-------------------------	-----------

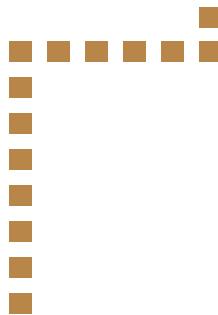

Every year, millions of people in the U.S. experience a mental health crisis. It is important to know that regardless of your particular situation,

## YOU ARE NOT ALONE.

This guide is full of resources designed to help people in crisis, as well as follow-up support for the return to better days. Whether you are seeking assistance for yourself — or for a friend or loved one — there are people locally and nationwide who understand and want to help.

Please review this entire guide to find the support that best fits your needs. Included are mental health resources for adults and children — from crisis intervention services to emotional, financial and legal support, and so much more. Resources are also listed alphabetically in the glossary.

**STAY STRONG.**

Help is just a phone call away.

## OUR GOALS

- Reduce psychiatric hospitalizations.
- Reduce emergency department visits for behavioral health issues.
- Reduce out-of-home placements.
- Improve the mental health of children and families throughout the region.

CAFÉ SERVES INDIVIDUALS  
AGE 0 TO 22.

AN APPOINTMENT IS NOT REQUIRED  
TO BE SEEN BY A CLINICIAN.

## ABOUT US

The Spartanburg Area Mental Health Center received SAMHSA funding for a grant: FOCUS. It stands for Family Options for Cherokee, Union, and Spartanburg. This grant allowed us to create the CAFÉ Center.

We are able to offer a matrix of services and supports, across ages and across presenting problems, that improves outcomes by utilizing evidence-based and promising practices.

These reflect the voice and choice of youth and families, while improving the overall health of the communities where they reside.

## OUR SERVICES

- Family support

# My Mental Health: Do I Need Help?

First, determine how much your symptoms interfere with your daily life.

## Do I have mild symptoms that have lasted for less than 2 weeks?

- Feeling a little down
- Feeling down, but still able to do job, schoolwork, or housework
- Some trouble sleeping
- Feeling down, but still able to take care of yourself or take care of others

## If so, here are some self-care activities that can help:

- Exercising (e.g., aerobics, yoga)
- Engaging in social contact (virtual or in person)
- Getting adequate sleep on a regular schedule
- Eating healthy
- Talking to a trusted friend or family member
- Practicing meditation, relaxation, and mindfulness

If the symptoms above do not improve or seem to be worsening despite self-care efforts, talk to your health care provider.

## Do I have severe symptoms that have lasted 2 weeks or more?

- Difficulty sleeping
- Appetite changes that result in unwanted weight changes
- Struggling to get out of bed in the morning because of mood
- Difficulty concentrating
- Loss of interest in things you usually find enjoyable
- Unable to perform usual daily functions and responsibilities
- Thoughts of death or self-harm

## Seek professional help:

- Psychotherapy (talk therapy)—virtual or in person; individual, group, or family
- Medications
- Brain stimulation therapies
