

GUARDIAN REHABILITATOR™ SPORT

ABOUT US

Rehabilitator™ technology is engineered and clinically proven to provide neuro-muscular strengthening to accelerate and enhance the rehabilitation process. Guardian Brace incorporates wearable rehabilitation technology in all its products to meet orthopedic and physical therapy goals. Rehabilitators™ are the perfect ancillary product to integrate into your current treatment protocols to achieve improved patient outcomes.

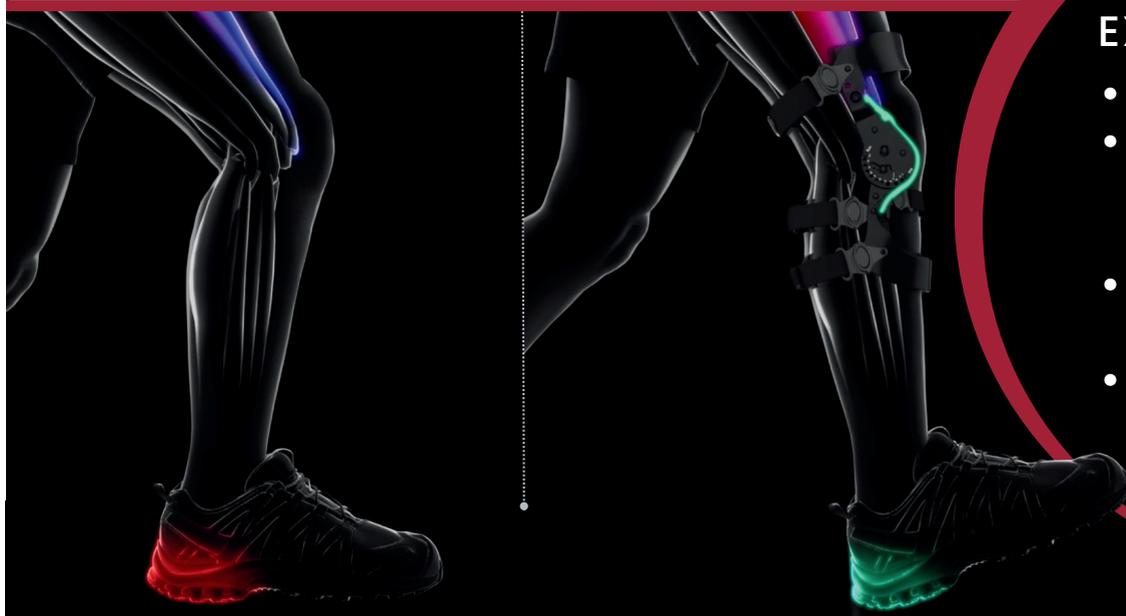

- 11" in length
- Heat moldable
- Patented swing assist & pneumatic unloader
- Neuromuscular leg strengthening
- Gait correction
- Rehabilitative wearable technology
- 3 Times more effective than physical therapy alone

L1845/L1852

'Significant results in as little as 90 days'

'Clinically proven to delay the progression of knee oa'

EXTENSION ASSIST

- Facilitates heel-to-toe gait
- Significantly increases and improves muscle firing sequence
- Improved gait biomechanics & gait efficiency, unbraced
- Easily adjustable resistance levels, 2.5-7Lbs

MEDIAL & LATERAL PNEUMATIC CONDYLES

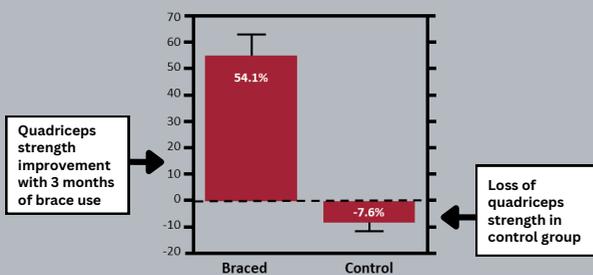

- Unload medial, lateral, or biocompartmental knee OA
- Provide therapeutic compression
- Increased proprioception
- Easily customized to achieve optimal unload

INDICATIONS OF USE

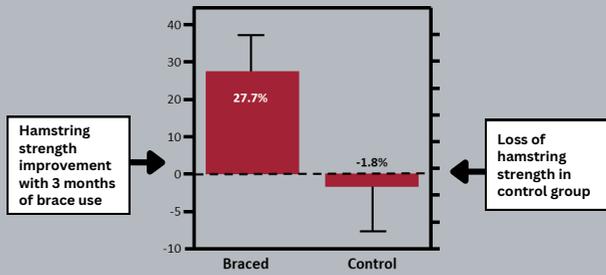

- Mild to severe knee osteoarthritis
- Meniscus procedures/repairs
- Chronic knee pain
- Chondral defects
- Pre/Post TKR

**Braced vs. control patients
percent improvement in quadriceps strength**

**Braced vs. control patients
percent improvement in hamstring strength**
