SAFe® Release Train Engineer

Facilitating Lean-Agile program execution

Facilitate and enable end-to-end value delivery through Agile Release Trains (ARTs) —and learn how to build a high-performing ART by becoming a servant leader and coach—when you become a SAFe® Release Train Engineer (RTE).

During this advanced three-day course, you will gain an in-depth understanding of the role and responsibilities of a Release Train Engineer (RTE) in the SAFe enterprise. Through experiential learning, you will examine the RTE role in a Lean- Agile transformation. You will learn how to facilitate ART processes and execution, coach leaders, teams, and Scrum Masters in new processes and mindsets. You will also learn how to prepare, plan, and execute a Planning Interval (PI) planning event, the primary enabler of alignment throughout all levels of a SAFe organization.
