

Monster Jelly

25108

Phase	%	Tradename	INCI	Supplier	Function
A	50.0	ZEMEA	Propanediol	CovationBIO	Moisturization and much more
A	10.0	TEXTURLUX Feel	Hydroxypropyl Starch Phosphate	Primient	Gelling agent
A	5.0	GLYPURE 99	Glycolic Acid	PureTech Scientific	Multiple skin health benefits
B	35.0		Water		Solvent

Ingredients: Propanediol, Water, Hydroxypropyl Starch Phosphate, Glycolic Acid

Procedure

1. Premix A until uniform with impeller stirring
2. While stirring at moderately high speed, add A, watching the beautiful gel form

Distinctives

- ✚ Monster Jelly was created to be a high-performance oil-free moisturizer to be used on very dry skin in lieu of such products as Vaseline® or Aquaphor®.
- ✚ Glypure 99 ‘caffeinate’ the formulation, smoothing and moisturizing dry skin while encouraging cell turnover; this high carrier humectant formulation allows for more measured delivery of Glypure 99 to dry skin with less irritation potential
- ✚ Reduce the level of Glypure 99 to 3.5%, add flavor and sweetener to create fun, tangy-tasting lip jellies (a lip smoothing smoothy?)
- ✚ ZEMEA provides 3-way moisturization while TEXTURLUX Feel the body for the gel
