

The chart below has existed ever since CAGED was discovered. Follow along in the video to see how to find each scale. The charts below show the INTERVALS of Both The Chord and The Scale. Remember, the Root of the Chord is the Major Root of the Scale. If you want to make this cerebral and instinctual, join me and the Smartest Viewers on YouTube :) on my Patreon channel to practice navigating, understanding and using these scales at [Patreon.com/stichmethod](https://www.patreon.com/stichmethod).

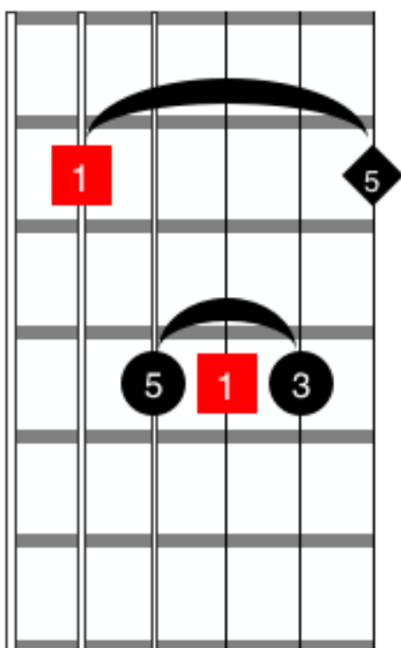

C Shape Chord
With Intervals

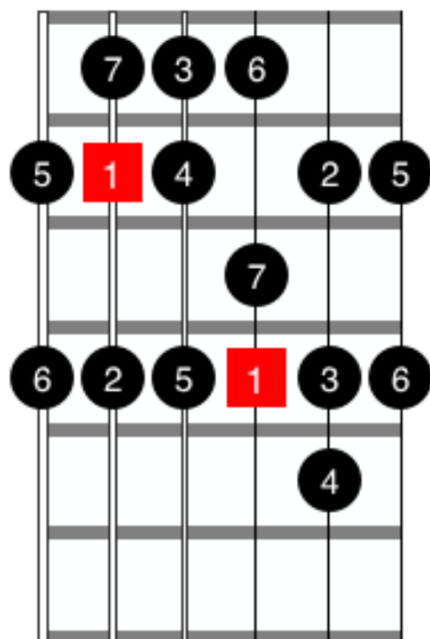

C Shape Scale

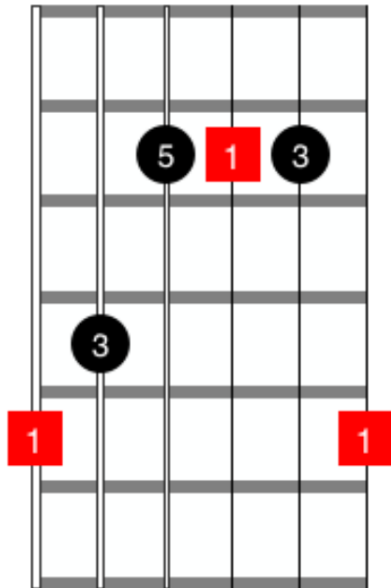

A Shape Chord
With Intervals

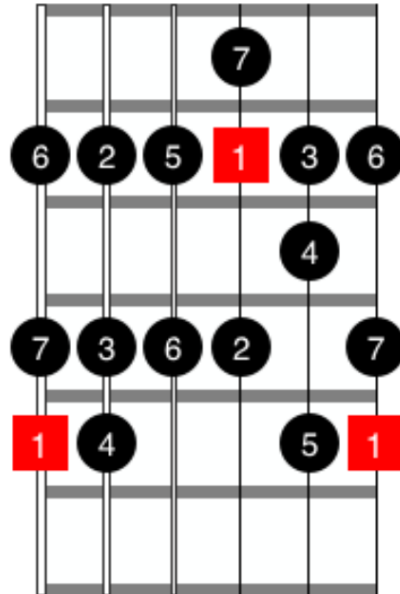

A Shape Chord
Matching Diatonic

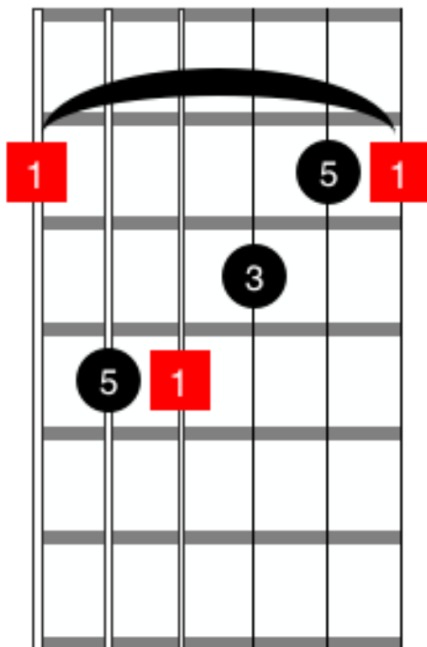

G Shape Chord With Intervals

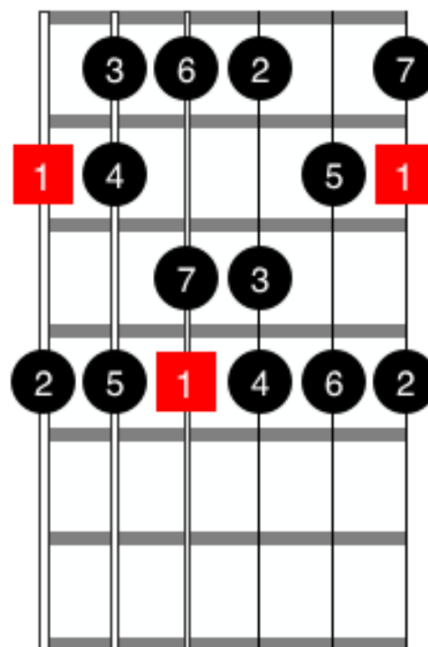

G Shape Chord Matching Diatonic

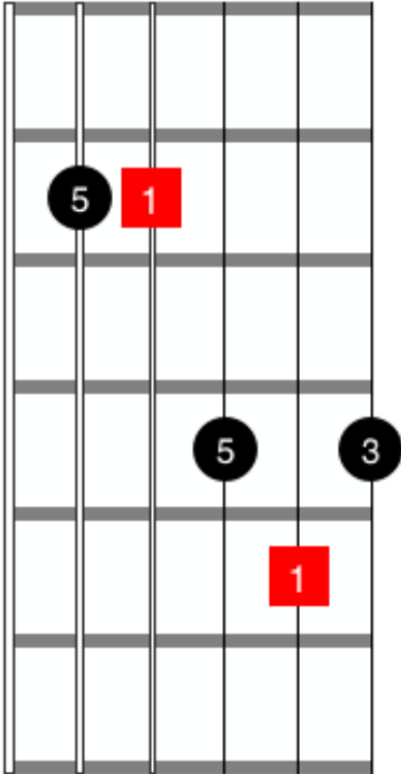

E Shape Chord With Intervals

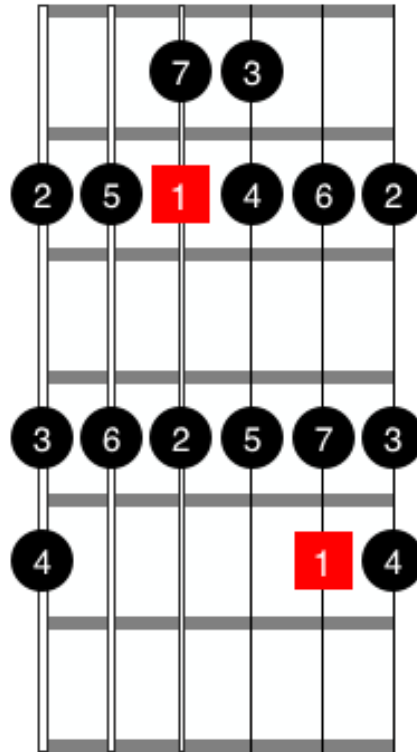

E Shape Chord Matching Diatonic Scale

D Shape Chord With Intervals

D Shape Chord Matching Diatonic Scale

Remember to move the chords around to different areas of the neck. When you do, you will have a new chord and its matching Major Scale. Hope you Enjoyed!!!

Rock on,
Stich
