

Rabbit Hill Wool Mill

Minimum and maximum weight per processing batch

Sheep wool: **15lbs** incoming weight (After washing, it will weight about 40% lighter due to washing out the lanolin and the dirt.)

Alpaca fleece and Angora Goat (mohair)
10 lbs incoming weight (It will weigh aproxi-
mately 10% lighter after washing due to
removal of dirt and dust.)

Exotics (Qiviut, Bison, Angora Rabbit etc.):
10 lbs incoming weight please contact us to
see our mill can process your exotic fiber.

Our maximum incoming weight is 450 lbs per batch. If you have more than 450 lbs needing processing, we would have to schedule that as a separate batch. Once your first batch is paid for and collected, we will start on your second batch. We can do as many batches as we need to to get though your wool.

We can blend fibers with your base fibers, You can use the fiber to be blended as part of your minimum weight.

Mill supplied blending fibers cost extra. These will not be included in the washing fee; however, there will be a \$15.00 per lb deposit on mill added blending fiber. The actual price of the blending fiber depends on the type of fiber you want blended. The deposit will be taken out of the final cost.

Please contact us for pricing on blending fiber.

Washing and Picking: \$9.00 per lb incoming weight (Washing Fee must be paid before processing can begin.)

Spinning into yarn: Spinning includes carding, pin drafting, spinning, skeining, and final wash of skeins.

(Prices for finishing yarn are based on out going weight of the skeins. There is a 20-40% reduction in weight for sheep wool when it is washed. This is why it is important to skirt you fleeces well.)

Worsted weight \$38.00 per lb
Sport \$38.00 per lb
Fingering \$40.00 per lb
Lace weight \$45.00 per lb

Rug yarns \$.75 per finished yard – Price includes washing and processing fees, along with any additional fibers or colors added to your fibers.

Please email if you have a custom weight that you would like us to try.
