

Niacinamide Serum

ACTS|22907

WHAT AM I?

This anhydrous serum helps treat the skin while keeping it hydrated.

INGREDIENTS

Propanediol, Niacinamide

WHY AM I SPECIAL?

An anhydrous serum formulated with efficacy to enhance delivery of niacinamide into the skin as water can limit the amount of niacinamide delivered into the stratum corneum. Niacinamide can help treat hyperpigmentation and decrease the appearance of redness and blotchiness.

FORMULA

PHASE	%	TRADE NAME	INCI	SUPPLIER	FUNCTION
A	87.0	Zemea®	Propanediol		Humectant
A	13.0	Niacinamide	Niacinamide	DSM	Active

PROCEDURE

1. Mix together all the ingredients of Phase A and heat until 70-75°C until all the niacinamide is dissolved.

FORMULATING FOR EFFICACY

This anhydrous serum was formulated using the FFE (Formulating For Efficacy) software. The software helps identify the proper emollient(s) to use to not only ensure that the active ingredient is fully dissolved, but to optimize delivery of the active into the skin by providing a driving force. Zemea® fully dissolves 1%...
