FORMULATING FOR EFFICACY

This anhydrous serum was formulated using the FFE (Formulating For Efficacy) software. The software helps identify the proper emollient(s) to use to not only ensure that the active ingredient is fully dissolved, but to optimize delivery of the active into the skin by providing a driving force.

INGREDIENTS

Water, Propanediol, Kojic Acid, Xanthan Gum

WHY AM I SPECIAL?

This gel was formulated using the Formulating For Efficacy software to enhance delivery of kojic acid into the skin.
