named case studies, results, or testimonials only ever with your signed release. Websites we build carry a discreet "Brand Strategy & Design by Arianpour Group" footer credit while they remain our design — stated here so it's a feature you knew about, never fine print you found.
- **Billing runs in advance, commitments run on fairness:** invoices on the 1st, work follows payment, and early exits recalculate to the discount actually earned — the full system is on the Payment & Commitment page. Credits from the entry ladder honour their stated windows.
- **AI, disclosed:** we use professional tools including AI where they speed production — and say so. Strategy, design judgment, and every decision that matters stay senior and human. You pay for judgment; the tools just make it faster.

HONEST QUESTIONS, HONEST ANSWERS

Why are you less expensive than production companies and agencies?

Different cost structure, not lesser work. Agencies bill teams and overhead; production companies build every piece from zero. We build systems once — template masters, batch capture, disciplined process — and produce on them. The strategy is senior on every file; the production is engineered to be efficient. That's the entire trick, and we're happy to explain it on a call.

What if I only need one thing?

Then that's what we'll recommend. One pillar, one volume, one catalogue item — the ladder exists so you can buy exactly your next step. If you need less than you came in for, we'll say so; it's the most reliable way we know to earn the bigger engagement later.

Do these prices change?

This guide governs 2026. Any future change is published, never retroactive — active clients and open proposals keep their numbers. Annual partners lock their rate for the full term.

How do the credits actually work?

Simply: Advisory Session (\$200) credits within 30 days of delivery, the Audit or Foundations Assessment (\$450) within 60, the Discovery Report (\$950) within 90 — each toward the next step up. One chain, clearly tracked, no fine print beyond the windows themselves.

What happens if I leave a term agreement early?

After the 3-month minimum: 30 days' written notice, your rate recalculates to the commitment tier you actually completed, and the difference appears on your final invoice — you keep every point of discount you earned, and only that. Any included annual asset settles the same way: the months you completed are yours; only the unvested share is invoiced. Clean numbers, clean goodbye, and the door stays open.
