

(Please note: I prepared the following to aid in the sale of my 1959 Mercedes 219 with Kombi (wagon) body by Binz Karosserie. While I believe it is accurate please do not rely on it for purchase or sale decisions – please do your own research. If anyone sees any significant errors please let me know as soon as possible. With that qualification I am happy to share the below with anyone and hope it may be of use to all – Bruce B. 4/14/14)

Mercedes Production Ponton 1951-1963 (except special bodies)

4-CYLINDER MODELS

<u>MODEL</u>	<u>YEARS</u>	<u>WB mm</u>	<u>CC</u>	<u>DIN HP</u>	<u>CHANGES</u>
180 sedan	1953-59	2650	1767	52	engine from 170S
180a sedan	1957-59	2650	1897	65	new, large engine, still pushrod
180b sedan	1959-61	2650	1897	68	larger brakes, no bumper overrides, wider radiator shell
180c sedan	1961-62	2650	1897		
180D sedan	1953-59	2650	1767	40-46	same body as 180, diesel engine from 170Db
180Db sedan	1959-61	2650	1767	46	same body as 180b, larger brakes, no bumper overrides, wider radiator shell, improved diesel engine
180Dc sedan	1961-62	2650	1988	48	new diesel engine
190 sedan	1956-59	2650	1897	75	same body as 180, new engine from 180a
190b sedan	1958-59	2650	1897	80	same body as 180b, no bumper overrides, wider radiator shell
190D sedan	1958-59	2650	1897	50	new SOHC diesel engine, 180D was pushrod
190Db sedan	1959-61	2650	1897	50	same body as 190b, no bumper overrides, wider radiator shell
190SL r'ster	1955-63	2400	1897	104	introduced "modern" roadster style – not a Ponton car in appearance

6-CYLINDER MODELS

220a sedan	1954-56	2820	2195	85	first 6-cylinder Ponton body
219 sedan	1956-59	2750	2195	85-90	essentially same body as 190, except longer
220S sedan	1956-59	2820	2195	100-106	essentially same body as 220a, dual carburetors
220S coupe	1957-59	2700	2195	100-106	essentially same body as 220a, except a coupe, dual carbs

Mercedes Production Non-Ponton 1951-1963

(For some models I only have the years built and total built – in those cases I have put a ? under each of the years that model was built and added a + at the bottom of the chart on the line showing total vehicles built in a particular year. I do not know the exact year any of the 16 special bodies were sold so those numbers are reflected only as ? in the possible production years and reflected in the total columns on the right. For the 300, 300b, 300c & 300d models the sedan numbers include the 16 total special body cars. If anyone has a better breakdown please contact me and I will revise.)

Mercedes Production Non-Ponton 1951-63 With Some Value Indications

(For some models I only have the years built and total built – in those cases I have put a ? under each of the years that model was built and added a + at the bottom of the chart on the line showing total vehicles built in a particular year. I do not know the exact year any of the 16 special bodies were sold so those numbers are reflected only as ? in the possible production years and reflected in the total columns on the right – for the 300, 300b, 300c & 300d models the sedan numbers include the 16 total special body cars. Values shown in green are from Hemmings/Hagerty price guide on 4/14/14 for #1 and #2 conditions.)
