ET and UFO's in the Bible

Ezekiel's Vision of the Wheels **P.1**

Cain's Family and the City of Enoch **P.2**

OutFront: The Dragon, Satan's Ark, UFO's **P.3**

Upcoming Derek's Desk Issues **P.4**

What is on DEREK'S DESK (DSD) Today?

Now that we have a completed Diagram, we can begin to apply the Creation Function (CF) to try to understand the concept of extra-terrestrials (ET) and UFO's.

Another Example of the Common Numerical Themes in the Bible

Last issue I released brand new findings that the Rapture is Real. Today, I release more new findings that shed some light on the controversial subject of the ET and UFO's. I give an example of a Biblical UFO sighting and show that even more numerical and scientific data from the Bible relates to the Creation Function and diagram. The 17 members of Cain's family also are numerically similar to the Daniel Image and the Dragon description.

Ezekiel's Vision of the Wheels

Ezekiel 1 provides a very detailed account of a UFO sighting. We see similarities to the Creation Function and the Diagram.

A Spiral from the North.

Ezekiel's vision enters his space in the form of a whirlwind, which could be described as a spiral column of air. One thing I have noticed about God is that He works within His Word and His Law. This structure we are about to briefly examine is how He needs to present Himself to be seen in accordance with what he has already put in place in 3 ordained dimensions.

The Wheels: Travel in Two God-Ordained Dimensions.

The wheels seem to represent 2 of the 3 God-ordained dimensions, the E-W, and the N-S. The SepGrid is the Earth itself, complete with dry land and water, over which the objects are hovering. I believe this is a picture of Pre-Flood and Pre-Fall reality with its 2-D nature, Great Light, Firmament and the prophetic morphology of the living creatures.

The Firmament and the Diagram.

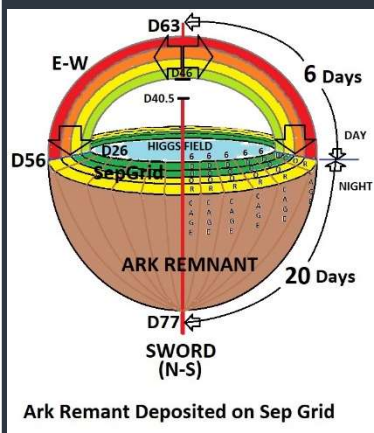

I can locate Ezekiel's prophetic perspective at the Ark Upper Level at Day 70. This is where the Dove brought the Leaf to Noah, a prophet. Also, the Holy Spirit "sat" on the apostles in the Upper Room with the rushing wind. The wheels have the appearance of Beryl. A Beryl stone is comprised of Beryllium (4), Aluminum (13), Silicon (14) and Oxygen (8). for a total of 39 protons. With the Firmament at Day 110, and wheels just below, subtract 39 from 109 to get Day 70. The 39 Days is also consistent with DsD6, where I explain that during the 40 Day Flood, there were 39 "lifting" Days and this object was lifting these creatures.

The Rainbow and the Diagram.

Here we see the nature of the Great Light. From DsD8 we see the rainbow portion of the Diagram comes directly from Day 153 during the 90 Day Drying phase coupling to the Ark Door.

ET: The Multi-Faceted Living Creatures on the Diagram.

These are the creatures from DsD11. The prevalent faces were Man (46) and Eagle (66) giving 112 chromosomes, consistent with being under the Firmament. The Lion (38) and Ox (60) are "on the side" and you see these two on the DsD11 Diagram in other areas.

The Diagram

We see that demarcation points established during the Flood also correspond to Ezekiel's Wheels, and The Dragon.

The Diagram has 3 complete God-ordained dimensions, all very large logarithmic spirals: The E-W, N-S, and SepGrid. Review DsD7, DsD8, DsD9 for more on The Diagram.

What is important here today is that there are special points on the Diagram established at Creation and the Flood that are meaningful in the physical and spiritual World. The following is an overview of these special points from the Day 1 center of the Diagram out:

Day 3: Aka ROOT 19 where the stone hits the Daniel image on the feet. This becomes a mountain (or a stone) that fills the whole Earth. DsD1, DsD3

Day 40-46: The Wilderness. Corresponds to Day 1-6 of the Original Creation now destroyed and dried by God.

Day 46/47: The "mountain that filled the Earth" is where the Ark landed after 40 Days. DsD7

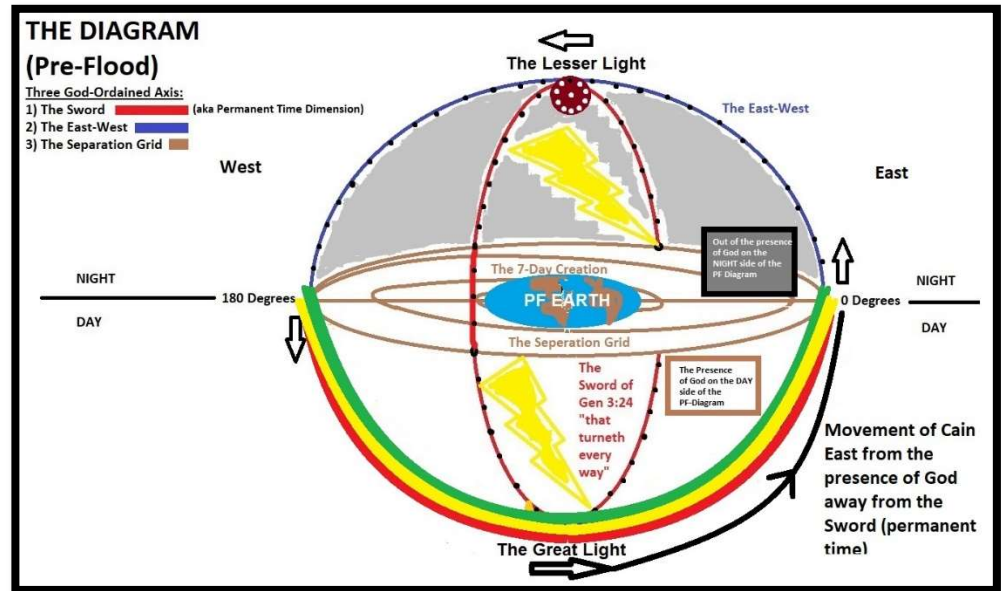

Day 56/57: The top of the SepGrid established by the Ark Remnant imprinting itself on the Earth. Last Drying Phase, 57 Days. DsD9

Day 63/64: The Ark door and waterline. DsD7

Day 70: Where the Dove brings back the Leaf after 7 Days: The prophetic perspective.

Day 77: The top of the Ark after it lands. The Ark Window. DsD8

Day 110: This comes from the first 150 Days of the Flood after the initial 40 N-S. These 110 days the Ark "went upon the waters". This established 47 Days SepGrid and 63 Days E-W. Border of Heaven.

CAIN'S FAMILY AND THE CITY OF ENOCH

Cain and Abel:

Abel's pre-Flood sacrifice of the firstlings of his flock showed a natural adherence with the ways of God without having to be shown. Cain's sacrifice was done his own way and God did not respect it, but Cain had other chances to "do well" if he so wished. Cain was jealous and angrily "talked with his brother" in the field. People focus on the slaying but I focus on the violent words between brothers before the first Murder.

Cain Speaks His Own Punishment?

Words carried power pre-Flood and this is demonstrated before and after the murder. Cain's words were violent, and they "came to pass". Afterwards, when confronted by God, Cain spoke his own punishment to be separated from God, Gen. 4:14

Leaving the Presence of God.

Pre-Flood, the presence of God was in Eden, with Man separated from Eden, but still on the "Day" side under the Great light near or on the Sword. To move away from this position is to go east along the E-W to the SepGrid and the Night side of the Diagram.

Cain is the first to take the Mark of the Beast when he moved away from the presence of God. The "ancestry" and origin of the Antichrist (Man of Sin) are described in Gen. 4:14-24.

A Genealogy with No Time Mentioned.

This genealogy given in Gen 4:17-24 is a parallel to Adam's progeny Gen. 5. The difference is that Adam's descendants were in the presence of God and participated in time with Him via the Sword. Cain's descendants were 90 degrees away from the Sword and did not accrue age the same way. We see that their genealogy is unique in that it does not list ages.

The Descendants of Cain: Aliens?

The first descendants of Cain with him in the Land of "Nod" numbered 17, including wives. These people were city oriented and technologically advanced. *I believe that the City of Enoch was an alien civilization Pre-Flood and that these beings become ET's after the Flood expansion.*

The Covenant of Vengeance.

God made an odd covenant with Cain before parting. God said he would have 7-times vengeance on Cain's slaying. This was escalated by Lamech's Decree that this vengeance would be perpetuated indefinitely. The lesson here is that people do not disappear when they are killed. This is how the line of Cain is carried forth in lieu of time. More killing = more "Cainites". And the totality of all this blood becomes a man hereinafter known as the "Man of Sin".

Putting It All Together: The Extra-Terrestrial (ET).

We read that Cain was the first man to receive the Mark, in the same fashion as described in DsD13, leaving the Presence of God. He is the basis of 7 generations, the 6th of which, Lamech, decrees to his wives a new way of multiplying his seed in Gen 4:23,24. His seed is at the parallel level of Noah, who is our ancestor from the Flood via the Ark. Cain's Family of 17 become ET after being carried far away by the Flood, transported and supported by Satan's Ark, the Dragon.

OutFront: The Dragon, Satan's Ark, UFO's

Satan and Cainites did not die in the Flood. They became part of the Dragon, Satan's analog to Noah's Ark. The Dragon is the Serpent greatly expanded during the Flood.

How Does a Serpent Become a Dragon?

Rev. 20:2 reports that the Dragon is the ancient serpent that beguiled Woman, but a dragon is much larger than a snake. Somehow the snake grew. I believe the transformation was from the Flood. As the Flood expanded the World, the Serpent also grew in a serpentine (spiral) fashion during that first 150 Day period in DsD7. And 110 of these days were divided up among two dimensions being the E-W (63 Days) and the SepGrid (47 Days).

Is the Image of Daniel Related to the Dragon?

From DsD2, the Image in Daniel's dream was 60 cubits tall and 6 cubits wide. The base of the Image had 18 elements. If you were to use this base to represent members of a family lineage, the "1" spot would be Adam, with the "2" spot being Cain. I believe that the 2-18 spots are representative of Cain's family as the ancestors of the image, represented by its 10 horns and 7 heads.

The Dragon and 1/3 of the Stars.

The Serpent's Pre-Flood domain was at the heel of man, under ROOT19 in Day 3. An analysis of Day 4 when the stars were made: NIGHT 4 ends at ROOT 51 (DsD1). One third of 51 is 17, a sign the Dragon's 17 features, each may be represented by a star.

Compare the Dragon vs Noah's Ark.

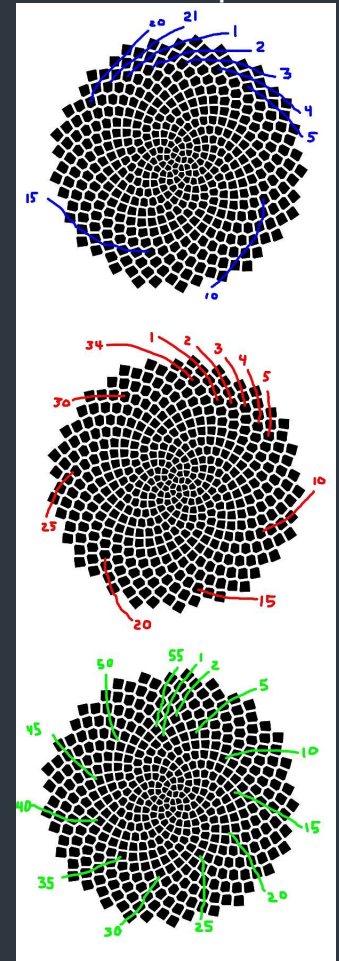

From DsD9, using the Tree Model of the Ark, we see the potential of many similarities between the Ark and the Dragon. Most profoundly is the Ark Model had a trunk, branches and leaves. The trunk is the SepGrid and from the yellow upper portions, there are 12 places from which a branch can originate. And further, the Ark had 8 people inside. So, one could say that Noah's Ark had 12 horns and 8 heads. Another similarity is that the Ark was full of animals (beasts). The dragon is also referred to as a beast, and its counterparts as such. In DsD12, I proposed that the dinosaurs came from birds that left the Ark early. By default, those animals became part of the Dragon as dinosaurs (dragon-like).

600 Chariots Are Now UFOS?

In Rev 12, Satan goes after the Child when it was born. In 2 Cor. 12:7 Paul is tormented by Satan because Paul was once Saul. In Exodus, Pharaoh sends 600 chariots after Israel during the water crossing. The chariots went dead in the water and lost their wheels. *I think this is a clue that the Dragon went after the Ark and the dark water chariots are now UFO's waiting for their time to return to Earth with the Dragon.*

The Tree of Life: The Seven Day Creation and Fibonacci

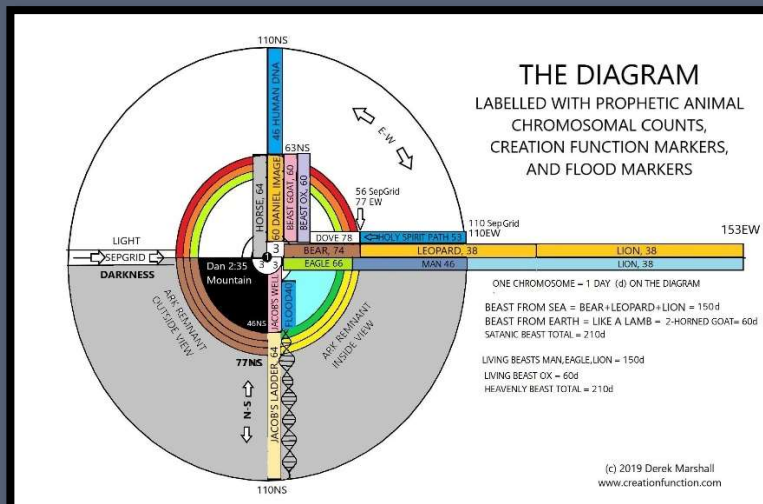

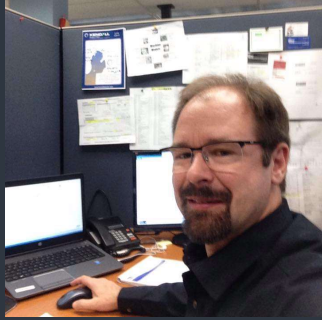

Produced by Revolution Against Evolution (RAE). Hosts Doug Sharp and Rich Geer and I discuss how the Fibonacci Series come from the Creation Function and Noah's Ark.

This Issue's Q&A in New Creation Research

Q: The Extra-Terrestrials in Ezekiel's Sighting?

A: The Man and Eagle are described as being out front and the Lion and Ox on either side. My chromosomal Diagram shows that the Man and Eagle exist under the firmament at Day 110. The chromosome discrepancy could be explained by the fact that the 4 creatures wings were overlapped.

Who is Derek?

Derek Marshall of East Lansing, MI is an electrical engineer who holds a bachelor's degree in Physics from Michigan State University. An inventor and former Marine, Derek discovered the Creation Function in 2005 and has applied it to many of the Bible's more difficult topics as well as questions in Modern Physics and Chemistry.

Upcoming Articles

- **Derek's Desk Issue 15: The Antichrist and the Mark of the Beast**

What can the Creation Function and The Diagram tell us about the Antichrist. Can we fulfill the Revelation 13:18 challenge to count the number of the Beast?

- **Derek's Desk Issue 16: Dark Matter**

I expound greatly upon the Tree Model of the Atom, to show what Dark Matter could be. As of this writing, no one knows what it is and I believe I will be able to actually make some predictions using the Creation Function and the Diagram.

- **Derek's Desk Issue 17: Quantum Entanglement**

The Creation Function and the Diagram create entangled structures. There are examples in the Bible of entanglement. What does it mean to be entangled in this context?
