

## **How to achieve the best outcome from skin cancer check**

1-Please have a shower, remove make up on face and shampoo your hair  
Any dust or particles can interfere with microscopic examination, and  
you may need to revisit the clinic.

2-Please treat any infection including fungal and bacterial infection

Patient with skin infections is not allowed to our procedure and skin  
check room as part of our infection control policy.

3-Please ask your family members for any skin cancer particularly  
melanoma

4- Please note any moles which are new or changing colour, size and  
pattern. Any skin break or ulcers not healed over last 6 weeks

5- if you have multiple moles more than 50 on your body, please do not  
book with us for full body skin check. You may need to book for total  
body imaging service from other skin cancer clinic
