How to Acquire our Services

Find a plot of land where you want to live.

Please make sure it's utility-ready. If you need a realtor let us know.

Not being utility-ready can add significant costs to your project.

How to Acquire our Services

A few things that you would need later are:

Contacting a survey company and have them provide metes and bounds survey along with a Topography Survey.

Also, solicit services for a Geotech Soil Report company in the area.

ABOUT THE COMPANY

Mobu Enterprises is a green construction firm that builds residential and commercial structures out of shipping containers. All structures are custom-made based on the customer's vision.

We pride our business model on reducing the carbon footprint and offering durable solutions to locations domestically and abroad. Our structures inside and out are wind, water, and fireproof, leading to it being able to withstand the test of time and weather.
