Our Story:

In January, 1977, Frank Perrotta opened Bagel King Bakery with a philosophy that would prove to be the key to our success. Frank knew that what he wanted, and expected, from a restaurant was no different from what his customers were looking for. He believed every customer should receive the finest service and the best Bagel for their dollar. So Frank set about to win his customers loyalty by fulfilling their special requests with quality products and service. With the help of his dedicated wife and five daughters it worked!
