HANGING INSTRUCTION

SURFACE PREPARATION

- Walls should be smooth, dust-free and dry before applying the paste, to avoid creasing.
- If the surface is not perfect, we recommend the use of a lining paper.

CHECKING THE WALLPAPER

- Before cutting the rolls, ensure that they are all from the same lot no. and that they are in good condition with no color variation or other defects.
- For each claim, please enclose the label which indicates that lot no. after hanging 3 drops check the result. No claim is accepted for more than one roll.

APPLICATION

- This product is hung by applying an even coating of paste either on the wall or on the reverse of the paper.
- Avoid squeezing the paste between the edges of the paper.
- The paste must not come into contact with the surface of the paper at any time.
- All traces must be removed before by lightly dabbing the surface with a moist, clean sponge.
- If paste is allowed to dry on the surface of the paper, it will cause discoloration.
- We do not accept any claim for damage resulting from paste being applied to the surface.
- Use a high-quality wallpaper paste.
- After having pasted half of one length of the paper, fold it back on itself and continued to paste the rest of the length in the same way.
- The soaking time should be very brief.
- Apply the first drop in a perfectly vertical way.
- A better ways to adhere the edges would be to paste a strip of the wall in line with the join of the paper.
- Hang the lengths, one next to the other, neatly joined together without any overlapping, taking care to match the pattern repeat.
- To eliminate bubbles and to ensure a perfect contact with the wall surface, use a decorators wallpaper smoother or a dry cloth.
- Trim using a sharp blade and metal ruler.
