

Moisturizing Hand Sanitizer

24965

Phase	%	Tradename	INCI	Supplier	Function
A	69.9		Alcohol		Antibacterial
A	10.0		Water		Solvent
B	10.0	ZEMEA	Propanediol	CovationBIO	Moisturization and much more
B	1.0	Carbopol Ultrez 20	Carbomer	Lubrizol	Gelling agent
C	0.1	AMP-Ultra PC 2000	Aminomethyl Propanol	Advancion	Neutralizer

Ingredients: Alcohol, Water, Propanediol, Glycerin, Carbomer, Aminomethyl Propanol

Procedure

1. Premix B and add to A with anchor stirrer until uniform
2. Add C dropwise until clear and thickened using slow mixing

Distinctives

- ✚ Super-moisturizing hand sanitizer
- ✚ ZEMEA provides 3-way moisturization while eliminating the stickiness of Glycerin
- ✚ Innovative neutralizer approach yields a less tacky after-feel
