B	1.0	Solagum GM	Glucomannan	SEPPIC	Gelling agent

Ingredients: Water, Glycolic Acid, Propanediol, Maltodextrin, Niacinamide, Glucomannan, Polylysine

Procedure

1. Premix B, then add to A with slow round bladed impeller stirring until uniform clear gel is formed

Distinctives

- GlycoGlow Water Gel is a hydrating gel that enhances skin texture and brightness.
- ZEMEA Propanediol provides 3-way moisturization and serves as the 'emollient' in the formulation
- GLYPURE 70 Glycolic acid smooths skin while enhancing radiance
- TEXTURLUX maltodextrin improves feel and viscosity of the gel
