HOPELESSLY ADDICTED TO LOVE

CONGRATULATIONS... YOU'RE GETTING MARRIED!

Hopefully you've picked your date and booked the venue. Now's the time to consider everything else you'll need.

Choosing the right photographer is essential, because you'll want to cherish your wedding day photographs for the rest of your life.

Photographing a wedding is telling a story in pictures: You're the storyteller and I capture all the emotions of the day as well as the magical, candid moments you might miss.

This brochure will give you a flavour of how I work and what to expect. If you like what you see, let's organise to meet or arrange a Zoom call.

I'm more than happy to share some complete weddings I have photographed, or simply [click here](#).

Happy Wedding Planning!

STYLE TO SUIT

My style changes with the couples I photograph as the pictures really should reflect them and not me.

Being unobtrusive is the best way to capture natural candid shots, but it is also important that your photographer can organise larger groups, confetti shots, and fun photos.

The best posed photograph looks completely natural and, as your wedding photographer that is what we'll achieve together.

Sharing a Pinterest board is a good way for me to see the style of photography you like.

I like to meet with you before your wedding, preferably at the venue.

This allows you to become comfortable in front of the camera, and helps me to see how best to photograph you and give you tips on posing.

We'll then walk through the day together, discuss timings, and where to photograph.

Also, it's good to get to know each other better before what may be the most magical day of your life.

YEARS OF EXPERIENCE

IMMAGINATIVE, QUIRKY & FUN

There's always room for fun at a wedding and the laughter and comic moments are all part of your day.

I love to capture photos that truly tell the story of your day. In years to come you can be sure that they'll bring back memories to make you laugh!

A Sample of Silliness is a slideshow collection of some of those moments.

CARE & CREATIVITY

All photographs are individually edited using the latest software.

I take time and care with each and every one, ensuring the best quality possible, whilst being creative.

I love black and white photography and will also edit a selection from your wedding in this format.

INDIVIDUALLY TAILORED

I have a selection of packages for you to choose from. They range from a micro wedding through to packages that include a talented and highly-experienced second photographer. I am more than happy to tailor packages to perfectly fit your day.

Packages start from £820 and the full details can be found on my website. I also offer a range of photo books, albums, and prints at an additional cost.

UNOBTRUSIVE

If you're interested in booking, please get in touch as soon as possible to secure your date; the summer months get very busy.

It's important that we should meet either face-to-face or via Zoom before you make your final decision to be sure you're comfortable with me—and I with you.

I work in a very relaxed and unobtrusive way, and place great importance on establishing a rapport with my couples.

PERSONAL SERVICE—FAST TURN AROUND

Limiting the number of weddings I shoot each year means that I am able to offer a really personal service. It also means I can guarantee a sneak preview of a few of your wedding photos within 24 hours. As a result, the first photos you share will be beautiful and the quality will beat anything taken on a phone.

There is no long wait for your final wedding photographs either: The full collection will be ready to view 6–8 weeks after your wedding day.

NEXT STEPS

Let's sort that Zoom call.

After that I will need a signed wedding photography contract, and a 25% booking fee.

Once I have this, your date is guaranteed; your balance is then due four weeks before your wedding.

If you think we're a good match, let me know and let's start this creative journey!

Happy Planning xx
