

## What A Silly World

### Verse

I have a confession that my; condition seems to come around again (why I don't know)  
And what compels me I feel; runs much deeper than I'd really like (but what do I know?)  
Coursing on through my veins; and between my bones and my skin (can't you see it?)  
And it traps me again; it keeps me from the feelings that I'd like (I can't believe there's...)

### Chorus

No resolve and no end (to this farce)  
What a mess we're all in (we're all together)  
I can't believe there's no end (to it all)  
What a silly world we live in

### Break

### Verse

And I'm trying hard to find; but I don't know when it's going to end (maybe someday)  
And though I try to close my mind; but I know there's nowhere to hide (but I still try)  
And it traps me again; it keeps me from the feelings that I'd like (I can't believe there's...)

### Chorus

No resolve and no end (to this farce)  
What a mess we're all in (we're all together)  
I can't believe there's no end (to it all)  
What a silly world we live in

### Bridge

I've come undone; I've tried to change everything again  
I try to weigh; all the words you say to me; just don't let me fall

### Chorus

No resolve and no end (to this farce)  
What a mess we're all in (we're all together)  
I can't believe there's no end (to it all)  
What a silly world we live in
