

FAREWELL/GOOD-BYE/FOND ADIEU to DR. NED ROSINSKY:

It is bittersweet news to share that after 19 years of working with Metropolitan Behavioral Health Services (MBHS), Dr. Ned Rosinsky is moving on to “Greener pastures.”. Dr. Rosinsky, a psychiatrist, joined MBHS in 2004 and served as the Medical Director during his tenure. During his time here, Dr. Rosinsky has made many contributions to our success and culture. He truly embodied the “Mission and Vision” of the organization. Dr. Rosinsky was truly in-service to the MBHS patients. He willingly made the long commute from his home to come into the office. Inclement weather never deterred him from coming to work. During the pandemic, he made the swift transition to telehealth medicine so that the patients had minimal disruption to their care. While we’re going to miss him dearly, we wholeheartedly support his decision to enjoy some well-deserved time with his loved ones. We wish our beloved “Ned”. nothing but health and happiness during this next chapter.
