

Clopton - Greg

In retrospect, what are your thoughts about your time at CHS? How have you changed since?

CHS era almost seems like a different universe. Everything was so different and our world is so changed since then.

Have you experienced an unusual or life-changing event or significant achievement?

The biggest impact on my life has been the experience of dealing with family medical issues. My oldest son had a medulloblastoma at age five and deals with the life-long complications. My youngest son was

born at 2 pounds 14 ounces and has since grown into a software engineer and kick-ass snowboarder. Pat, my wife was diagnosed with AML in Sept. of 2017, received a stem cell transplant and has subsequently developed follow-up tumors. She is currently on chemo and doing well. Most chemo patients don't ski, cycle and sea kayak. Pat and I share those sports together. Every challenging experience in life brings pain and growth. These and other experiences have been profound in many ways.

What would you like us to know about yourself, your work or your family?

After graduating college I lived in the North End of Boise for a few years, moved to the Tri-Cities for about 25 years, then moved to Vancouver WA in 2004, where I live today. I worked in pharma for 37 years and came to know a lot of amazing people in that work.

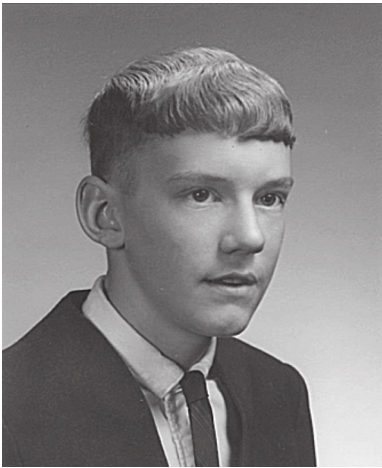

What are your hopes for retirement?

I retired in September of 2018 and am loving it. I am very active in outdoor sports and enjoy life.

This photo is myself and Pat while on a kayak trip in the Ionian sea.

Cochrane - Thomas

Deceased December 17, 2021

Be afraid, classmates . . . Be VERY afraid:

A bunch of us just happened to be in the alley beside the Hi-Pop at lunch time on the last day of school at Jefferson Junior High in late May 1967. You were trying to toss lit matches into a pile of flash powder, but with no avail. I was, of course, stupid. I bent forward and threw in an entire flaming book-full. Needless to say, my face was too close. The explosion caught the brim of my cowboy hat, sending it up end-over-end, to the height of the church steeple right behind us. I stepped back in shock with no eye brows, no eye lashes, every zit popped and a black face

smoking like a looney tunes character. The crowd was looking at me, and were completely doubled over in uncontrollable laughter. I joined in as well until suddenly pain hit with a vengeance.

I bolted into the Hi-Pop, and the lunch ladies began frantically packing as many cold, wet wash rags on my puss that they could. Only the tiny flesh-colored squint-marks outside the corners of my eyes was an indication that my peepers had shut in the nick of time, or I might have been blinded for life.

You know, I didn't even go to a doctor that day. In fact, I actually attended a big last-day-of-school swim party that night at one of your houses. With the charcoal washed off, I showed up sporting a beet-red mug with no features. I looked like some kind of an albino fish experiment gone wrong. About a week later it began to scab over, and then I had to go around town noticing strangers try to look away as if I was the second coming of Elephant Man. It wasn't too long after, the skin dried out so bad that the itching felt like I'd been face-planting in poison ivy. Finally one morning I awoke on my stomach, looked down at the pillow, and there it was: My faceentirely in all it's mask-like glory. I should have saved it. The actor who played Leatherface could have used the real thing in the future Hollywood block-buster movie Texas Chainsaw Massacre.

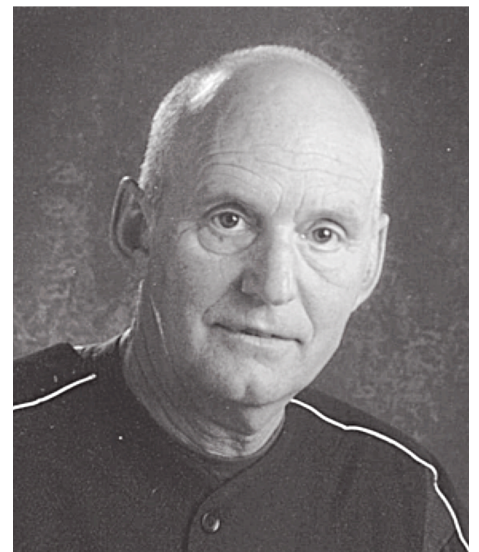

Most of the CHS class of '70 still forget our final day of school at Jefferson was also the last day of school for Tom Cochrane in Caldwell, Idaho — period. Two months later Dad and Mom whisked me off to Portland. I returned so many times to visit that half of you didn't even notice that I'd moved away. I just want to thank each one of you for making my life the best of BOTH high school worlds any boy could have ever dreamed of.

The one. . . the only. . . IT'S TOMMY! - Tom Cochrane

Update ---

Tommy passed away Friday Dec 17, 2021.

There is no obituary. He requested no services and his ashes will be scattered around his cabin up at Silver creek plunge.

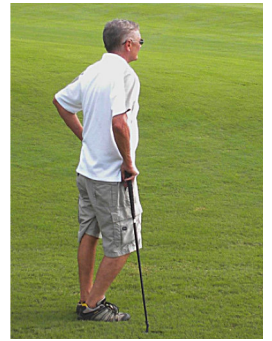

Collins - Mike

From 20th Year Reunion

In 1990 he lived in Arlington Texas and had a son Randall 10. He worked at Alberton's.

Cooper - Christy Morford

From 20th Year Reunion

In 1990 she lived in Portland. (now lives in Caldwell). She is now a substitute teacher. She was a representative for Dain Bosworth.

What she would like to be when she grows up: A busty, blonde, air-headed brain surgeon—that would really shake them up --wouldn't it.

Highlights: Boise State, living in Idaho, Utah, Kentucky and Oregon. Getting a stock brokers license. A 2 year battle with leukemia. Not too fat or gray and glad to be alive to share this reunion.

I remember: Karen Vertrees-laying on the dock in McCall, embroidering pillow cases for our "hope chest", when her mother called, "Come quick, they're walking on the moon!"

Sally Winbigler making Spanish Rice-a-roni upstairs in her bedroom.

Patty Pederson playing beatles records backwards to see if Paul was really dead!

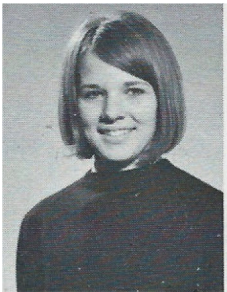

Sandy McLeod-having the same '67 Mustangs. . . wish we still had them.

Kathy Marmon- I once took a paper bag full of kittens home from her house on my bike but I didn't get to keep one!

Sylvia Stephenson- In about 5th grade we went with my family to a Mexican Restaurant in Ontario. Sylvia, seeing Mexican food for the first time, said "Nothing in the world could make me eat something that looks like that!!!" Refried beans are great, aren't they? You've come a long way, Baby! Thanks for being my friend. (Editors note: soon we will all be eating food of refried beans consistency in the nursing home.)

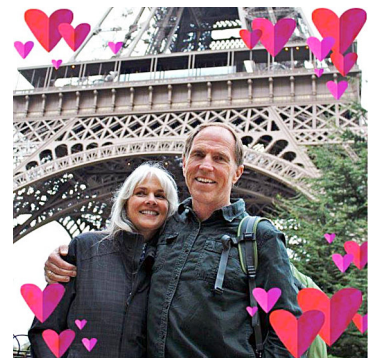

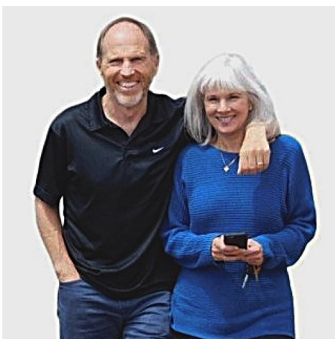

Coumou - Gertrude (Trudy) Shepard

From 30th Year Reunion

John and I were married in July 1999. We live in the small Norwegian town of Poulsbo (Kitsap peninsula) on 3 acres of gardens and wooded trails. It's a great life! John (ordained Presbyterian minister) and I are involved in the adult education ministries of Rolling Bay Pres. Church on Bainbridge

Island. Regarding the rest of my family, my father moved back to Holland, mother and sister/family live in the Lake Tahoe area, and brother/family in the Seattle area. Despite the distance, we all remain close. Life has had its ups and downs, but all in all, it just keeps getting better! God has been so very good to us.

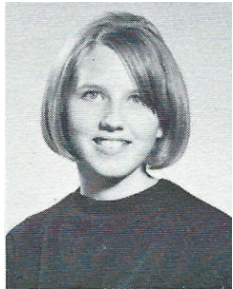

Cotton - Dave

From 30th Year Reunion

The decade of the 90's ended pretty much as it started for me, still in the AF, still flying airplanes on a regular basis and still looking for wife #2. In between, things have been pretty good. The first 4 years of the decade were spent on my 2nd tour of Honolulu, HI. I mostly flew VIPs around the Orient, Australia, South Pacific, Indian Ocean and CONCUS. When I wasn't flying, I was working on my golf handicap. The last 6 years have been in the high desert of south California at Edwards Air Force base, located about 60 miles from the 13 million plus LA Basin. I currently enjoy flying local flight test support in several different types of aircraft. About 4-6 times a year I get turned loose to do some VIP flying to almost any place in the world. In my free time, I take advantage of this great south California weather and do some Harley riding. Can't say where I'll be after I leave the AF, but Idaho does pull every so often. I can visualize myself settling down around Boise. Thanks to all who have given their time to set up this reunion and put this memory book together.

Crooke - Cheryl Kleinbart

From 20th Year Reunion

In 1990 she lived in Mt Vernon Washington and was married to Steve. She was an administrative assistant for DSHS-Aging and Adult Services.

What I would like to be when I grow up: Wildlife photographer/Gypsy

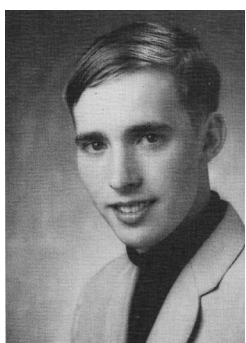

Highlights: Living in a school bus on 5 acres- no plumbing or electricity (the early years). Marriage- on the road as a musician's wife. Travel-Europe

Occupations: typesetter, landscape gardner

Hobbies: weaving, photography

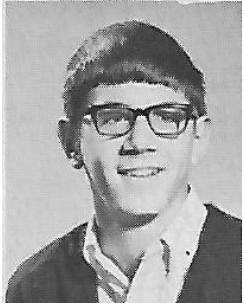

I remember: Jani Anderson's great 45 record collection The parties, swimming at Lake Lowell. Brenda Babbitt could give the "lip". Joe Vermaas-friendship rings. Teresa Roberts & Becky Batt- the rebels. Harland Rayne-the art work.

The "boys" bowling on Saturday morning. Jeff Jensen-mowing our lawn.

Crowley - Chris

Deceased 2/15/1986

Cunningham - Tom

Deceased 5/6/2012

George Thomas "Tom" Cunningham was born October 19, 1951 and died on May 6, 2012 in Seattle, Washington.

Memories of Classmates from Steve Roberts:

He was in the service and was MP in California. He attended Boise State University. He was a legal aid in Seattle for a group of attorneys before he died from cancer.

Cupp - Sandra Jackson

Deceased 9/13/2010

Jackson, Sandra D., 58 of Nampa , died Monday, September 13, 2010 at home of natural causes.

Curry - Margie Mitchell

Darling - Carol Ann Mercier

The family photo of me and my children and my oldest daughter's husband was taken in the summer of 2005. My photo was taken in Dec 2015. I attached a selfie that I took today.

One word or phrase to describe my senior year is change. I got my braces off two months after I had my senior pictures. My parents moved to Weiser, so I stayed with my grandparents to graduate from CHS. They didn't have a piano, so I couldn't take piano lessons. I didn't have a car to drive anymore.

My favorite song was the Carpenters' Close to You and reminds me of a soft, soothing massage, the sound surrounding you with warmth and comfort like a blanket.

My favorite hangout in Caldwell was Caldwell Drug, my grandpa's store, where I read Marvel Comics for hours on end.

My favorite teacher was Miss Laub in 11th grade because she took time after school to show me how to be descriptive in my writing, which has served me well to this day.

Since graduation, the event that had the greatest impact on my life was my church mission to Argentina in 1973. Whereas I was very quiet during high school, my mission opened my mouth, and I haven't quit talking since I have a Bachelor's degree in Spanish Translation from BYU. For my final project, I translated 3 lessons from an organ resource into Spanish. I still speak Spanish fluently.

I will never forget when I received a "1" rating for my vocal solo at the District music festival my senior year. I have always been known as a pianist, but because of it, I received voice lessons in exchange for accompanying vocal students. When no one else in the choir received a "1" rating, I was truly shocked.

The achievement I am most proud of is graduating from BYU after going back 30 years later to complete my degree.

The greatest "gift" I received that, at the time, I did not perceive as a "gift" was being let go from a job teaching music at an elementary school because it freed me up to return to BYU to get my Bachelor's degree in 2011.

My favorite pastime or leisure activity is reading and playing piano/organ.

One word or phrase to describe my retirement is pending. When I retire, I plan to certify as a master herbalist.

Davis - Debbie Lords

From 30th Year Reunion

After working for 20 years in libraries at U of U, I decided to get my Librarian Degree. Now I have a Master Degree in Library and Information Science--and a different career. During my Master's studies, I ate up the few computer classes that were offered. Totally intrigued, I took several computer science classes at the U of U to make the "Information" portion of my degree stronger. I then moved into doing computing

work at the Marriott Library eventually working my way up to being Head of PC Systems in the three "and soon 5" general open access student labs at the U of U that are managed by the Marriott Library. The core objective of my job is to set up quality systems that are usable for the students.

During this same time, my husband worked for 3 or 4 different companies, but always sat at the same desk. Buy-outs are not fun. My daughter is all grown up and married. Her husband is a neat kid with whom I worked (well, still do). I thought they might like each other so I introduced them at a library party. Never believed in "love at first sight" till I saw them. I was delighted that they decided to be married in the LDS temple. We like to joke that I picked out her husband. What's really neat is that my husband likes him too, and his family likes my daughter.

The key highlight of the last 10 years is that after 25+ years of marriage, my husband and I were sealed to each other for all time in the LDS temple. After many struggles, we finally made it.

Davis - Jerry

Denker - Joyce Olaveson

Various Positions at Wells Fargo

Studied at Boise State University
Graduated in 1980

Lives in Boise, Idaho

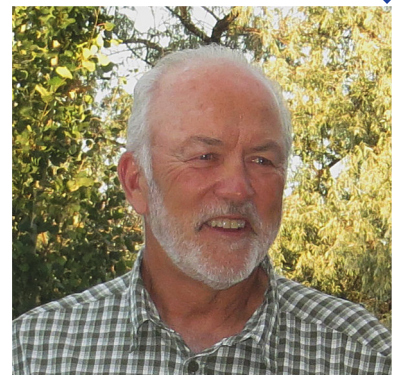

From Belle Fourche, South Dakota

Devlin - Dana

Memories of Classmates from Steve Roberts:

He farmed 80 acres and rotated his crops of alfalfa and onions and other crops. He learned farming from his grandpa. He lives up on Canyon Hill and is married to Arlene.

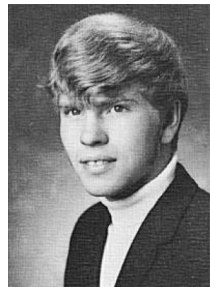

Doolittle - Anna Lucinda (Cindee)

Deceased 2006

Her name was actually Anna Lucinda Doolittle. She was married twice - to an Adams (that name is listed in the 10 year reunion book) and to a Tyler.

Anna Lucinda (Cindy) Doolittle Adams Tyler was born on June 20, 1952, in Ogden, Utah, the daughter of Wanda and Raymond "Jim" Doolittle. She died on January 26, 2006, at the age of 53 and is buried in the Canyon Hill Cemetery.

Downing - Don

Draper - Earlene Anderson

From 20th Year Reunion

In 1990 she lived in Burns Oregon, was married to Larry and had Shawna 15 and Cindi 5. She was self employed

Earlene and Daughter

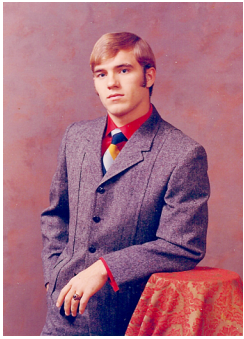

Driscoll - Bob

Duvall - Paul

Ekanger - Randy (Page 1)

In retrospect, what are your thoughts about your time at CHS?

I have fond memories of growing up in Caldwell and attending Caldwell High School. I loved the social aspects of CHS. I had some excellent teachers who redirected my energies and inspired me to continue my education after high school. I was born in Idaho, my roots remain in Idaho no matter where I am in the world, and I'm still a fan of anything Idaho!!

How have you changed since?

I love to travel and I had the fortune to live in several countries besides the United States. Such experiences provide me with a deep appreciation of other cultures.

Have you experienced an unusual or life-changing event or significant achievement?

I have had several significant, life-changing, events in my life. However, the most significant event was when I married Karola Roos over 30 years ago. We made an excellent team which resulted in a rewarding career with the Department of Defense Education Activity, and also resulted in a great international adventure together.

What would you like us to know about yourself, your work or your family?

I am proud that I was flexible, and Karola and I were willing to relocate to some remote workplaces. It was an honor and a privilege to work as a civilian with all branches of our country's military in Europe, Asia and North America during my career.

What are your hopes for retirement?

Stay in shape, travel, make sure the cats are fed, and remember to take out the trash.

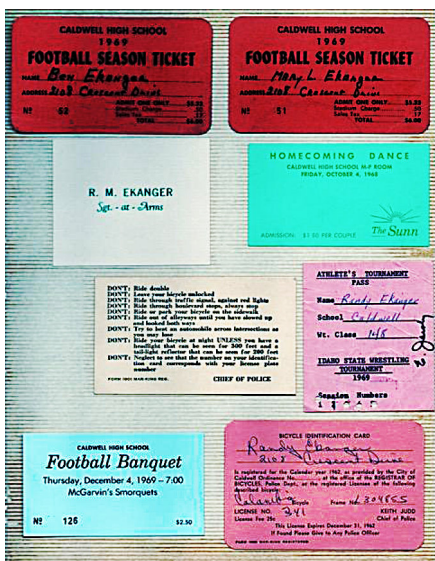

Ekanger - Randy (Page 2)

Attached are some newspaper clippings and photographs for the CHS Class of '70 Reunion;

Mrs. Farmer's 4th grade class at Lincoln Elementary School answered the question, "If you had a magic button that could grant any wish you might desire, what would you wish?" The answers were published in Pete Hackworth's BY THE WAY in the Caldwell News Tribune.

I saw a queer button yesterday. I started looking at the button. After a while I got to wondering what it was for. I wished I was at grandma's and grandpa's. Immediately I was there. — Linda Neth

If I had a magic button that only gave one wish I would wish that I could be a jet pilot and break the world record. The President would give me \$1,000,000 and the government would give me \$600. — Richard Preece

If I had a magic button I would wish for a million dollars and give it to my parents. — Mary Jones

UNCLE CHUTNEY SAYS — If I had a magic button I would wish the greatest success in the world to the guy who is trying to stamp out Tuesdays.

Here are the last of the magic button wish requests of Mrs. Farmer's fourth graders.

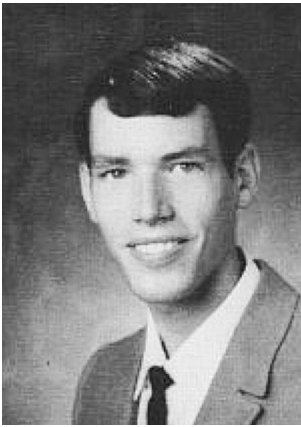

If I had a magic button I'd go across the world. — Kristie Hogg

If I had one wish I would wish for a motorcycle that would never run out of gas. It would go a million miles a second. That is what I would wish for. — Joe Vermaas

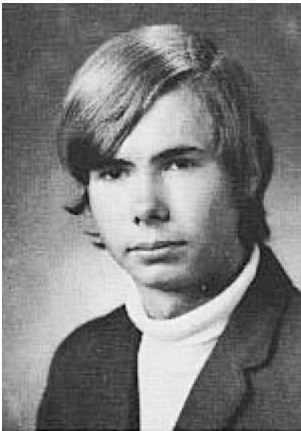

If I had one wish in a lifetime I would wish that I could be a jet pilot at the age of 19 and fly across the world and make a record. — His name was chopped off the paper.

If I had a magic button that I could push just once, do you know what I would do? I would wish to go to the moon. I would study the stars and know their names. I would ride in a space rocket, too. After all that was done I would ride back down to the earth and tell it all to you. — Deborah Whitman

UNCLE CHUTNEY SAYS — I always thought Ouagadougou was a Hawaiian fish.

Eldredge - Eric

Eldredge - Jim

Elgin - Susan Dippery

50 years! How is that possible? I still feel so young at heart and have such hope and so many plans for my future.

I transferred to Caldwell in my Junior year and have a huge appreciation for the welcome I received as a newcomer. Most specific memories are fleeting now...like snippets of a dream. What I do remember is that almost every single day was fun. There were always shenanigans to participate in and if life got boring there was always the Curb. Dad lost his mind and bought us a "school car"...a green Super Bee with green stripes...that made the cruising extra fun. But...I also remember what tumultuous times the 60s and 70s were. The war, protests and riots, assassinations were in the news daily and had a lasting impact on my life view.

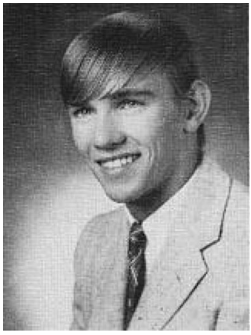

After graduation I attended nursing school at Boise State. My first job after graduation was working as a labor and delivery nurse at Caldwell Memorial Hospital. It was a match made in heaven! At age 40 I returned to school to become a Nurse Practitioner specializing in women's healthcare. I practiced in a variety of healthcare settings including being a provider for a large multi-site NIH study that determined best practices for following up on abnormal Pap smears. I co-authored a most-impacted article published in the Journal Obstetrics and Gynecology. Later, I participated in additional training to become a Sexual Assault Nurse Examiner for the Harborview (Seattle WA) Center for Sexual Assault and Traumatic Stress. I provided post-assault care and forensic services for women, men, and children. Such a (for the most part) rewarding career! I retired 8 years ago.

I met hubby Clyde in September 1973 and we married that December! He promised me that our life together would not be boring and for the most part that has been true. We've lived in Caldwell, Portland, San Diego, Omaha, Seattle, Tacoma (on a boat!) and now Kailua-Kona, Hawaii. In Seattle we started a retail business and built 9 stores before selling our shares to our business partner. We don't have children and love spoiling our nieces and nephews and their children. We've been able to travel near and far and are definitely ready to get back at it again. An RVing lifestyle may be in the near future.

In my spare time I love to knit and sew, garden, read, cook, snorkel and hang out at the beach. We are house staff to two Portuguese Water Dogs. I also spend too much time doing old folk stuff like trying to find reading glasses.

Well enough about me! I hope everyone reading this will come to the reunion. I'd love to see you!

Erskine - Dan

Works at Idaho Power

I get to give people money for installing efficient irrigation systems most of which are pivots

Former Inspection Coordinator at City of Boise Idaho
February 1985 - May 2013

Boise, Idaho

Assign projects to other inspectors and resolve issues, and goof off (mostly)
College

Studied Engineering/Water Resources at Boise State, Treasure Valley,
College of Southern Idaho

Been married to Connie since October 13, 1973 and have 3 children by marriage (Kelly, Laurie, and Jake) and a large extended family of kids I call my own.

Moved from Caldwell to the farm about 4 or 5 years ago. Have about 15 horses, 1 mule, 20 sheep, 20 chickens, 10 turkeys and numerous wild ones, 2 ducks and alot of northerners, about 200 pelicans in the summer, 20 head of cattle, 5 wild deer(muleys), once in awhile some wild elk (6+/-), 3 dogs, 3 cats, a few bobcats, to many coyotes, and a couple of foxes. We don't have any cougars on our place yet but they are just a few miles away towards the Snake River on the Boise River.

I have worked at the city of Boise for 25+ years, Connie and I bought the farm we now live on from one of her cousins.

Felt - Mike

Ferney - Michael

From 20th Year Reunion

In 1990 he lived in El Paso Texas and had 3 children: Greg 15, Mariah 13, & Brooke 10. He worked as an importer from Mexico and did real estate in USA.

Highlights: Being in a position to travel in the summer with my children& play in tennis tournaments in the Intermountain area. I play doubles with my son in men's open division. Brooke plays very well also. I spend the winter in Mexico or in New Mexico and the summer in Boise with my 3 children.

Ferro - Kathy Wells

Deceased 8/20/1997

SPOKANE -- Katherine Olive Wells, 45, an Orofino homemaker, died of a heart attack Sunday at Sacred Heart Medical Center in Spokane.

She was born Oct. 24, 1951, to Ross R. and Dorothy M. Patient Ferro in Caldwell, Idaho. She grew up and graduated from high school there in 1970. She later moved to Ahsahka, where she married William Josef Wells April 7, 1972.

They moved in 1985 to Orofino, where they had since lived. She spent most of her time at home caring for her children but occasionally worked as a cook, store clerk and seamstress.

She created crafts of all varieties and organized and helped run Christmas bazaars for a number of years. She was especially loved by children.

She is survived by her husband of Orofino; a son, William F. Wells of Orofino; a daughter, Julia K. Wells of Arvada, Colo.; five sisters, Joan Cayler, Margaret McKinnon and Dale Ann Cayler, all of Caldwell, Jackie Amos of Melba, Idaho, and Doris Willmorth of Snoqualmie, Wash.; and three brothers, Gary Ferro of Sea-Tac, Wash., William L. Ferro of Caldwell and David Ferro of Caldwell.

Her parents and an infant son, Warren Josef, died previously.

Ford - Brenda Snyder (Page 1)

{Letter received by Steve Roberts. Steve sent out an invitation to all to come to a meeting in the Caldwell Park, since the reunion has been delayed a year. Received permission to use the letter in our Memory Book}

Hi Steve,

Bob and I live in Boise now (although we are planning to move to Santa Fe next month.). The coronavirus numbers in Canyon County are just plain disturbing. I guess there is no enforcement or even agreed upon strategy for how to conduct a social event under pandemic circumstances, so I guess you're saying we just make our choices and take our chances.

And it is awfully nice of you to try to get people together. And honestly, Bob and I are not that social.

I'm guessing that most of the people coming would not be wearing masks or practicing distancing, so we would not be able to attend.

So thanks for writing Bob. I don't know if I'm on the roster since I was not terribly visible. I was quite fond of Teresa in 6th grade. We used to play jacks with Patty Lindsay who was so poor that I think she was malnourished and a bit mentally deficient. But I think Teresa (Roberts) may have gotten her a Christmas tree that year.? The next year, I remember that Teresa cried when Kennedy was shot.

I guess that's my part of catching up. Bob talked to Randy Ekanger (sp) at the last reunion. He'd never heard of me. Which is fine. I apologized to Carl Kaprowski for slamming his head in my locker in 9th grade. After 9th grade, I just did my best not to be seen. So success. Oh well. I have been writing Myra a bit. And Debbie (Lowe/Gulley) I lost without saying goodbye. It's hard to deal with all the tragedy. Debbie and I played together as toddlers up through and briefly beyond graduation. She married my cousin John. I do wish that I'd had a chance to see Chris Garcia again. He sat behind me in 3rd grade telling me not to cry just because I hadn't gotten my assignment on golden eagles completed, which was copying too long an article out of the encyclopedia. He got advanced a grade ahead of us, so I hardly ever saw him again after 7th grade. My best friend Kate Oswald moved to Twin Falls. I saw her once in the late '60's. She had purple fringed boots and a vest to match. Never saw her again.

After high school I went to college off and on while working for the forest service in Chamberlain Basin during the summer. I spent seven years doing that before going back to college full time at Boise State. That is where Brenda and I got together.

After graduating from BSU, I went to the University of Minnesota where I completed a PhD in Philosophy. I taught for a year and a half at Illinois State before taking a job at Humboldt State University in Arcata. It is the northern mist campus in the California State University system.

At Washington DC National Gallery

Ford - Brenda Snyder (Page 2)

I taught philosophy there for fifteen years before going into administration. In administration, I was briefly Assistant Dean and then Dean of the College of Arts, Humanities and Social Sciences but spent the last seven years as Provost and Vice President of Academic Affairs.

I retired in 2014 and we moved back to Boise in 2016. We are moving to Santa Fe this fall.

I've mostly just taken classes wherever Bob was teaching. So after getting my bachelors in history at Boise State, I took literature and botany at University of MN, didn't care much for Illinois. And then we settled in At Humboldt State for 27 years where I took math and science classes before going over to art classes mostly. Bob taught there quite awhile before going strictly into administration there. Miss

Humboldt Bay and the redwoods. We've been together for 40 years now, and most of that time in the Eureka/Arcata area.

Brenda Ford and Bob Snyder

Fouts - Steve

Deceased 12/29/2008

Steve Fouts, 57, Caldwell, died Monday, Dec. 29, 2008, in a Salt Lake City hospital.

Funeral services were held at 11 a.m. Monday, Jan. 5, at the United Methodist Church, Caldwell. Interment will follow at Canyon Hill Cemetery, Caldwell, under direction of the Flahiff Funeral Chapel, Caldwell.

Fragapane - Kathy Curtiss

Deceased 11/22/2016

April 4, 1952 - November 22, 2016

MERIDIAN - Our beloved mother, wife, and grandmother Kathleen Ann 'Kathy' Curtiss, 64, of Meridian and formerly of Jerome, Idaho passed away November 22, 2016, after a courageous and valiant battle with Pancreatic Cancer.

Kathy was born April 4, 1952 to the parents Raymond and Marjorie Fragapane of Caldwell. Kathy grew up in Caldwell and graduated from Caldwell High School in 1970 and further went on to complete her Bachelors Degree in Recreational Therapy from the College of Idaho in 1974. She worked for the State of Idaho as a Social worker and made a difference in the lives of many.

Kathy was a devoted mother to daughter Lauren and loving grandmother to her 3 granddaughters. They were the twinkle in her eye and the light in her heart.

On September 24, 1983, she married her love John Edward Curtiss in Jerome where they resided until 2004. Then they moved to Meridian in the house they continue to call home. Kathy's family and friends will remember her best for being a loving mother, wife, and grandmother (Mame). She loved her garden, had a great love for animals, especially her Golden Retriever Cooper and cat Winnie. and had a passion for cooking. She was a gourmet cook who could make anything taste delicious. She always had the table ready for her incredible lovely dinners. She loved her family dearly and will be greatly missed by all who knew her.

She is survived by her husband John Curtiss, daughter Lauren (John) Hansen, and her grandchildren Carsyn, Madisyn, and Berkeley Hansen.

She was preceded in death by her parents Raymond and Marjorie Fragapane.

Kathy's life was celebrated with close friends and family in Meridian, Idaho.

Franklin - Cheryl Miller

Vigneron at Half Basque Vineyard, Owner-Vineyard Manager at Half Basque Vineyard 2011 and President at Retired.

From 30th Year Reunion

I waited until I was 44 to obtain my college degree. My hobby is trap shooting and this is something I enjoy doing with my husband.

Franklin - Holly Claiborn (Page 1)

The past year and a half has put our lives in a different perspective, but it makes me realize (even more) how fortunate I've been to have grown up in such a nice place – with a lot of **really** nice people.

Like many of my classmates, we grew up in a pretty safe small town where our parents knew what we were doing (to our dismay) and we weren't so busy that we actually had time to appreciate the simpler things in life.

Holly and Vermaas

People are surprised that I still keep in touch with friends who attended kindergarten and elementary school with me. I don't think we realized how lucky we were to grow up in Caldwell when we did. I'm only sorry that I didn't get to know some of my classmates better.

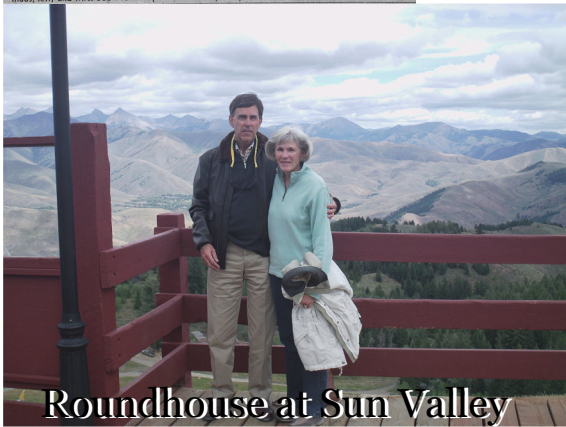

I've lived in Boise for a long time, but drive the "reverse commute" to Caldwell daily. After selling another business, I came back to work with my family business for the past 25 years. I still enjoy working and especially the challenge but it definitely doesn't help my tennis game much. And

At Brundage

Co. Party w/ Sister & Mom

Roundhouse at Sun Valley

I'm not getting to use my kayak as much as I'd like!

My husband and I have always seemed to

US Open in NYC

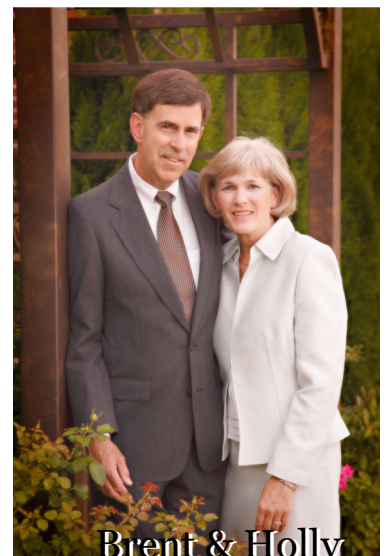

Macys Thanksgiving Parade

U&I Football in Florida

make time for travel and that's probably what I've missed the most this last year. We used to travel for our business conferences, but now we focus on seeing new scenery. We've traveled to England, Scotland, Ireland, Italy (several times), Austria, Switzerland, Germany, Mexico and probably some other places I can't recall.

I love attending sporting events and we've been able to attend

Brent & Holly

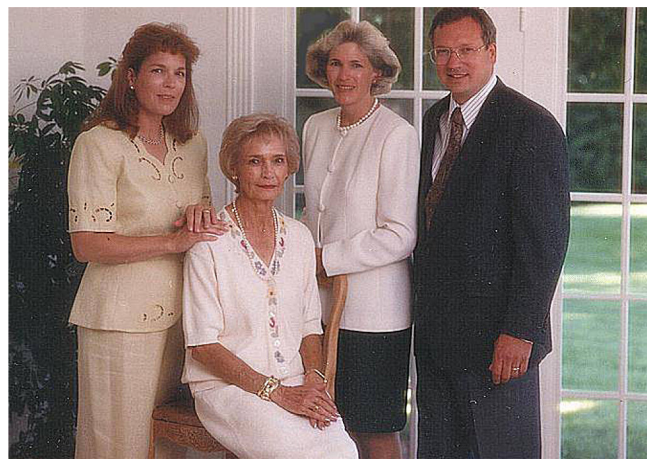

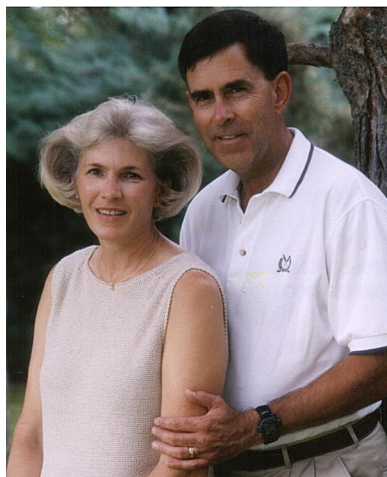

Franklin - Holly Claiborn (Page 2)

the NCAA Final Four, the Master's Golf Tournament and U.S. Open Tennis Tournament. One of the recent travel highlights was to attend the Macy's Thanksgiving Day Parade in New York as a sponsor.

C of I Sponsor Game

I've always enjoyed our reunion planning meetings (almost more than the

Franklin Family

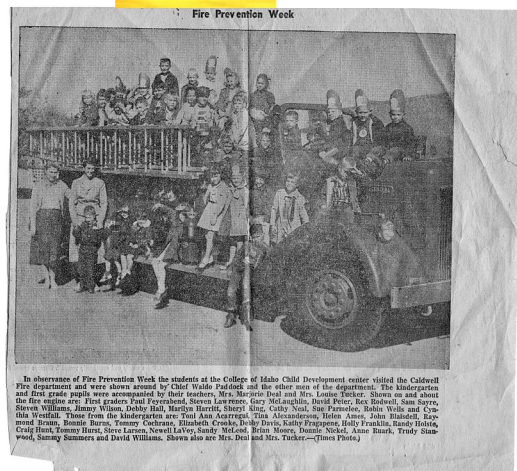

actual reunions) and I'm looking forward to seeing friends/classmates again this September.

At Wimbledon

Holly & Mom

Kidergarten

In Italy

Frost - Kathy Ward

My biggest accomplishment since graduating is my marriage to my husband Bill of 48 years this October or should I say he put up with me!

After the first 16 years, 2 children-Angie and Chris, and being a stay at home mom, I joined the work force in the medical field working for Sam Summers. This work turned into 30 years of the most rewarding journey. I retired in 2016 but missed the interaction with people and started volunteering at West Valley Medical Center here in Caldwell. Now my retirement is very fulfilling. During those 30 years of work, I joined Bill in volunteering for the Caldwell Night Rodeo. I created the CNR Breast Cancer Power of Pink Walk/Run that raises funds for mammograms and diagnostic ultrasounds for

under or uninsured patients. This passion was brought on by the loss of our friend Gayle Allen whose husband also was on the rodeo board. During the 10 years I chaired this walk/run, I also started a Golf Tournament in the last 4 years which also contributed to the funds that are given to our 2 local hospitals in Canyon County. After 10 years of chairmanship of the Power of Pink, I gave it up to enjoy our retirement. Our plans to travel were interrupted by health problems but it was only a little

set back. After 1 years we're back on track.

My life is also filled with Angie's 2 children, Jaycee, 19 and BSU Nursing student and Mason, 16, a Junior at Nampa High School. Until COVID19 hit, we enjoyed watching our grandkids in their athletic endeavors.

When I was in High School, I joined some of the clubs for extracurricular activity to be on my bio. Needless to say after high school, I started volunteering with our kids schools then moving on to the rodeo, CNR Power of Pink, and volunteering at the hospital. CHS laid the foundation for my volunteering.

GO COUGARS!!
