

Gynae / Obstetrics

DRAFT - Environmental Set-up Guide

Contents

1. Bartholin's Abscess	3
2. B.S.O – Bilateral Salpingopaxy Oophorectomy	4
3. Cone Biopsy of the Cervix	5
4. D&C – Dilatation and Curettage	6
5. Ectopic Pregnancy - Laparoscopically	7
6. Hysteroscopy	8
7. Hysterectomy / Total Abdominal Hysterectomy / T.A.H	9
8. Hysterectomy / Vaginal / Laparoscopic	10
9. L.L.E.T.Z – Large Loop Excision of Transformation Zone	11
10. L.U.C.C.S – Lower Uterine Segment Caesarean Section	12
11. Pelvic Mass	13
12. P.P.H – Post Partum Haemorrhage	14
13. Salpingostomy	15
14. T.A.H – Total Abdominal Hysterectomy	16
15. Vaginal Hysterectomy	17
16. Trial By Forceps	18
17. Ventouse	19
18. Ventrosuspension	20
19. Vulvectomy	21
20. 3 rd Degree Tear	22

1. Bartholin's Abscess

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

Overhead Lights / SCD's Machine / Bair Hugger machine / Diathermy machine / Suction Canaster Tree / Peri Table (Ask Surgeon) / Stool for Surgeon

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Out

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes: A Bartholin's cyst is a fluid-filled lump near the vaginal opening

Procedural Variations

....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

2. B.S.O – Bilateral Salingopaxy Oophorectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

Pendant Stack and Monitors
Overhead Lights
SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree
Ligature Machine
3 Ltr Glycine

Notes: A bilateral salpingo-oophorectomy is a surgery to remove both fallopian tubes and both ovaries

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

3. Cone Biopsy of the Cervix

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: This procedure removes a cone-shaped piece of tissue containing the abnormal cells from the cervix

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

4. D&C – Dilatation and Curettage

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: is a procedure to remove tissue from inside the uterus

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

5. Ectopic Pregnancy - Laparoscopically

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: Salpingostomy and salpingectomy are two laparoscopic surgeries used to treat some ectopic pregnancies

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

6. Hysteroscopy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: is a procedure used to examine the inside of the womb (uterus)

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

7. Hysterectomy / Total Abdominal Hysterectomy / T.A.H

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: A partial hysterectomy removes the uterus. A total hysterectomy removes the uterus and the cervix

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

8. Hysterectomy / Vaginal / Laparoscopic

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: is a procedure to remove the uterus through an incision in the vagina

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

9. L.L.E.T.Z – Large Loop Excision of Transformation Zone

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is an operation done to remove abnormal cells from the cervix or the neck of the womb

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

10. L.U.C.C.S – Lower Uterine Segment Caesarean Section

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: is the most commonly used type of Caesarean section.

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

11. Pelvic Mass

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is a growth that happens near or in the fallopian tubes, ovaries, uterus, and connecting tissues

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

12. P.P.H – Post Partum Haemorrhage

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is heavy bleeding after the birth

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

13. Salpingostomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is the surgical removal of a fallopian tube

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

14. T.A.H – Total Abdominal Hysterectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: is the Surgical removal of the uterus along with the cervix through the abdomen

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

15. Vaginal Hysterectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is a procedure to remove the uterus through an incision in the vagina

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

16. Trial By Forceps

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: Is an attempt to deliver a baby naturally before reverting to Caesarean Section

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

17. Ventouse

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is a method to assist delivery of a baby using a vacuum device

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

18. Ventrosuspension

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is the surgical fixation of a displaced uterus to the anterior abdominal wall

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

19. Vulvectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is a procedure where a surgeon removes all or part of the vulva

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

20. 3rd Degree Tear

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is a tear that extends into the muscle that controls the anus (the anal sphincter)

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trendelenburg (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised
