

Tricks Teaching Guide

Did you notice Hunter and Mom wore hearing protection when they used the tools?

- *Do you remember what the hearing protection looked like? (earmuffs)*
- *Did you know why it is important to protect your ears from loud noise?*

Go look at "How Crackers got his Name" and check out Dad when he was cutting palm branches down.

- *Do you see any other safety equipment Dad was wearing when using the chainsaw? (Hint: Most of it is orange.)*
- *Other types of safety equipment protect the head, eyes, feet, and hands. There is even equipment that protects your whole body from getting burned in a fire."*
