

Anhydrous Niacinamide Serum

22907

Phase	%	Tradename	INCI	Supplier	Function
A	87.0	ZEMEA	Propanediol	CovationBIO	Humectant
A	13.0	Niacinamide PC	Niacinamide	DSM-firmenich	Bioactive

Ingredients: Propanediol, Niacinamide

Procedure

1. Mix A at 70C-75C until uniform and clear

Distinctives

- ✚ This crystal-clear anhydrous formulation is an optimized for maximum solubility and delivery of Niacinamide
- ✚ Using the nonvolatile vehicle ZEMEA for such water-soluble bioactives as Niacinamide affords greater time for the bioactive to deliver to the skin
