AI for SPCs
WORKSHOP

Elevate your impact with generative AI

A 4-hour immersive workshop designed exclusively for SPCs to harness the power of AI in their role. Participants will learn how to integrate AI into everyday work in coaching teams, enabling flow, guiding portfolio adoption, and engaging stakeholders. AI can amplify the SPC's influence and efficiency.

AI Essential SPC

Course Objectives

Align with SAFe
Understand how generative AI complements SAFe principles and enhances the SPC role

Identify Impact Areas
Discover high-impact AI use cases across portfolio, flow, enablement, and engagement

Apply Prompting
Craft and refine effective prompts using our practical, repeatable framework

Coach & Capture
Collaborate with teams and document real-world AI opportunities in your AI Playbook

Reflect & Contribute
Reflect and contribute to improving how SPCs use and scale AI in the enterprise
