

## Lonely Chameleon

### Verse

Blue sky shining all around; I feel the warmth of the sun as it gently hits the ground  
And the birds are singing while all the bees just buzz around  
Still a feeling of emptiness brings me down

### Pre-chorus

Sometimes I never think of the ways in which I've grown  
I'm always focused in on the fact that I'm alone  
Spending all of my time I walk like I'm in a daze  
Like some sentimental soldier lost in some dark haze

### Verse

I turn to kiss the sky as I walk around; just another empty night of torment is what I've found  
Still I hope and pray and sing out my songs; hoping one day they'll be found

### Pre-chorus

And I'm always living life with a view from the end  
Even though I've been blessed with many friends  
And so many things for me to be thankful for  
What you see in me is only a reflection of who you are

### Chorus

I'm just a...lonely chameleon  
A broken feeling with no end  
Just a lonely chameleon  
Changing places over again and again

### Verse

I open up my heart as I walk around; walking slowly only makes my thoughts seem more profound  
When I finally stop to see a smile through a frown; is when I find that I have so many thoughtful sounds

### Pre-chorus

Sometimes I never think of the ways in which I've grown  
I'm always focused in on the fact that I'm alone  
Spending all of my time I walk like I'm in a daze  
Like some sentimental soldier lost in some dark haze

### Chorus

I'm just a...lonely chameleon  
A broken feeling with no end  
Just a lonely chameleon  
Changing places over again and again
