

## A Little Colder

### Verses

What I found out you'll never know... And the way I react sometimes is often slow  
Situations are alike in ways it seems... though, it's hard to find out what that really means  
You looked at me like there was no one there... I looked back to see an empty stare  
Nothing inside is what I feel, still...  
You pushed through hoping I'd turn around

### Chorus

Don't leave me broken and torn in two  
The darkness will surely fall if you do  
Lord knows that's the truth  
Words left unspoken never heal, but old wounds still bleed

### Verse

When you looked in what did you see? It was all just a lie that had a hold on me  
I want to reach out and try to touch your breath... but, it's hard to relate, given all that I've seen  
I'm sure you know that there is something wrong... as you try to relate to my eccentricity  
You need to know that I wanted you here with me... it's just, well, sometimes my words got the best of me

### Bridge

Time makes you older and, feel a little bolder  
That doesn't mean we can't relate  
Time pushes forward and, you feel a little colder  
I feel the words **you'll never say**

### Repeat Chorus

Don't leave me broken and, torn in two  
The darkness will surely fall if you do  
Lord knows that's the truth  
Words left unspoken never heal, and  
Old wounds still bleed
