

# SWEET ENDINGS

941.312.0000 | 727.317.3500

While classic white wedding cakes will always be an attractive choice for the occasion, the options for wedding cakes and other treats are ever-expanding. There are stunning new mini sweet bites that have grown even more popular over the past few years, along with clever, new techniques that bakers are excited to offer their couples.

## Cake Alternatives

You don't have to serve a giant wedding cake at your reception if you don't want to. Plenty of couples are making their traditions by providing a variety of mouthwatering wedding desserts with a smaller version of your favorite dessert for the "cake ceremony."

## Specialty Sweets

Our family-style dessert station is created around a specific sweet, with guest options to create their masterpieces. Think a churros station, donuts, even mini pies. Most couples add these treats in combination with their wedding cake.

**Sweet Late Night Bites** Another alternative is to serve mini bites of "breakfast" for your late-night bites. Anything with french toast, waffles, and Nutella is perfect to end your evening with a flair.

# MINI TARTS

There are dog people, and there are cat people. Similarly, there are cake people, and there are pie people. Dainty and light, these tarts feature our favorite textures - crispy and creamy, all in one yummy morsel. They look pretty and delicious at any dessert station and are less cumbersome than slices of pie.

LOVE PIE? Our tarts can also be served as part of a dessert station for more than one bite of deliciousness.

# DESSERT BARS

Evoke nostalgic memories of bake sales.

These dessert stations are themed by type of dessert, with an assortment of "create your own" sweet creams and sprinkles. Each serving is more than just a few bites, so those who love desserts love these creations.

One of the newer trends from Europe is an artesian cheese "cake" with tropical fruit, which is a perfect addition to our Intimate Wedding Packages.
