

Misery Machine

Verse

Can't seem, to shake this disease; Can't seem to get back what I need
In a world that's running out of shame; feeling all the pain I cannot tame

Pre-chorus

All this hatred is killing me; trapped inside this misery machine

Break [4x]

Verse

They're pushing me right up to the brink; the stupid rules are forcing me to think
The therapy just, won't seem to take; I feel the tears draining down my face

Pre-chorus

All this hatred is killing me; trapped inside this misery machine
Trampled on, the highway of the world; must let go of the misery

Chorus

Memories, flash before my view
Only fragments of pain I once knew
Nothing changed, until the day I let go
Of the life, I thought I would know

Pre-chorus

All this hatred is killing me; trapped inside this misery machine
Staring down, the highway of the world; all the pressure, it's squeezing me

2x Chorus

Memories, flash before my view
Only fragments of pain I once knew
Nothing changed, until the day I let go
Of the life, I thought I would know
