DRAFT - Environmental Set-up Guide

Contents

1. Open Hernia Repairs / Herniorrhaphy	3
2. Esophagectomy	4
3. Open Appendicectomy / Gastrectomy / Laparotomy / Liver Resection / Right Hemicolectomy	5
4. Hemicolectomy Left / Anterior Resection / Ultra-Low	6
5. Hemicolectomy Right	7
6. Open Splenectomy / Lap Splenectomy	8
7. Closure Ostiomyespen	9
8. Lap Nissen Fundoplication	10
9. Hartman's Procedure	11
10. Whipples	12
11. Anal Fistula / Fissure / Haemorrhoidectomy / Perianal Abscess / Advancement Flaps / Prolapse	13
12. Thyroidectomy / Parathyroidectomy	14
13. Pilonidal Sinus V1 Lateral	15
14. Pilonidal Sinus V2 Prone.....	16
15. Laparoscopic Cholecystectomy	17
16. Hysteroscopy / D&C / Cystoscopy / Most General Gynae / Laparoscopic Ablation of Endometriosis / Lap Assisted	18

1. Open Hernia Repairs / Herniorrhaphy

Inguinal - Umbilical - Incisional - Hiatus - Epigastric - Femoral – Incarcerated

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: Is the surgical repair of hernias

Operating Table and patient positioning requirements

Position: Supine / Arms Out

Setup: Gel Matt / Megadyne Matt or Diathermy Plate / Arm Boards x 2 / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

...

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

2. Esophagectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Harmonic Scalpel
Suction Canaster Tree

Notes: is a surgical procedure to remove some or all of the swallowing tube between your mouth and stomach (esophagus) and then reconstruct it using part of another organ, usually the stomach

Operating Table and patient positioning requirements

Position: Supine / **Arms out / tucked in?**

Setup: Gel Mat / Diathermy Plate / Arm Boards x 2 (or both arms tucked in) / Sheet on Table (Under Patient) / Heal Gels / Head Ring Gel / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

3. Open Appendicectomy / Gastrectomy / Laparotomy / Liver Resection / Right Hemicolectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Harmonic Scalpel
Suction Canaster Tree

Notes: ...

Operating Table and patient positioning requirements

Position: Supine / **Arms out / tucked in?**

Setup: Gel Mat / Diathermy Plate / Arm Boards x 2 (or both arms tucked in) / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

4. Hemicolectomy Left / Anterior Resection / Ultra-Low

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree
Harmonic Scalpel

Notes: is a surgery to remove the part of your large intestine called your colon

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

5. Hemicolectomy Right

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree
Harmonic Scalpel

Notes: is a surgery to remove the part of your large intestine called your colon

Operating Table and patient positioning requirements

Position: Supine / Arms Out

Setup: Gel Mat / Megadyne Matt or Diathermy Plate / Arm Boards x 2 / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

6. Open Splenectomy / Lap Splenectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

(If Laparoscopic Pendant Stack Moved Into position)

SCD's Machine

Bair Hugger machine

Diathermy machine

2 x Suction Canaster Trees

Notes: is a surgical procedure to remove your spleen

Operating Table and patient positioning requirements

Position: Supine / Arms Out

Setup: Gel Mat / Diathermy Plate / Arm Boards x 2 / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

7. Closure Ostiomyelitis

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes:

Operating Table and patient positioning requirements

Position: Supine / Arms Out

Setup: Gel Mat / Diathermy Plate / Arm Boards x 2 / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

8. Lap Nissen Fundoplication

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

Denyer Operating Table

Pendent Stack Moved Into position

SCD's Machine

Bair Hugger machine

Diathermy machine

Suction Canaster Tree

Harmonic Scalpel

Notes: In this procedure, the surgeon wraps the top of the stomach around the lower oesophagus

Operating Table and patient positioning requirements

Position: Lithotomy / Reverse Trendelenburg 45 Degree / Arms Out

Setup: ½ Gel Matt / Diathermy Plate / Arm Boards x 2 & Coban or crape bandage to secure / Table Light End / Leg Stirrups / Trenguard / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

Notes: Denyer Operating Table Required.

Procedural Variations

....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

9. Hartman's Procedure

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree
Harmonic Scalpel
Thunderbeat (on the left side)

Notes: is a type of colectomy that removes part of the colon and sometimes rectum (proctosigmoidectomy). The remaining rectum is sealed, creating what is known as Hartmann's pouch

Operating Table and patient positioning requirements

Position: Supine / Arms Out (OR Lithotomy)

Setup: Gel Matt / Diathermy Plate / Arm Boards x 2 (or both arms strapped) / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

If Lithotomy – Light End / Stirrups / No Heal Gels

Notes:

Procedural Variations

Sometimes lithotomy (check with surgical team) – If Lithotomy Light end and Stirrups required

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

10. Whipples

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree
Harmonic Scalpel
Thunderbeat

Notes: is used to treat tumours and other disorders of the pancreas, intestine and bile duct

Operating Table and patient positioning requirements

Position: Supine / Left Arm Tucked In

Setup: Gel Matt / Diathermy Plate / Arm Boards x 2 until anaesthetised, then left arm tucked in / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

11. Anal Fistula / Fissure / Haemorrhoidectomy / Perianal Abscess / Advancement Flaps / Prolapse

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: ...

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

12. Thyroidectomy / Parathyroidectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: Is the surgical removal of the Thyroid and Parathyroid glands from the neck

Operating Table and patient positioning requirements

Position: Supine / Arms Tucked In

Setup: Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Sheet on Table (Under Patient) / Heal Gels / Gel Head Ring / Sandbag / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

13. Pilonidal Sinus V1 Lateral

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canister Tree

Notes: is a small hole or tunnel in the skin at the top of the buttocks, where they divide (the cleft)

Operating Table and patient positioning requirements

Position: Lateral or Prone (ask surgeon)

Setup - Lateral: Gel Mat / Diathermy Plate / Arm Boards / Arm Gutter / Rotator Knuckles / Front and Back Lateral Supports / Pillow for between Legs / Sheet on Table (Under Patient) / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

Can be Lateral or Prone (Consult Surgical Team)

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

14. Pilonidal Sinus V2 Prone

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes: is a small hole or tunnel in the skin at the top of the buttocks, where they divide (the cleft)

Operating Table and patient positioning requirements

Position: Prone or Lateral (ask surgeon)

Setup - Lateral: Gel Mat / Diathermy Plate / Arm Boards (until Anaesthetised) / 6 Pillows / Elastoplast or Slek to secure patient / Sheet on Table (Under Patient) / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

Can be Prone or Lateral (Consult Surgical Team)

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

15. Laparoscopic Cholecystectomy

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

Pendent Stack Moved Into position

SCD's Machine

Bair Hugger machine

Diathermy machine

Suction Canaster Tree

Notes: is the inserting of a tiny video camera and special surgical tools through four small incisions to see inside the abdomen and remove the gallbladder

Operating Table and patient positioning requirements

Position: Supine / 1 Arm Tucked In

Setup: Gel Matt / Diathermy Plate / Arm Boards x 2 until anaesthetised, then 1 arm tucked in / Sheet on Table (Under Patient) / Heal Gels / Surgical Access Bair Hugger / Warm Blanket

Notes:

Procedural Variations

.....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised

16. Hysteroscopy / D&C / Cystoscopy / Most General Gynae / Laparoscopic Ablation of Endometriosis / Lap Assisted

(Home) Important: Confirm all requirements with surgical team prior to setup. This includes Theatre table orientation, patient positioning and theatre equipment requirements.

In Theatre Requirements

In Room Equipment:

Pendent Stack Moved Into position
SCD's Machine
Bair Hugger machine
Diathermy machine
Suction Canaster Tree

Notes:

Operating Table and patient positioning requirements

Position: Lithotomy/ Arms Tucked In

Setup: ½ Gel Mat / Diathermy Plate / Arm Boards x 2 until anaesthetised, then both arms tucked in / Table Head End Removed / Table Light End Attached / Leg Stirrups / Sheet on Table (Under Patient) / Bair Hugger / Warm Blanket

May Require Trenguard (consult surgical team)

Notes: May Require Trenguard (Consult surgical team)

Procedural Variations

....

In theatre assistance requirements:

EG: Reposition Patient once anaesthetised
