

O'Conner - Kay

Ogawa - Janis

*Growing up on a Nampa farm,
My three sisters and I were safe from harm.
Setting siphon tubes and slopping the pigs,
Was no easy gig.*

*A move to Caldwell and Jefferson Jr. High School,
Where I would play foosball and pool.
Washing dishes and making milkshakes at the family's pool room.
To work in my pink Chrysler New Yorker I would zoom.*

*Favorite classes were Choir and P.E.
Geometry and English I did flee.
Teachers Waggoner, Martin, Gabbard and Kidd
Coaches Alvaro and Nakano on the football grid.*

*The Beatles broke up our graduation year.
Lots of polyester I did wear.
As well as lots of panty hose,
Because it was popular, I suppose.*

*After graduation off to Boise State,
Tuition at \$120.00 was great.
A BS degree in science and physical education,
Along with a teacher certification.*

*Teaching pool for a PE credit at BSU,
A life time alumni for the orange and blue.
No kids to pay for cars, college or legal fees,
Keeps me footloose and fancy free.*

*Licensed in 1977 an associate broker in real estate,
Forty three years and counting to celebrate.
Competing pool at the amateur level,
Seven world championships I did medal.*

*Playing pool in 50 states is my bucket list,
With 16 states left to enlist.
Future retirement plans to travel far and wide,
With my partner Jerry Kirk at my side.*

*My Mom always said our family was lucky!
Although her time at Minidoka Concentration Camp was yucky.
Mom and Dad taught me to work hard and be independent.
I am filled with gratitude to be their descendant!*

Ogawa Wins Fifth VNEA World Championship Title

Janis Ogawa of Boise, Idaho recently won the 2017 Valley National Triple Bill Association World Pool Championships in Las Vegas, Nevada in the 8-Ball Classic Division.

Loosing the kill match to Dianne Bergall-Bollenbacher of Ohio, Janis came back convincingly to post a 4-1 victory in the first set and 4-1 in the second set to take first place. Brenda Phillips Ridge of Ontario, Canada finished third and Cynthia Norman of Iowa earned fourth place.

"It was a grueling mental and physical challenge. My motivation and focus was to win this championship for my Mom, who passed away in April and my Dad in 2010. They owned a pool room in the 1960's and 70's in Caldwell, Idaho."

This win results in five VNEA world championships for Janis. The last time she played in this event was in 2000 when she took first place in 8-Ball and 9-Ball. In 1997, score doubles partner, Curtis Shaden and women's team consisting of Sam Anderson, Linda Ellis, Frances Glau and Margie Fitzpatrick won first place respectively in their divisions.

Parker - Don

Deceased 1/22/2010

July 15, 1952 – January 22, 2010 (age 57)

Donald Ray Parker, 57, Boise, died Friday, Jan. 22, 2010, at his residence. Arrangements are pending at Cloverdale Funeral Home.

Parks - Kathy Gale

From 30th Reunion

Getting married, having children grandchildren, finishing my degree, sending my daughter off to college, realizing that life only gets better as we get older - there is always a challenge ahead of us.

Pedersen - Patty Moss

From 20th Reunion

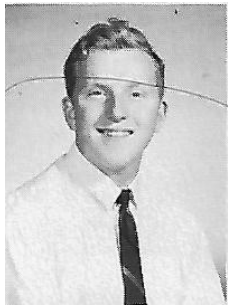

In 1990 she lived in Homer Alaska and was married to Chris and had a daughter Casey Ann 7. She owned/operated a boarding kennel and grooming shop.

When she grew up she wanted to be less tired, more organized, less profane, more smarter(?), less excitable, etc.

Highlights: marriage to Chris (15 years then) . The birth of our daughter Casey Ann. Working as a deckhand on our salmon seiner and learning the art and frustrations of showing and grooming dogs.

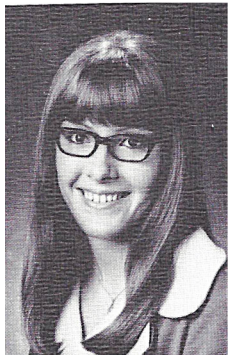

I remember: Tina Alexanderson for her prevailing sense of humor and personal integrity. Karen Nielsen for her enthusiasm and lasting friendship.

Peret - Dwain

Deceased 3/18/2015

Dwain Eugene Peret, 63, of Boise, died Wednesday, March 18, 2015, at a Meridian hospital of natural causes. He was born on August 27, 1951. He is buried on Canyon Hill.

Petersen - Martie Shaffer

From 20th Reunion

In 1990 she lived in Caldwell and was married to Ken and had 3 children Brent 13 Haylie 9 and Cortnie 3 and was diet clerk, Nutritional asst.-Mercy Med Center.

Pfaffengut - Joanie Wilken

From 30th Reunion

I have been able to be a stay at home mom and home school our daughter. That's pretty much it fo the past 10 years and that's what I will be doing for the next five. I love being a mom. I just wish they wouldn't grow up so fast.

Plaisted - Randall

Former CEO & Founder at President and founder, Budget Office Furnishings, 24 years. Likes to play Golf.

From 20th Reunion

In 1990 he lived in Boise and was married to Shawna and had a daughter Natalie. He was president of Budget office Furniture and VP of Boise Boat and Marine.

When he grew up he wanted to be worth a lot of money.

Highlights: Our 2.5 year old girl; boating; travel. Our success in both personal life and business life has opened many doors.

I remember: Mike Ferney taping his football shoes with white tape (ala Joe Namath) and when coach Charlie noticed his "show boating" made him run laps for punishment. Tim Van Slyke was always running somewhere.

Porter - Sharron LaVoy

From 20th Reunion

In 1990 she lived in Boise and had 2 children Jason 13 and Lindsay 11. She was Assistant manager of the Idaho Humanities Council.

I remember: The summer of '66, just before our freshman year. The horn of Sam's old red convertible would bring me running from my house, I'd jump in the back seat with 14 of my closest friends. And we'd head off for another perfect day. Thanks for the ride, Sam! I remember Randy Ekanger teaching me to drive a 4-speed. It was truly the blind leading the blind. I remember Tina, Newell, and Joe for making me laugh harder than I have ever laughed in my life.

Powers - Louise Miller

From 20th Reunion

She was married to Ken and had 2 tall blond and handsome boys Mick and Mark. She was a Special Education tutor. When she grew up she wanted to be thin, beautiful and debt free!! Highlights in her life were marriage for 16 years and her 2 boys. She was involved in Boy Scouts, church activities and sports with her boys. They traveled to several cities for sports competitions. She enjoyed working with young people more than she ever thought she would.

She remembers Kathy Parks who has been a dear friend since 4th grade. Terry Beukelman because of the fun times they had. She liked to take his car, skip school and go skiing. She thought of him often as a dear friend. Debbie Beukelman because of her long eyelashes. "I was truly amazed that anyone could have eyelashes that long." Nancy Sanders because her hair was blonder than mine. Newell LaVoy—I always thought he would be president some day. Guy Santiago—for some reason I thought he might have his own band. Jeff Jensen—the wiggle he had in his walk. Jerry Bates because he was so good looking. Wayne Thomas because of his artistic ability. I never saw anyone who could draw as well as he could. "I wonder how he used his talent." Sam Summers because he was nice. It seems only fitting that he would go into a profession that deals with People. He's a real people person and a nice one at that. Debbie Curwick and Rene Urberuaga juniors—to this day I cannot eat taco flavored doritos because of the senior breakfast "outing". I remember Mr. Kuharski in government because of all that he put up with in government class and because he always smelled so good.

Price - Betty Hawkins

Purcell - Steve (Page 1)

I didn't take education in school seriously until I went to college. It wasn't until after college I realized I had a hearing problem which explained why I was so bad at spelling. I always tried to sound out a word and spell it. That didn't work for me. Not hearing the correct words from teachers made me think school was a waste of time. There were a couple of teachers that inspired me to learn and to listen more intently. Broomhall was one and he drove me to learn more about all sciences. Before college I never studied for an exam and always did my homework before leaving school. I didn't really care about grades. College changed everything for me. I fell in love with computers, Biology and Physics and studied Math, Chemistry, and business accounting. No, it doesn't make any sense, but I wanted to learn as much as I could. I graduated from Linfield College in McMinnville Oregon in 1974. I ended up with a major in Biology and Physics and minors in Chemistry, Math, and Business. I wanted to go into Pre-Med but my GPA of 3.5 was too low for any Medical School to accept an application.

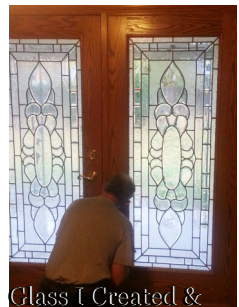

With One of My Sculptures

At college I met and married Tammy Bertsch who went on to become a Med Tech and worked in Boise and Ontario hospitals. We returned to Caldwell and I continued to work in the Family's NAPA store. I said continued, because I worked there during holidays and every summer since I was 10. While working at NAPA I tried my hand at metal sculpture thinking if I made better and more realistic sculptures than anyone else people would buy my sculptures and I would be a success. Not so. Getting great compliments and articles in newspapers didn't sell sculptures. However, some of the leftover sculptures decorate our home, which needed decorating.

Five years later, just as the IBM PC came out, I started to work in a Computer Time Sharing Company in Boise. I wrote code, wrote manuals, and taught people to use our accounting programs. We added software for political and church organizations and started to write a Bible program. First Interstate Bank came to us to write a "Payroll System" to process Payroll for their customers. We were processing payroll for companies in 15 different states. But the PC got better and people wanted to do the work themselves. The Time-Sharing company went out of business eleven years after I started there. While there I became "certified" in different computer programs and the Windows OS. I was a "Beta Tester" for Word Perfect, Lotus 1-2-3, Page Maker, and a couple of other programs.

From there I worked for Sheldon Morgan in his glass and door company for a summer. I loved the work and the opportunity but I was looking for something different and I was having arthritic problems and so moved on.

The next three years found me working at a high-end hardwood door company in Nampa. I created their stock room and tried to be a sales manager in the first year. Not being a salesperson, I was moved to working in the glass department. I enjoyed making glass panels for doors, sidelights, and transoms. I tried my hand at carving wood, but I needed more experience as I was too slow. The last year found me back in the stock room as I took over running the stock room, purchasing all the inventory, supplies, and anything the company needed. I was the Employee of the month twice while being there. Because of the Spotted Owl problem in California the company's sales suffered. We were selling over \$250K in doors and glass a week (around 100 to 150 doors) which continued to dropped the next 3 years. Sales worsened and the company went out of business two years after I left it.

Glass I Created & Made for Our Home

Bamboo Floating In China

In 1992 I went back to the Family NAPA auto parts business. My job continued to change as the business changed. At one time we had nine different stores in eight different cities and two states. I ended up ordering the bulk of the inventory for all stores, being the payroll department, paying vendors, managing the accounts receivable, making most of the repairs on the computers and printers, helped in keeping the network working, writing the employee and company's handbooks, ordering most of the supplies for the stores, and trying to be alone upstairs in the Caldwell store the best I could. A highlight was being able to take a short course on the BMW Performance School track. My grandfather started the business when he was 40 in 1936 and loved it. I loved the steady income and at times I loved the job. After working there, a second time for over 23 years my brother decided to take over the business and left me without a job and many thousands in debt. You could say I am unhappy about my brother. It is very sad to me that our three

BMW Performance Track

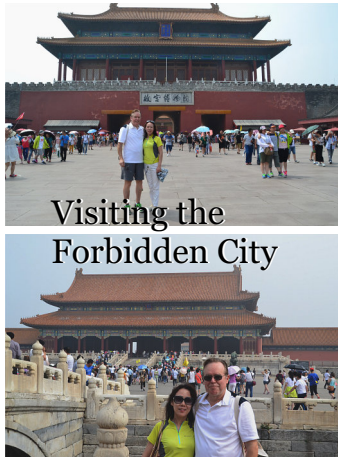

Lili & I

Purcell - Steve (Page 2)

generation family business came to an end in 2021.

Having no choice, I used the resources I had and sold and purchased different properties to go further in debt. Today we rely on rental income as no one wants to hire a plus 70-year-old other than Walmart. I have been making and repairing golf clubs for over 20 years. Ever since I graduated from College, I have been playing racquetball at least 3 times a week and now playing pickleball. About 18 years ago I became angry at the stringers in my area and taught myself to string racquets. I am proud to say I am the major racquetball stringer in the Boise valley and I am a Professional Level Racquetball teacher.

Visiting the Forbidden City

After 35 years my marriage to Tammy ended. Thinking I would never find a woman I could love again I almost gave up. But over 9 years ago, I met and married Lili Dong. I had dreams of a perfect woman for me, come on, all of you must have dreamt of having a perfect mate for you also. Lili is better than my dreams. The only problem we have is in communication as I don't speak Mandarin and she is learning English. I cannot hear the different ways to pronounce words to speak Mandarin so Lili is the one who is gifted with learning English. Technology has been great in providing a good way to translate languages and it is why we could date without either of us knowing more than 5 words of the other person's language. I could not find a better partner and she has literally opened up the World for me.

Some of the Terracotta Warriors at Xian

Having the right person by your side makes the world bright, full of life, fascinating, and happy to be alive. So far, we have traveled to China thrice, Singapore, and Thailand. When I first wrote this Lili was making plans to go back to China to visit her mother who has cancer. COVID hit and the price of plane fare jumped from \$1K to \$6K and she couldn't go back. Her mother died as she could not go to a hospital for treatments. We still have not gone back to China. Lili's son and daughter-in-law are now in Singapore to start and work in a Micron plant. China has wonderful people, but everyone is afraid of the government and tries to live the best they can and don't talk politics.

English Class In China

My middle son is Alex who lives here in the valley selling services to truckers. He can sell ice to Eskimos. He is married and gave us our first grandson over 5 years ago. Our eldest son, Jason, lives in Seattle teaching martial arts in his studio. Jason is a six-degree black belt in Tae Kwan Do and has several other black belts in other disciplines. Our only daughter, Aleta, moved to California. She loves Cosplay and is working at Disneyland. Lili's son and daughter-in-law gave us our first granddaughter over 4 years ago. All in all, we are mostly healthy, getting out of debt, and very happy.

English/Bible Class In Our Home

Never give up on your dreams.

Putnam - Cindy Gabrielsen

Owner at Leaf LLC, 2003 to present. Former Speech and Language Therapist at Caldwell School District 1988-2006.

From 20th Reunion

In 1990 she lived in Caldwell and was married to John and had 4 children Alexis 15, Amanda 13, Adam 11, & Aaron 9.

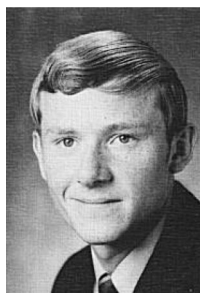

When she grew up she wanted to be a social director on Princess Cruise lines or the US ambassador to the Bahamas.

Highlights: married with 4 children- 3 ups and 1 Downs (literally). BS in Speech Pathology 1974 BYU. Teacher certification 1987 C of I. Permanent parent volunteer for Caldwell School District 1979

I remember:

Multiple choice answer:

- (a) I remember no one because I was in a fog
- (b) I remember everyone because you are all so "special"
- (c) None of the above--I'm just too lazy to write a real answer

Randall - Dave

From 20th Reunion

In 1990 he lived in Caldwell and was married to Theresa with one child Kelley 9. He was a Building Contractor.

When he grew up he wanted to be healthy and wealthy.

Highlights: watching our daughter grow and teaching her many of the things I enjoy. Sam Summers for getting a technical foul and being kicked out of the game during our junior year of basketball. He made a great "come from behind" ankle tackle of a Capital High School guard!!

In high school during duck hunting Dave was affectionately known as "Skyblast Randall".

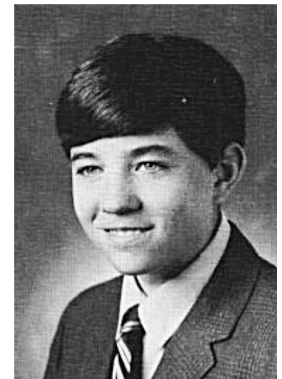

Rankin - Bruce

Memory of time spent at CHS is very similar to an attempt at recalling details of dreams. Little snippets come and go; nothing consistently stands out, other than I enjoyed being around nearly everybody.

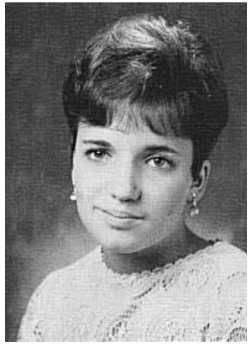

By early fall of 70, I was in the USAF and spent two years each at Pacific City, OR (Mt Hebo) and then Tacoma (Air Defense Command, McChord). I then moved to the Wood River Valley for 10 years - playing/touring/recording music, managing the Ketchum Wine Market and the Magic Lantern Cinema. In 84 I moved to Boise. BSU for music and history and managed The Flicks and Rick's Cafe. 86-88, summers with BLM Fire and winters ski patrolling at Bogus. 88 I stumbled into the Boise Fire Dept (best job ever!), married, was gifted with daughter Sara, divorced, married to Gail in 94 and retired from BFD in 2012 as Operations Division Chief. 2014, Gail and I moved to McCall and built our house. Gail is a physician, now specializing in Functional Medicine and Acupuncture. We ski, bike, kayak, fish, hike, camp, travel, play music and enjoy every day.

With Daughter Sara

With Girlfriend, Buddy, Spouse - Gail

Rappe - Karen Prowell

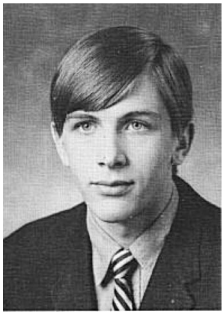

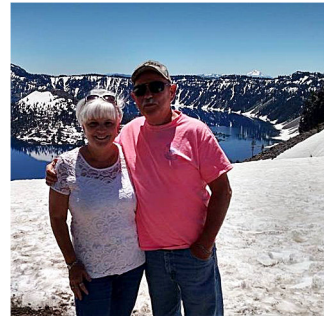

From 20th Reunion

In 1990 she lived in Roseburg Oregon and was married to Steve and had 2 children Jessie 17 and Dusty 12. She was a Pharmacy technician.

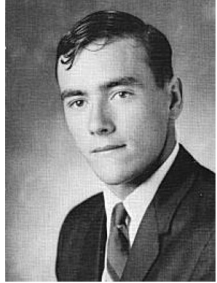

When she grew up: wanted to be a kid having fun

Highlights: seeing her daughter graduate from Highschool

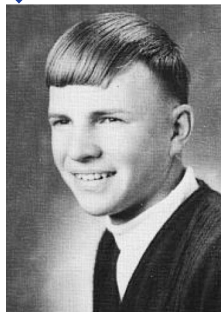

I remember: Kathy Jo Squibb because of her sense of humor and her wonderful jokes. A special hello to my P.E. buddies- Cheryl Franklin, Penny Johnson, Nancy Gahley and Janice Ogawa.

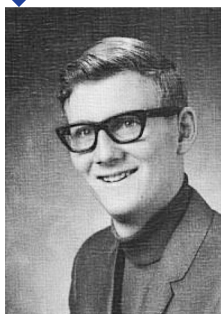

Rayne - Harlan

Readman - Jerry

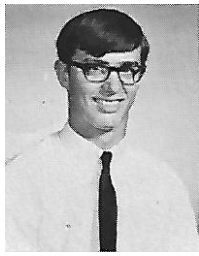

Reece - Noel

Reyburn - Boyd

From 20th Reunion

He lived in Aurora Colorado and was married to Marsha and had a daughter Julie. He was an engineer. His highlights were working and traveling overseas. He remembered sitting on the bank across the street from JJHS with a bunch of guys watching the "scenery" . . . while the 8th grade cheerleader tryouts were going on. Living in the same house since 1988! Prior to 1988, I moved every 1 to 3 to 5 years.

Steve - Roberts

From 20th Reunion

In 1990 lived in Boise Idaho (now lives half of the year in Arizona). He is married to Kathy and had 3 children—Justin 22, Larry 19 and Erica 13. He was a commercial estimator for wholesale plumbing.

What would you like to be when you grew up: a professional teenager—you have all the fun and none of the responsibilities.

Highlights: Regional Softball Tournament Seattle 1979. Flooding Alan Chamness' bathroom, 1989. Fishing Henry's lake for trophy trout every opening day for the last 8 years. Most memorable fish: 5 lb eastern Brook trout, 8.5 lb cutbow; However the biggest catch was me, hook thru the thumb, the most painful extraction accomplished only with 2 cases of Budweiser.

I remember: Alan Chamness because he has been an outstanding friend for 25 years and because his wife Debbie makes it such a pleasure for my wife and I to spend so much time with them. Ron Smith, Chuck Krause, Brent Kelley for various reasons. My sister, Teresa, and the song "Monie, Monie" by Tommy James because the summer of 1969 I heard it 6000 times while the girls trying out for cheerleader practiced at our house. Brent Andre fondly known to me as "Uncle B", because not only is he a dear friend, but he is the personification of what courage was meant to be. He is a man not only willing to share his heart, but his pool table when all the bedrooms are full. Please Uncle B, forget to turn the sprinklers on next time Yours Truly get lost in the bushes!

And in closing, what I really remember most is not a classmate, but a class. They made me laugh, they made me cry, they made me think, and at times made me unconscious. To quote half a phrase, they were the best of times. It was a time and place where the rest of the world did not exist. Though the rest of the world was experiencing a time of grave turmoil and unrest, Caldwell was an enclave of sanity in a world that did not know what it wanted or what to do. I have only 2 regrets: that I can't go back and that my children will never have the opportunity to experience the same thing, in quite the same way. The world has changed.

Roberts - Teresa

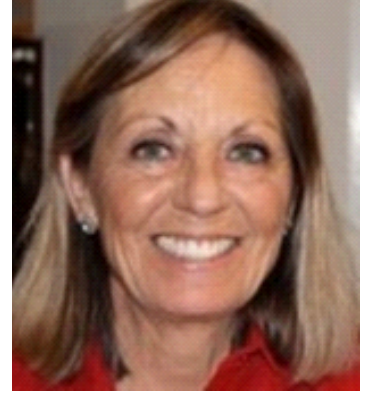

Deceased 7/9/2013

Teresa Roberts, 60, of Caldwell, Idaho died Tuesday, July 9, 2013 at home with her family, after a two-year battle with breast cancer. She was born in Caldwell on October 16, 1952, the second of five children to Roberta Svendsen (Lamb) and Russell Roberts.

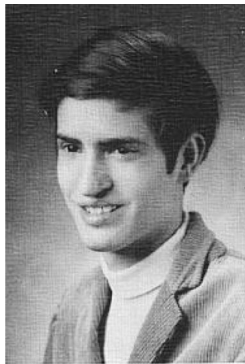

She studied literature and poetry at the University of Houston in 1972. In 1976, she married Vern Cobb and had two daughters, Amanda and Tiffany (d. 1989), for whom she provided a home full of love, music, learning and creativity.

In 1993, she embarked upon a new journey, becoming a rural postal carrier with the United States Postal Service, where she worked until her death, and devoting her love to Mark Todd (Caldwell), with whom she spent the last 20 years of her life, and whom she married in 2003.

Teresa loved music, a good story, her garden, dancing, Scrabble, and Pinochle; she had an eye for beauty, and created a home paradise of flowers, color, and collected treasures. However, her first love was her family, with whom would share anything. She considered her friends, including those at the USPS and those on her mail route, as part of her family. People could expect to receive from Teresa a dazzling smile, good advice, empathy, a laugh, or a shoulder to cry on. She was often thinking about how to make the lives of others easier, more beautiful, and special in some way, and she was known to go without so that those she loved never wanted for something indulgent. She was a strong, classy and intelligent woman with the kind of insight and eloquence that left others richer just for having known her.

Teresa is survived by her parents, siblings, her husband, and her daughter. No services will be held but a private gathering of family and close friends is scheduled for July 13.

Rodwell - Rex

Deceased 11/26/2020

Rex Sterling Rodwell, 69, passed away peacefully on Thursday, November 26 after being diagnosed with ALS two years ago. Rex was born March 2, 1951 to Jack and Leona (Kuhlman) Rodwell in Nampa, Idaho. His first years were in Nampa before the family moved to a house on Linden Street in Caldwell in 1956. Rex graduated Caldwell High School in 1970 and attended the Arizona School of Technology in Phoenix and Boise State.

In 1974 while working for Caldwell Paint and Glass, he began an apprentice glazier program, becoming a Journeyman Glazier in December 1977. He continued for 32 years as a commercial glazier, working the last 27 years for Commercial Glass in Boise. His meticulous preparation for the job and work ethic made him one of the top commercial glaziers in the valley up until his retirement in 2006.

Rex met his wife of 46 years, D'Ann, in 1972. They were married two years later and had one daughter, Jennifer. Rex was a loving and wonderful husband and father. In the early years, one could find him in the yard helping Jenni with softball and golf, or on the basketball court showing her the skills of the game. He maintained a meticulous home; every blade of grass was cut the same, every leaf was picked up, and the gravel was always raked. He maintained his vehicles the same way...they were all white and never dirty!

Rex loved the mountains, especially Warm Lake, Idaho. He would visit there often in the summer as a child, staying at his grandparents' cabin. Through the years that was his favorite place to go camp and explore on four-wheelers. Some of his favorite rides were to Rice Lake, Angel Flight Pass, and coyote rock. He enjoyed taking friends to ride and see the views at Warm Lake. A basketball fan, Rex LOVED the game. He was proud of his record of watching more than 585 College of Idaho men's home basketball games since 1980 (missing 1 game in that time).

In 2000, Rex and D'Ann became the "Idaho family" for then-basketball player BJ Humphreys; that opportunity gave Rex a "son". They had an immediate connection, and Rex and BJ had many adventures in the mountains riding four-wheelers to remote places, setting up hunting camp, and having endless conversations about basketball and life. Rex believed in helping others and volunteered his time at the C of I on various projects in the athletic department.

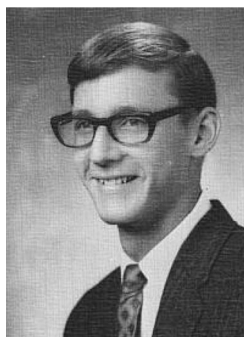

A perfectionist, his work showed through in each project. Rex was very humble and never wanted to be acknowledged; however, he was awarded the College of Idaho's President's Medallion for his commitment to the college and in 2019 was inducted with D'Ann into the College of Idaho Athletic Hall of Fame for Meritorious Service.

Rex was preceded in death by his parents, sister Linda Lane, and brother Jeff Rodwell. Rex is survived by his wife, D'Ann of Caldwell; daughter Jenni (Josh) Ginsburg of Indianapolis, IN; son BJ Humphreys (Becca) of Eagle; grandchildren Piper and Berkleee Humphreys (grandpa's pride and joy); sister Gregg Ann Rodwell; nieces, a nephew, cousins and many wonderful friends. The family would like to extend their gratitude to Dr. Steven Koga, Journeys Hospice, Becca Humphreys and Lori Owen for all their love and support during Rex's last days.

Romey - Pat

From 20th Reunion

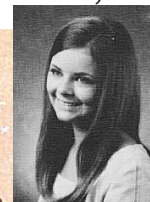

Studied German and lived in Germany working for an orchestra. Then he moved to Minnesota.

Rosandick - Kerry Ellen Elliott

1. The lesser-known events and brief personal moments experienced at CHS had a greater impact on my life than any dance, sporting event or classroom antic. Amidst my teenage angst and self-absorption, I observed or was on the receiving end of small acts of kindness and maturity from fellow classmates and staff that leave me awestruck even today. Some of these individuals are around, some not, but their brief presence in my life was a gift.

2. The best thing that ever happened to me was the DRAFT! My boyfriend enlisted in Navy AOCS. We married quickly and took off for Pensacola, Florida. It was baptism by fire, but at the same time a great adventure. Hubby was off training or deployed most of the time, so I grew up fast and became very independent, while moving up and down the east coast and the south. Later he took a job with American Airlines and we moved to Texas, where we raised 3 children.

3. As far as major accomplishments go, I am proudest that I was able to return to school after 18 years (non-traditional student) and finish my degree. There were huge challenges and demands on my time, but I persevered. I loved school, the professors and my much younger fellow students who affectionately called me "the curve buster".

Memories that still make me smile:

- Home Ec with Tina Alexanderson--Domesticity was not Tina's thing, but, with dedication and focus, she took on a dress-making project. Upon completion, it was discovered she had sewn the arm holes closed! We all laughed, including Tina!
- Mrs. Cowley-Home Ec--the kindest lady ever, gave me a life-time of practical skills.
- Coach Barrett-History--don't know how he was as a coach, but unlike some of his peers, he took his teaching responsibility seriously.
- Mr. Broomhall-Biology--always gave 100% and asked big questions like: "What is life?"
- Mrs. Leasure-Drill Team--can only imagine what our parents thought about our slightly risqué St. Louis Blues routine!

Rosencrans - John

Deceased 9/12/2008

John "Dick" Rosecrans, 58, Boise, died Friday, Sept. 12, 2008, at home. Arrangements are pending at Summers Funeral Homes, Boise Chapel.

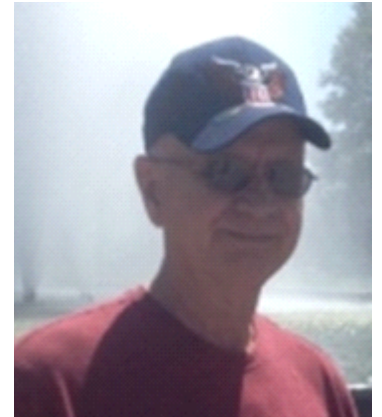

Rosling - David

Deceased 2/15/2015

David Lee Rosling, 64, of Caldwell, died February 18, 2015 at a Burley, Idaho care facility surrounded by family.

David was in 101st Airborne during the Vietnam War.

David had a great love for the outdoors including flying, parachuting, hunting, golfing, horseback riding and building bird houses. David loved to write stories and poems. During his younger years in the Bahamas he was a golden-glove boxer; winning his final match with a broken hand.

David was born January 26, 1951 to Arnold & Rose Rosling in Mandan, North Dakota. David is survived by 3 children, Jennifer, Jared, and Jonathan. Eight grandchildren: Aliyah, Elisa, Aryana, Jonathan, Connor, Jayce, Brandonn and Dawson. David is also survived by 2 brothers, 2 sisters Arnold and Debbie Rosling (Tonya, Donald, & Tiffany), Richard Rosling (Sarah & Rebekah), Carol & Mel Foster (Tracey, Greg, Doug), Susan & Richard Gollobit (Lisa & Jacob) and several great-nieces and nephews. David is preceded in death by his parents Arnold and Rose Rosling and nephew Daniel Rosling.

David wanted everyone to know, "He Lived, He Loved, He Died."
