

PREMIER BOTTLELESS WATER AND ICE VENDOR

ABOUT ARTESIAN

Artesian is the Nation's premier bottleless water and ice expert. Our goal is to provide cost-effective and efficient water treatment technologies for all our clients. Saving you money and ensuring industry-leading customer service.

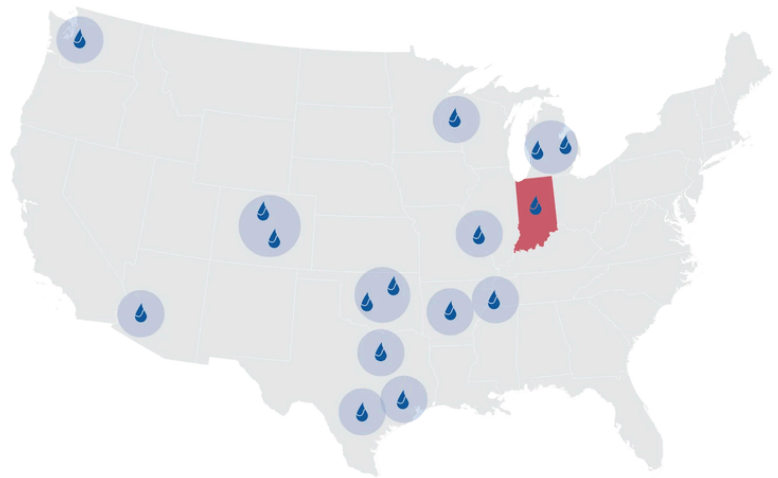

When you use our bottleless water coolers and commercial ice machines, you are helping to reduce the use of plastic, lowering carbon emissions, and providing clean, unlimited water and ice to your company. Our machines purify already available tap water to provide delicious and convenient drinking water and ice.

We do this using the latest water purification technologies via a built-in, multi-stage process that remove dirt, rust, lead, chlorine, and other harmful chemicals. Your purified water is then stored in a sealed, sanitary holding tank, keeping it safe until you're ready to enjoy it.

EASY INSTALLATION

From waiting rooms to warehouses, we install it all. Our trained team of certified technicians have successfully installed systems in the most demanding locations.

JOIN OUR MISSION

Artesian is proud to support the Bottleless Nation Charitable Foundation, which is dedicated to funding initiatives encouraging environmental clean-up, reducing plastic pollution, and serving water-insecure communities in the US and abroad.

In our first two years of giving, we were able to donate over \$76,480 to the BNCF.

OUR POPULAR BOTTLELESS WATER AND ICE SYSTEMS

i14

- Cold, hot, and ambient water, plus ice dispenser
- Elegant tulip-style ice
- Reverse osmosis purification
- Touch-free sensor activation
- Leak protection system
- 16.9" w x 58.7" h x 19.4" d

M6

- Cold and hot water
- Reverse osmosis purification
- Touch-free dispense options
- 24-hour real-time monitoring
- 13"w x 57.5"h x 20"d

COMMERCIAL ICE

- Ice dispensers, scoop bins, and hotel cubers
- 80-500 lbs of ice production/day
- Modern, sleek designs
- Maintained by service professionals twice a year

DEIONIZED SYSTEMS

- Dental Pure System
- Ideal for autoclaves, handpieces, dental units, and clean water bottles
- Produces 12-15 gallons of distilled-grade water daily
- Reduces plastic waste and reliance on bottled water as a sustainable, eco-friendly solution

SOLUTIONS

MULTI-STAGE PURIFICATION PROCESS

1. SEDIMENT FILTER

Reduces dirt, silt, rust, pipe residue, etc.

2. PRE-CARBON FILTER

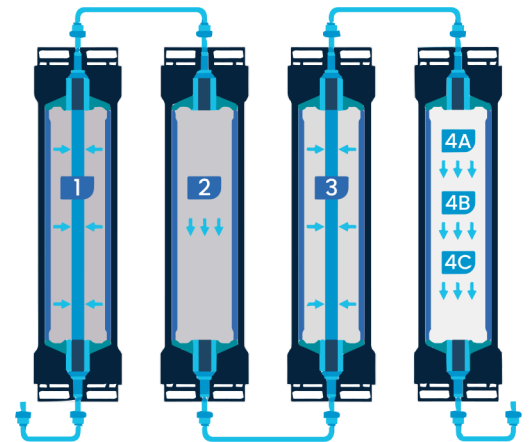

Reduces chlorine, chemicals, and pesticides

3. REVERSE OSMOSIS (RO) FILTER

Reduces such contaminants as solids, arsenic, metals, and pharmaceuticals

4. ELEVATE MINERAL ENHANCEMENT

- Better tasting pH-balanced water
- Enhanced with minerals to increase alkalinity
- Coconut shell carbon polishes the water for an even cleaner taste
