

# SAFe® Scrum Master

*Applying the Scrum Master role within a SAFe® enterprise*

Build your skills as a high-performing team member of an Agile Release Train (ART)—and prepare to support the facilitation of ART and team events—when you become a SAFe® Scrum Master (SSM).

In this two-day course, you'll gain an understanding of the role of Scrum Master in a SAFe enterprise. Unlike traditional Scrum Master training that focuses on the fundamentals of team-level Scrum, the SAFe Scrum Master course explores the role of the Scrum Master in the context of the entire enterprise, and prepares you to successfully plan and execute the Planning Interval (PI), the primary enabler of alignment throughout all levels of a SAFe organization.
