Grow your plants with Vibrant Plant Solution!

Great results when used for:

- Failing or malnourished plants
- Outdoor Potted plants
- Indoor House Plants
- Landscaping Plants
- Urban Gardens
- Green Houses
- Vegetable Gardens
- Flower Beds
- Trees

You can even use this on your lawn and save on a fertilizer company. It is safe and will not burn any plants.

Directions: SHAKE WELL add 3 tablespoons (1 1/2 ounces) Vibrant Plant Nutrient Solution Concentrate per 1 Gallon of water. Water plants as usual. Repeat every 10 to 14 days.

Enjoy healthy thriving plants and high vegetables, fruits, and flower yields.

Testimonials

Timo B. Plumer PA.

I've had the best results in my gardens. With all my plants, flowers, vegetables, fruits, and herbs

Marissa J. Old Hickory TN.

My plants did not thrive until I started using Nutrient Solution. I am so thankful that I did. Thanks for making me a Green Thumb.

John B. Grand Rapids, MI.

The first time I used this product, I tested it on one tomato plant and compared it to the others. Within a few weeks, the plant was significantly bigger and greener than the rest. I have now been using this product for a couple of years on my vegetable garden and am very satisfied.

THIS STUFF WORKS!
